

SRI SIDDHARTHA DENTAL COLLEGE AND HOSPITAL, TUMKUR
DEPARTMENT OF PUBLIC HEALTH DENTISTRY
2023 JULY EXAM GOING BATCH
I THEORY IMPROVEMENT INTERNAL ASSESSMENT MARKS
Assessment for slow learners

Students who had scored less than 50% in internal assessment were asked to meet head of the department. Then students were asked about the problems which they are facing in understanding and writing the paper. Test for improvement was conducted and evaluation was done. The identified slow learners showed improvement.

List of slow learners according our observation and results of internal assessment and improvement test results:

Sl. No	Name of the students	Int-Marks Max. Marks 70	Improvement exam marks-70
1	Nikhitha Baskar	33	38
2	Ankur Dutta	26	35
3	Ashutosh	21	35
4	Bhoomika MP	20	35
5	Chandru Riteesh	26	35
6	Fathima Firadose	33	35

DEPARTMENT OF ORAL PATHOLOGY

RESULT ANALYSIS TO IDENTIFY SLOW LEARNERS

Details of outcome measures:

The institution has a slow learner and advanced learner policy. Accordingly, the students are grouped into slow learners i.e. who score less than 50% of the allotted marks in the internals and those who score 75% of the allotted marks are considered to be advanced learners.

The slow learners are asked to meet their respective subjects Head of the Departments to discuss their issues with the subject. The problem faced by the slow learners if related to teaching pattern or any other issues are solved and further these students are asked to give their internals once again after giving them ample time for preparation. Their performance in the repeat internals is assessed and the improvement is noted. Many of the slow learners are also counselled individually by the respective allotted mentors if they have any grievance related to academics.

The procedure is followed in all the departments of the institution and it is noted that there is a gradual improvement in the learning capabilities of slow learners.

2022 - 2023 Even Semester (17 th April – July 2023)				
Sl. No	Method to Identify slow learners	Measures taken to improve	Outcome of measures taken	Feedback from Students
1	After the first test depending on their scores who got less than 12 out of 30 marks, students have been identified in the different subjects and listed them as slow learners.	Remedial classes have been conducted for those students as per the time table framed after the class hours for one day in a week.	Some of them have been improved in their scores in the second test and in the final end examinations.	Students were very happy to attend as they find an improvement in their scores.

Process to Identify Bright and Weak/Slow Learner Students

Sl No.	Method to Identify Slow Learner	Measure taken to improve	Outcome of the measures taken
1	After the first test, students who have scored less than 12 for 30 have been listed as slow learners in different subjects. Their involvement in the class and activeness also is considered to list them as slow learners. Faculty	- Remedial classes have been conducted as per the scheduled timetable after class hours. - Additional Instructions are given to faculty to keep the students engaged productively in the class.	They have improved in their scores and have got good marks in the end-term exams.
2	Method to Identify Bright Students After the first test, students who have scored ≥ 25 marks have been listed as bright students. Faculty also considers the skills, communication and their active involvement in the class to mark them bright students.	Measure taken to Encourage - Extra counseling to motivate students to take up higher studies and undergo additional NPTEL / SWAYAM course. - Students are encouraged to carryout innovative projects. - Students are encouraged to be the members of professional bodies. - Students are motivated and inspired to get high score / university gold medal.	Outcome of the measures taken Many Students completed their NPTEL/SWAYAM courses. Few of them chosen to take up higher studies. Many students have done hobby projects to show their programming skills. Few students are members of professional bodies like ISTE/ IEEE.

9	22CS109	Thanuj H N	8	20 ✓
10	22CS117	Vinay R	6	18 ✓

Action Taken

- Given some extra assignment
- Discussed with the above students how to prepare & write the C-program

In IInd Internals some of the students improved in their performance.

Slow Learners Identification and action taken report

Subject: Computer Networks

Subject Code: CSTH3

Sem / Section: 6th "A"

Method of identification:

- Marks obtained in Test-1
- Classroom discussions.

Slow learners List

Reg No	Name	Status of the student during Test-1	
		Marks taken / Max Marks	Percentage
20CS005	Afreed Ahamed	12 / 30	40%
20CS006	Aishwarya B.R	9 / 30	30%
20CS007	Aishwarya O.S	10 / 30	33%
20CS010	Anu N Raj	10 / 30	33%
20CS013	Ashika Jayachandra	8 / 30	27%
20CS018	Bhumika R	8 / 30	27%
20CS027	Deeksha K.S	9 / 30	30%
20CS039	Karthik H.R	1 / 30	3%
20CS047	Md.Kabeer	9 / 30	30%
20CS048	Mrudula P	10 / 30	33%
20CS055	Nisha H.R	12 / 30	40%

Action taken to improve slow learners

- Compensatory Teaching classes after the regular class hours.
- Sending them the notes and providing old question papers.
- Guiding them the skill of writing answers in test

Time Table for compensatory teaching classes

Day	Time
Thursday	3.15 – 4.15
Friday	2.15 – 3.15
Saturday	1.30 – 2.30

Outcome of the compensatory teaching classes

Reg No	Name	Test-1 Max Marks -30	Percentage	Test-2 Max Marks - 30	Percentage
20CS005	Afreed Ahamed	12	40%	24	80%
20CS006	Aishwarya B.R	9	30%	11	37%
20CS007	Aishwarya O.S	10	33%	17	57%
20CS010	Anu N Raj	10	33%	23	77%

SEMESTER: 5th

Identification of slow learners after Test 1.

[illegible]

The ~~above~~ students ~~scored~~ scored less than 40% of marks in Test 1.

Signature of the staff in charge

Remedial classes for slow learners, year 2022-23

SUBJECT NAME: Automotive Engineering

SUBJECT CODE: ME67112

FACULTY INCHARGE: Shankar Nag G.L

SEMESTER: 6th

Identification of slow learners after Test 1

List of Slow learners:

Sl no	Name of students	USN	Remarks
1.	Dushyanth Gowda	20ME004	
2.	Meghan Gowda	20ME006	
3.	Naveen Kumar H.R	20ME007	
4.	Pathran. Dhruv	20ME011	
5.	Robith Madhavan	20ME013	
6.	Shashank N.R	20ME014	
7.	Chandan Kumar	21ME404	
8.	Chithra y	21ME406	
9.	Manoj U	21ME415	
10.	Manoj Kumar H.A	21ME416	
11.	Manu Patel T.S	21ME417	
12.	Ravi S	21ME420	
13.	Sanjay Kumar	21ME421	

The above students scored less than 40% of Marks in Test 1.

Signature of the staff in charge

Report of Slow Learners and Mentorship

2022 - 23 odd Semester				
Sl. No	Method to Identify slow learners	Measures taken to improve	Outcome of the measures taken	Feedback from Students
1	After the first test depends on their scores who got less than 10 out of 25 marks have been identified in the different subjects and listed them as slow learners.	Remedial classes have been conducted for those students as per the time table framed after the class hours for two days in a week.	They have been improved in their scores in the midterm second test and in the final end examinations.	Students were very happy to attend as there was improvement in their scores.
2022 - 23 Even Semester				
1	After the first test depends on their scores who got less than 10 out of 25 marks have been identified in the different subjects and listed them as slow learners.	Remedial classes have been conducted for those students as per the time table framed after the class hours for two days in a week.	They have been improved in their scores in the midterm second test and in the final end examinations.	Students were very happy to attend as there was improvement in their scores.

Details Required in a separate sheets.

1. List of subjects offered in the odd and even semesters
2. Number of students attended for each course.
3. Details of the staff engaged these classes.
4. Time table for these extra remedial classes.
5. Their outcome and the feedback from the students.

1	After the first test depends on their scores who got less than 10 out of 20 marks have been identified in the different subjects and listed them as slow learners.	Remedial classes have been conducted for those students as per the time table framed after the class hours for two days in a week.	They have been improved in their scores in the midterm second test and in the final end examinations.	Students were very happy to attend as there was improvement in their scores.

Details Required in a separate sheets.

1. List of subjects offered in the odd and even semesters
2. Number of students attended for each course.
3. Details of the staff engaged these classes.
4. Time table for these extra remedial classes.
5. Their outcome and the feedback from the students.

Student Performance (After Test-1 and Test-2) June-July 2023*Academic Year: 2022-23 (Even Semester)*

Subject title/ Sub.Code	Analog Communication/ EC4TH4
Semester	4 th sem B sec
Name of Course Instructor	Dr. Shyla.M.K

Action Taken for slow learners and Impact analysis :

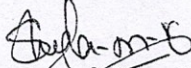

Extra assignment questions are given and made them to solve more number of numerical. In order to improve their performance in test2, students have been made to write notes from unit 2. Students shown improvent in their performance and their test1 and test2 marks are shown in table below.

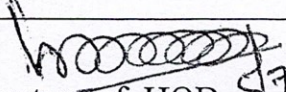

Sl.No.	USN	Name	T1 marks	T2 marks
1	21EC084	SAIFFULLA DAVAL SAB	06	16
2	21EC088	SANTHOSH KUMAR D S	10	16
3	21EC104	VINAY NAIKA	09	15
4	22EC400	ABHISHEK S	05	23
5	22EC402	ANUSHA M L	09	16
6	22EC403	BHOOMIKA M	06	21
7	22EC405	DARSHAN A	05	08
8	22EC406	GANAPATI	09	14
9	22EC408	GIRIDHAR K.V	05	10
10	22EC409	H.SYED DANISH	02	13

Advance Learners - Student List of Section "A" with marks > 24 (80%)

Sl.No	Name of the Student	USN	Marks Obtained
1	BHUVANA U S	21EC018	29
2	CHAITRA P	21EC020	25
3	HARSHITHA H K	21EC035	28
4	NAYANA M G	21EC066	25
5	PRAKRUTHI R	21EC072	25

Action Plan:

1. Advise to participate in the IEEE and ISTE activities .
2. Make subgroups and assign some advance/innovative assignments

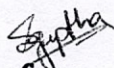

Action Taken :

1. Motivated the students to take part in activities conducted by IEEE and ISTE student chapters, few students participated and few actively involved in organizing the events .
2. Made subgroups and allotted the assignments to them i.e some more assembly and C programs to execute and to show the output.

Impact Analysis:

1. Two subgroups have completed the assignments and submitted the report for the same.
2. Two subgroups have done the small projects using various microcontrollers and submitted the report for the same and presented the same for mini project exhibitions.

Details of the same are attached with this .

ELECTRONICS & COMMUNICATION

Name: DR. Y.MANJULA

Subject Code: EC6TH2

Subject Name: Digital image processing

Academic year: 2022-2023

Section: B

Advanced learners List: Test 1 more than 90 %

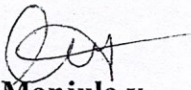

S.NO	USN	NAME	Marks out of 30 in Test 1
1.	21EC061	SHRUTHI M	29
2.	21EC062	SIDDESH	27
3.	21EC068	TANUSHREE M	27
4.	21EC069	TEJA H	27
5.	21EC075	VINUTHA R	28
6.	21EC401	ARUNDHATHI	27

Action Plan:

- Motivate the students to prepare presentation on histogram technique.
- Motivate the students to prepare study materials on image processing topics

Action Taken:

- Made them to use MATLAB software and run programs so that it helps the slow learner students to solve and verify problems.

Assignment -1

Academic year -2021-22

Batch: 2018

SEM: VIII

Sub Name: ACA

Sub Code: 18CS8PE21

Sl no	QUESTIONS	COs	POs	Blooms level
1	Explain the following classes of computers 1. Desktop computers 2 Server 3 Embedded computers	01	1,2,4	02
2	Discuss different parameters required to measure the cost of IC .Compute the number of dies /wafer for the wafer having wafer dia =300 mm and dies having a sides of 1.00 and 1,5 cm	01	1,2,4	02
3	Discuss in detail quantitate principle adopted in design of computer systems	03	1,2,3,4,5	02
4	Analyze how commodities , volume of production and time will affect the cost of systems	01	1,2,4	04
5	Explain how Amdahl's law is used to measure the performance and also explain the different factors considered for evaluation.	04	1,2,3,4,5	02
6	What is the importance of dependencies graph? explain different data dependencies with an example	02	1,2,3,4,5	02
7.	Apply dependency graph for the following program graph statement and identify the parallel pairs &also justify your answer for each dependencies. LOAD R1,1024 LOAD R2,M(10) ADD R1,R2 STORE M(100),R1 STORE M((R2)), 1024	02	1,2,3,4,5	03
8	Demonstrate how parallel processing will yield highest performance compared to sequential processing for the following code and identify minimum parallel pairs by using dependency graph, Bernstein possible conditions and hardware architecture for the following program statement.	04	1,2,3,4,5	03

Department of Computer Science & Engineering

$$C=D * E$$

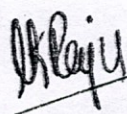

$$M=G+C$$

$$A=B+C$$

$$C=L+M$$

$$F=G/K$$

- 9 Evaluate the performance of grain packaging compared to parallel process, sequential process for executing following task. $[A] * [B] = [C]$ where A, B, C are 2x2 matrices assume addition will take 8 machine cycles, multiplication will take 101 machine cycles, communication delay = 212 machine cycles. 04 1,2,3,4,5 05
- 10 Demonstrate with an example node duplication eliminate idle cycle. 02 1,2,3,4,5 03

Department Computer Science and Engineering

GROUP ASSIGNMENT I (max. of 5 students)

SUBJECT: BIG DATA ANALYTICS (18CS702)

1) Describe Real-World Examples of Big Data either as consumer or as producer.

CO1

Example: hospitals are analyzing medical data and patient records to predict those patients that are likely to seek re-admission within a few months of discharge. The hospital can then intervene in hopes of preventing another costly hospital stay. The hospitals also analyze patients' data to prepare themselves to handle diseases.

Note: Each group must explain in detail one-one real world example, where big data is generating

2) Narrate any situation (scenario) and list out the places where data was generated.

CO1

Example: you have been invited to your friend's promotion party. You are happy and excited to join your friend at this important milestone in her career. You send in your confirmation through a text message. You get ready and leave for your friend's residence. On the way, you stop at a gas station to refuel. You pay using your credit card. You stop at an upmarket Archie's store to pick a good greetings card and a gift. You get the items billed at the point of sale system and pay cash at the counter. While at the party, you click photographs and post it on facebook, within minutes, you start to get like and comments on your posts.

- List: 1. Text message to send in the confirmation to attend the promotion party.
2. Use of credit card to pay for fuel/gas at the gas station.
3. Point of sale system at Archie's where your transaction gets recorded.
4. Photographs and posts on social networking sites.
5. Likes and comments to your post.

Note: Each group must explain in detail one-one real world example (situation and list of possible data generated)

3) How hadoop function works? explain with any one example.

CO2

Example: The call records of all the telephones in a city are being examined by a researcher who wants to know about those calls that are made by college students on the occasion of an event. The fields required as a result of the analysis carried out by the researchers include the timing of the event and relevant information of the user. The query is fired on every machine to search the results from the call records stored with the machine, which will return the relevant

results. Finally a single result will be generated by aggregating individual results obtained from all the machines. (CSV file).
phases of hadoop function

1: the processing starts by first loading the data into Hadoop and then applying the MapReduce programming model. Let us assume columns in the csv file as
U_id

U_name

C_name

Sp_event

Call_time

To identify individual users who made phone calls at a specific time, the U_id field is used. It helps us to determine the number of users who have called at the time .we can get the final output in terms of the number of users by whom calls were made during the specified time.
2: for final output, each mapper receives data line by line. Once the mapper completes its job, the results are shuffled or sorted by the Hadoop FW, which then combines the data in groups that are forwarded to the reducer. The final output is obtained from the reducer.

4) As an HR manager of a company providing Big Data solutions to clients, what characteristics would you look for while recruiting a potential candidate for the position of a data analyst.

Cor

5) You are planning the marketing strategy for a new product in your company. Identify and list some limitations of structured data related to this work.

Cor

Note: last date for submission 24.11.2021
