Value added course-Modules

Name of the program: **Ethics in biomedical research**

Date: 8th & 9^h May 2017

Time: 9am-5pm

Resource person: Dr. Darshana B, Dr. Bharatesh JV & Dr. Mythri H

Target group: UG dental students.

Details of the program:

Modules-8th May 2017

Module 1.:

Topic: Research ethics and integrity

Mentor and resource person: Dr. Darshana B

In this session, students were explained about

Research ethics: doing research with responsibility, particularly towards participants, colleagues, employers, funder and society.

- Discuss intellectual property frankly.
- Be conscious of multiple roles.
- Follow informed-consent rules.
- Respect confidentiality and privacy.

Research integrity: doing research in ways that underpin confidence in the results, the researchers, and the research community.

Do unto others as you would have them do unto you." This seems the most familiar version of the golden rule, highlighting its helpful and proactive gold standard.

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 2:

Topic: Ethics and different study design

Mentor and resource person: Dr. Bharatesh JV

K.A. Bharatesh
Chairperson, IGAC,
Sri Siddhartha Dental College,
TUMKUR.

SRI SIDDHARTHA DENTAL COLLEGE AND HOSPITAL

AGALAKOTE, B.H.ROAD, TUMKUR-572107, KARNATAKA.

Recognized by Dental Council of India, NEW DELHI

Phone No: / Fax No: 0816-2275536

Web: www.ssdctumkur.org

Email: ssdctumkur@gmail.com

In this session, students were explained about
Study designs and their importance, objective and methodology - Descriptive, analytical and
experimental

Ethical issues in each study design and how to identify and solve

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 3:

Topic: Consent

Mentor and resource person: Dr. Mythri H

In this session, students were explained about

What is the meaning of consents, importance and different types of consent

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Overall day topic activities with case scenarios

Modules - 9th May 2017

Module 4:

Topic: Good clinical practice

Mentor and resource person: Dr. Mythri H

In this session, students were explained about

What is the meaning of Good clinical practice, importance and different chapters and note on
vigilance

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 5:

Topic: Clinical registry

Mentor and resource person: Dr. Darshana B

In this session, students were explained about

What is the meaning of Clinical registry, importance and demonstrated how to register

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 6:

Topic: ICMR Guidelines

Mentor and resource person: Dr. Bharatesh JV

K. N. Bharatesh

Chairperson, IOAC,
Sri Siddhartha Dental College,
TUMKUR.

Department of Orthodontics Descriptive module of Value added course

Name of the program: Cephalometric tracing for BDS students

Date: 24/08/2017 and 25/08/2017

Time: 9am to 5pm

Resource person: Dr Madhusudhan V

Target group: 48 students of 3rd year and 4th year BDS.

Details of the program:

- Two day program included introduction about the topic of interest and its importance in diagnosis and treatment planning of the orthodontic case.
- Students on the first day were given the lecture on Cephalometrics and identification of anatomical landmarks on cephalogram was demonstrated.
- Resource person on second day demonstrated the tracing of cephalogram and carried out various analyses for diagnosing a case.
- Difficulties in locating the landmarks and errors to be avoided were explained to the students.
- Two day program helped students to gain maximum confidence in analysis of a case and arrive to a proper diagnosis and treatment plan.

Department of Orthodontics

Value added course Report

A Value added course was conducted on 24/08/2017 and 25/08/2017 for final BDS students on the topic of “**Cephalometric tracing**”.

It was a two day program with lecture on cephalometric tracing and demonstration on patient cephalogram. Dr Madhusudhan V gave a lecture on the topic and was followed by demonstration of cephalometric tracing and difficulty in identifying anatomical landmarks.

The program was very useful in enlightenment of students regarding the importance of cephalometrics in orthodontic diagnosis and treatment planning..

Department of Conservative Dentistry and Endodontics

Descriptive module of value added course

Title of the course: **ME-YOU and the composites: Enhanced Aesthetic integration using resin composites**

Date: November 22nd and 23rd – 2017

Time: 9 Am to 5 Pm

Resource person: Dr. Jayashankar CM, Reader, Dept of Conservative Dentistry and Endodontics, SSDC Tumkur

Target audience: UG and PG students

Details of the course:

- The undergraduates and postgraduate students were informed to read about the topic from the literature and come prepared for the course.
- Course included the introduction about the recent advances in resin composites in restorative dentistry.
- The resource person deliberated the lecture and shared the experience on composite resin layering technique using putty index and stratification of resin composite restorations.
- The students were educated regarding the importance of various putty matrix in doing composite resin restoration.
- Hands-on training course included the composite resin restoration on phantom head jaws using putty index technique

CIRCULAR

VALUE ADDED COURSE

Value added course for interns on the topic “**Pain dairy Recording**” will be conducted on 26/9/17 & 27/9/17 in the department of Oral Medicine from 9.00 am to 5.00 pm. Resource person is Dr S Mahalakshmi, Senior lecture, Dept of Oral Medicine and Radiology. Interested students & Interns can attend the program.

Date	Time	Topic
26/9/17	9.00am -11.00 am	Module 1: Physiology of pain Introduction to pain physiology
	11.00am -1.00 pm	Module 2 :Pharmacological management of pain A wide range of drugs are used to manage pain resulting from inflammation in response to tissue damage, chemical agents/pathogens (nociceptive pain) or nerve damage (neuropathic pain).
	1.00pm -2.00 pm	Lunch Break
	2.00pm -5.00 pm	Module 3 : Non pharmacological management of pain Non-pharmacological pain management is the management of pain without medications. This method utilizes ways to alter thoughts and focus concentration to better manage and reduce pain.

Date	Time	Topic
27/9/17	9.00am -11.00 am	Module 4: Pain monitoring methods Instruments for pain-intensity assessment Visual Analogue Scale Verbal Rating Scale Numerical Rating Scale
	11.00am -1.00 pm	Module 5 : Pain dairy Patients suffering from chronic pain include evaluation of the sensory, affective, and cognitive domains. Self-reported assessment tools such as pain diaries are easily implemented and have been shown to have a high reliability, validity, and utility.
	1.00pm -2.00 pm	Lunch Break
	2.00pm -5.00 pm	Module 6 : Hands on

4	4pm -5pm	Activity
---	----------	----------

Name of the program: **Communication skills in dentistry -value added course**

Date: 19th & 20th November 2018

Time: 9am-5pm

Resource person: Dr. Bharatesh JV, Dr. Mythri H ; Dr. Darshana B, Miss. Jyothi & Mr. Vinay

Target group: UG dental students.

Details of the program:

Modules-19th November 2018

Module 1.:

Topic:Introduction- Why Communication is important

Mentor and resource person: Dr. Bharatesh JV

In this session, students were explained about

Communication, types, modes used and importance of communication

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 2:

Topic:Introduction- Various tools used

Mentor and resource person: Dr. Mythri H

In this session, students were explained about Types of Communication and advantages,

Disadvantages, Precautions of usage

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 3:

Topic:Introduction- Importance of written communication and how to document them.

Mentor and resource person: Dr. Darshana B

In this session, students were explained about Importance of written communication -consent, types, requirements, advantages and how to document them.

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Modules-20th November 2018

Module 4:

Topic:Introduction- Improve communication between Deaf Children

Mentor and resource person: Mr. Vinay

In this session, students were explained about Improve communication between Deaf Children, demonstrated sign techniques and frames

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 5:

Topic:Introduction- Improve communication with Dumb Children

Mentor and resource person: Miss. Jyothi

In this session, students were explained about Improve communication with Dumb Children, demonstrated sign techniques and frames

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 6:

Topic:Introduction- Improve communication with Autism/mentally retarded Children

Mentor and resource person: Miss. Jyothi

In this session, students were explained about Improve communication with Autism/mentally retarded Children, demonstrated sign techniques and frames

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Topic related worksheets were circulated. Along with theory teaching, hands on training provided. Around 42 students attended the course..

Department of Orthodontics Value added course Report

A Value added course was conducted on 27/06/2019 & 28/06/2019 from 9 am to 5 pm for 3rd year and 4th year BDS students on the topic of “Nemoceph in diagnosing and treatment planning”

It was a one day program with lecture on Nemoceph software and demonstration. Dr Prasanna T R gave a lecture on the topic and was followed by discussion on the topic with students and assigning the patient cephalogram for Nemoceph evaluation.

The program was very useful in enlightenment of students regarding the importance of study models in orthodontic diagnosis and treatment palnning..

Department of Orthodontics Descriptive module of Value added course

Name of the program: Nemoceph in diagnosing and treatment planning.

Date: 27/06/2019 & 28/06/2019

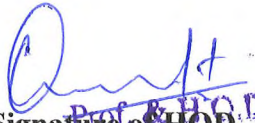

Time: 9am to 5pm

Resource person: Dr Prasanna T R

Target group: 48 students of 3rd year and 4th year BDS.

Details of the program:

- Two day program included introduction about the topic of interest and its importance in diagnosis and treatment planning of the orthodontic case.
- Students on the first day were given the lecture on Nemoceph and its method of analyzing the radiograph.
- Resource person demonstrated the tracing technique and interpretation of the same.
- Students were educated regarding the importance of recent advances in radiographic imaging and timely utilization of the same for benefit of the patient.
- Program helped students to record and trace the conventional radiograph and its digitization and proper interpretation.

VALUE ADDED COURSES

Title: Mucormycosis: surgical management and prosthetic rehabilitation

Date: 17/08/20 - 18/08/20

Objective:

1. To provide the participants a basic knowledge of Mucormycosis.
2. To train and educate the participants on the knowledge of management of Mucormycosis, surgically and prosthetically.

Course Content:

Day 1

1. Introduction to Mucormycosis
2. Diagnosis of Mucormycosis
3. Surgical and Prosthetic Management of Mucormycosis

Day 2

1. Demonstration
2. Hands on (Assistance)

Duration of Content Delivery:

16 hours course over 2 days

Conclusions: It was aimed at a small group of students to make them well aware of the importance in diagnosis and management of Mucormycosis.

CIRCULAR

12/9/19

DEPARTMENT OF ORALMEDICINE & RADIOLOGY

VALUE ADDED COURSE

Value added course for interns on the topic “**HOW TO USE CBCT SOFTWARE**” will be conducted on 26/9/19 & 27/9/19 in the department of Oral Medicine from 9.00am to 5.00 pm. Resource person is Dr Jayadev S Reader, department of Oral Medicine and Radiology. Interested Interns & post graduates can attend the program.

Date	Time	Topic
26/9/19	9.00am -11.00 am	Module 1: Basics of CBCT This lecture covers the basics of CBCT imaging, image acquisition, image reconstruction and image visualization.
	11.00am -1.00 pm	Module 2 : Nerve Tracing: Tracing of the inferior alveolar nerve (IAN) is used for surgical planning that need precision, a wider safe margin .method of tracing will be demonstrated
	1.00pm -2.00 pm	Lunch Break
	2.00pm -5.00 Pm	Module 3 : Multi-planar Image Processing Involves the process of converting data from an imaging modality acquired in a certain plane, The acquired data, for example from the axial plane, can then be converted to non-axial planes such as coronal, sagittal or oblique. In addition, with the aid of various software, several manipulations of the data can be made

Date	Time	Topic
27/9/19	9.00am -11.00 Am	Module 4: Bone Density Measurement used to determine the quality of craniofacial bone structures through the determination of mineral density, which is based on gray scales of the images obtained
	11.00am -1.00 Pm	Module 5 : Use Of Measurement Tools Linear measurement is used for the determination of the quantity of alveolar bone (height and width) in implant planning and jaw tumors
	1.00pm -2.00 pm	Lunch Break
	2.00pm -5.00 pm	Module 6 : Hands on

Report

Subject: Research Methodology Training Programme for PG students

Research Methodology Training Programme is annually conducted for first year postgraduate students under the aegis of Research Committee, Sri Siddhartha Dental College and Hospital, Tumkur. Various topics on research methodology are covered by faculty who are resource persons. Topic related worksheets are circulated to PG students beforehand. Along with theoretical teaching hands on training are provided.

VALUE ADDED COURSES

Title: Management of Head injuries in Orofacial Trauma

Date: 14/09/21 - 15/09/21

Objective:

3. To provide the participants a basic knowledge head injury.
4. To train and educate the participants on the knowledge of management of head injuries in association with orofacial trauma.

Course Content:

Day 1

4. Introduction to Orofacial trauma
5. Diagnosis of head injuries
6. Management of Head Injuries

Day 2

3. Demonstration
4. Hands on (Assistance)

Duration1 of Content Delivery:

16 hours course over 2 days

Conclusions: It was aimed at a small group of students to make them well aware of the importance in management of head injuries in orofacial trauma.

Department of Orthodontics

Value added course Report

A Value added course was conducted on 17/09/2020 and 18/09/2020 from 9am to 5pm for 4th BDS students and Interns on the topic of “**Administering Intramuscular and Subcutaneous injection at casualty**”

It was a two day program with lecture on Intramuscular and Subcutaneous injection at casualty. Dr Lokesh gave a lecture on the topic and was followed by discussion on the topic with students.

The program was very useful in enlightenment of students regarding the importance of knowing the technique of administering injection techniques and knowing the side effects of the same.

VALUE ADDED PROGRAMME

Report

A course on Ethics and values was conducted by Dr.Bharateesh, Professor and Head, Department of Public Health Dentistry on 08.10.2020 & 09.10.2020 in the Department of Pedodontics and Preventive dentistry. A total number of 42 students (post graduates and under graduates) participated in the course and gained knowledge on providing a high-quality dental treatment for the society. The course explained the ethics and values of dentistry to the participants. It was focused on the five principles of dental ethics (patient autonomy, nonmaleficence, beneficence, justice, and veracity).

VALUE ADDED COURSE

Value added course for interns on the topic “**HOW TO USE CBCT SOFTWARE**” will be conducted on 2/8/21 & 3/8/21 in the department of Oral Medicine from 9.00am to 5.00 pm. Resource person is Dr S Jayadev, Reader, Dept of Oral Medicine and Radiology. Interested Interns can attend the program.

Date	Time	Topic
2/8/21	9.00am -11.00 am	Module 1: Basics of CBCT This lecture covers the basics of CBCT imaging, image acquisition, image reconstruction and image visualization.
	11.00am -1.00 pm	Module 2 : Nerve Tracing Tracing of the inferior alveolar nerve (IAN) is used for surgical planning that need precision, a wider safe margin .method of tracing will be demonstrated
	1.00pm -2.00 pm	Lunch Break
	2.00pm -5.00 Pm	Module 3 : Multi-planar Image Processing involves the process of converting data from an imaging modality acquired in a certain plane, The acquired data, for example from the axial plane, can then be converted to non-axial planes such as coronal, sagittal or oblique. In addition, with the aid of various software, several manipulations of the data can be made

Date	Time	Topic
3/8/21	9.00am -11.00 Am	Module 4: Bone Density Measurement used to determine the quality of craniofacial bone structures through the determination of mineral density, which is based on gray scales of the images obtained
	11.00am -1.00 Pm	Module 5 : Use Of Measurement Tools Linear measurement is used for the determination of the quantity of alveolar bone (height and width) in implant planning and jaw tumors
	1.00pm -2.00 pm	Lunch Break
	2.00pm -5.00 pm	Module 6 : Hands on

Value added course-Modules

Name of the program: **Ethics in biomedical research**

Date: 23rd & 24th May 2022

Time: 9am-5pm

Resource person: Dr. Darshana B, Dr. Bharatesh JV & Dr. Mythri H

Target group: UG dental students.

Details of the program:

Modules-23rd May 2022

Module 1.:

Topic: Research ethics and integrity

Mentor and resource person: Dr. Darshana B

In this session, students were explained about

Research ethics: doing research with responsibility, particularly towards participants, colleagues, employers, funder and society.

- Discuss intellectual property frankly.
- Be conscious of multiple roles.
- Follow informed-consent rules.
- Respect confidentiality and privacy.

Research integrity: doing research in ways that underpin confidence in the results, the researchers, and the research community.

Do unto others as you would have them do unto you." This seems the most familiar version of the golden rule, highlighting its helpful and proactive gold standard.

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Chairperson, IQAC,
Sri Siddhartha Dental College,
TUMKUR.

Web: www.ssdctumkur.org

Email: ssdctumkur@gmail.com

Module 2:

Topic: Ethics and different study design

Mentor and resource person: Dr. Bharatesh JV

In this session, students were explained about

Study designs and their importance, objective and methodology - Descriptive, analytical and experimental

Ethical issues in each study design and how to identify and solve

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 3:

Topic: Consent

Mentor and resource person: Dr. Mythri H

In this session, students were explained about

What is the meaning of consents, importance and different types of consent

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Overall day topic activities with case scenarios

Modules - 24th May 2022

Module 4:

Topic: Good clinical practice

Mentor and resource person: Dr. Mythri H

In this session, students were explained about

What is the meaning of Good clinical practice, importance and different chapters and note on vigilance

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Module 5:

Topic: Clinical registry

Mentor and resource person: Dr. Darshana B

In this session, students were explained about

What is the meaning of Clinical registry, importance and demonstrated how to register

Teaching mode: Power point presentation and group discussion

Activities: MCQs to assess the understanding

Chairperson, IQAC,

Student Feedback on Research Methodology Training Programme

(To be filled by first year- postgraduate students)

Students are required to rate the courses on the following attributes using the 4-point scale shown.

Very good = 4	Good=3	Satisfactory=2	Unsatisfactory=1
---------------	--------	----------------	------------------

Mark any one number, you feel appropriate of 1,2,3,4 against every column below

Sl. No.	Research Methodology Training Programme	Very good = 4	Good=3	Satisfactory=2	Unsatisfactory=1
1.	Learning value (in terms of skills, concepts, knowledge, analytical abilities, or broadening perspectives)		✓		
2.	Applicability / relevance to the today's pattern of PG Syllabus	✓			
3.	Depth and coverage of the topic	✓			
4.	Clarity & relevance of reading material	✓			
5.	Teaching method/material used	✓			
6.	Resource persons (Regarding Knowledge, preparation, responsiveness)	✓			
7.	Overall conductance of programme (Time, early notification, topics, place etc)		✓		
8.	Overall rating		✓		

- What were the best things about the programme?

- Need such programme

- Any suggestions for the future:

- Systematic reviews.

INSTITUTIONAL RESEARCH COMMITTEE

Report

Subject: Research Methodology Training Programme for PG students 2021-22

Research Methodology Training Programme was conducted from 10/01/2022 to 31/01/2022 for first year postgraduate students under the aegis of Institutional Research Committee, Sri Siddhartha Dental College and Hospital, Tumkur. Various topics on research methodology were covered by medical and dental faculty members who were resource persons. Topic related worksheets are circulated to PG students beforehand. Along with theory teaching hands on training are provided. Examination was conducted and results were announced. Feedback regarding the programme was taken. Certificates were distributed to students and resource persons.

Report is attached with Circular- Date, topic and resource person

Date	Code	Topic	Time	Moderator	Resource Person	Mode
10-01-22	RM1	Study designs- Observational Studies	10 - 12noon	Dr. Laxmidevi BL	Dr. Venkatesh Asso Professor, Community Medicine, SSMC	OFFLINE
11-01-22	RM2	Experimental study designs	10 - 12noon		Dr. Mahalakshmi S Sr. Lect, Oral medicine and Radiology, SSDC	OFFLINE

A Quick start course on Python Programming

Syllabus for Python course:

1. Introduction to Python Programming
 - a. Features of Python
 - b. Install Python
 - c. How to run Python Programs
 - d. Modes of Python Programming
2. Basics of Python
 - a. Things to Know before Get into Programming
 - b. Data types in python
 - c. Operators in Python
 - d. Flow control and Loops
3. Data Types
 - a. Numbers
 - b. Strings
 - c. Lists
 - d. Tuples
 - e. Dictionary
4. More in Python
 - a. Functions
 - b. Input/output
 - c. Exceptions
 - d. Modules
5. Deep in Python
 - a. Networking
 - b. GUI
 - c. Turtle Programming

Institute Details:

Sri Siddhartha Institute of Technology (SSIT),Tumakuru, Karnataka. SSIT was started in the year 1979 under the ambit of Sri Siddhartha Education Society (SSES), Tumakuru. Since then, it has grown with time. At present, the institute runs 9 programmers' in Bachelor of Engineering(BE) and 7 Post Graduate programmers. Several Doctoral programmes and Master of Computer Application with an annual intake of 836.

Department Details:

The department of Mechanical Engineering was established in the year 1979 and its undergraduate program B.E.(Mech) is recognized by AICTE. The department has well equipped laboratories and is blessed with highly qualified, experienced & dedicated faculty. It has facilities for materials research and automotive research related to combustion, emissions and performance. It has successfully executed several industrial consultancy projects funded by organizations like Department of Scientific & Industrial Research(DSIR), Department of Science and Technology(DST), Karnataka Pollution Control Board to name a few. Striving for academic excellence by imparting quality technical education we also mould other essential human traits like discipline, moral values, leadership qualities in our graduate

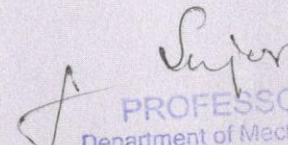

engineers by the end of their course. The department also offers a post graduate program M.Tech (Thermal Power Engineering).

Objectives:

- Give insight into fundamental concepts of **ANAYS** .
- Inculcate knowledge of 1-D , 2D and all Commands and its importance while developing Design engineering applications.
- Have hands-on session to implement case studies.

How to apply?

Completed application should reach the coordinator latest by 20thFeb 2019.

Dr. M. SIDDAPPA

Professor & Head

Department of Computer Science & Engineering

Sri Siddhartha Institute of Technology

Maraluru, Tumakuru.

ABOUT THE INSTITUTION:

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SAHE), Tumkur. Accredited by National Board of Accreditation (NBA). The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The institute is one among the 14 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP1 during 2005). Presently TEQIP2 has been sanctioned for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Computer Science and Engineering started in the year 1985, with an intake of 40. Present intake is 120 & running PG course in Computer Science and Engineering . The Computer Science and Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE WORKSHOP:

In this workshop, college faculty members, Researchers and Students can discover how use techniques/ tools available based on NVIDIA’s CUDA environment. Enable participants to quickly get started with writing their own parallel codes on GPGPU. Provide hands-on experience in parallel programming. These special sessions will provide the rich hands-on experience with various languages and tools covered in the lectures. They comprise a brief introduction to the programming assignments, followed by independent work periods. To help with the assignments, teaching assistants will be available in person and via the web.

Four Day Value added Course On “HPC, CUDA and Parallel Programming”

Program Schedule

Date: 21.12.2017

Venue : CSE Seminar & Computer Lab (Room No.403)

Time	Event	Topic	Resource Person
05.00 pm to 05.30 pm		Registration and welcome the students	
05.30 pm to 7.00 pm	Session -I	Introduction to Parallel Computing, Why Parallel Computing? Parallel paradigms Types of Parallelism, Limits of Parallel Computing	Ravi Kiran Certified Wolfram Instructor, Sr. Pre-Sales Engineer GT Enterprises, Bangalore

Date: 22.12.2017

Venue : CSE Seminar & Computer Lab (Room No.403)

Time	Event	Topic	Resource Person
05.00 pm to 06.00pm	Session -II	What is High Performance Computing . Introduction to GPU Computing and its advantages	Dr.Ashok Prof&head, Dept of ISE, JSSATE, BANGALORE
06.00 pm to 06.15 pm		TEA BREAK	
06.15 pm to 07.30pm	Session - III	Common GPU-enabled applications overview Easy ways to parallelize the home-grown applications	Dr.Ashok

Date: 23.12.2017

Venue : CSE Seminar & Computer Lab (Room No.403)

Time	Event	Topic	Resource Person
10.30 AM TO 11.30	Session -IV	CUDA Architecture and Programming mode Heterogeneous Computing Blocks	Dr.Nagappa Bajentri Professor, Dept of CSE, Govt Engg. College, C.Nagar
11.30 TO 11.45		TEA BREAK	
11.45TO 1.00 PM	Session - V	Threads indexing	Giresh H Indicatum Pvt. Ltd., Bangalore
1.00 TO 2.00 PM		LUNCH	
2.00 TO 3.30PM	Session - VI	Shared memory syncthreads()	Dr.Nagappa Bajentri
3.30 to 3.45 pm		TEA BREAK	
3.45 pm to 5.30pm	Session - VII	Hands On Session (Computer Lab Room No 403)	Giresh H

Date: 24.12.2017

Venue : CSE Seminar & Computer Lab (Room No.403)

Time	Event	Topic	Resource Person
10.30 AM TO 11.30	Session -XIII	Asynchronous operation Handling errors	Dr.Yuvaraju Professor, Dept of CSE, VVIT,Mysore
11.30 TO 11.45		TEA BREAK	
11.45TO 1.00 PM	Session -XIV	Managing devices CUDA Profiling	Mr.Suprith Technical Manager . Huawei Technologies B'lore
1.00 TO 2.00 PM		LUNCH	
2.00 TO 3.30PM	Session -XV	CUDA Profiling and debugging tools	Dr.Yuvaraju
3.30 to 3.45 pm		TEA BREAK	
3.45 pm to 5.30pm	Session -XVI	Hands On Session	Mr.Suprith

About SSIT

Sri Siddhartha Institute of Technology (SSIT), Tumkur Karnataka. SSIT was started in the year 1979 under the ambit of Sri Siddhartha Education Society (SSES), Tumkur. Since then, it has grown with time. At present, the Institute runs 9 programmes in Bachelor of Engineering (BE) and 7 Post Graduate programmes, Several Doctoral programmes and Master of Computer Application with an annual intake of 836.

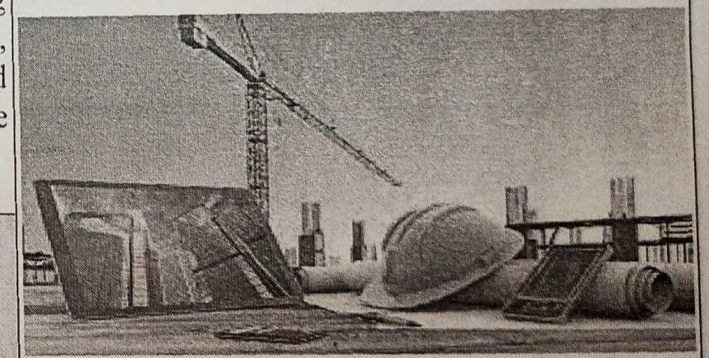

Sri Siddhartha Education Society was established in the year 1959 by shri H.M. Gangadharaiah, with the blessings of Acharya Vinobha Bhave, started with only one school, has grown consistently and has established 84 Institutions under its aegis spread across the southern part of Karnataka. The academic empire includes an Engineering College, a Medical College, a Dental College, a Nursing College, First Grade Colleges, B.Ed. Colleges, Training Institutes, Sanskrit & Poly Schools, and number of high schools with a vision to take education to reach the unreached.

About Department

Civil Engineering was one of the two departments started along with the institute in 1979 with an intake of 60 students. Ever since the department has grown from strength to strength. It has well qualified, experienced and dedicated staff members. In fact it has more senior staff members than any other department in the institute. It is also supported by good number of non-teaching staff.

The department has all the laboratory required to train the students as per the syllabi. The laboratories like Strength of Materials, Concrete, Highway, Geotech, Environmental, Fluid Mechanics and Survey were all established in early years of the department. Now a computer center is added, to train the students in the field of its application. The department also takes up consultancy work as well as testing of materials.

About the course :

- To familiarize with basics of Google sketchUp tools.
- To understand the benefits and importance of Software.
- To Impart knowledge of the software and applications in engineering field.

Report on Value Added Course on a topic “3D Modelling using Google SketchUp”

The Value added program started on 10th February 2018, Saturday Afternoon with an inauguration by watering the plants by all the patrons and speakers of the day. Totally an around 56 Students were attended during the inauguration. Principal and HOD addressed the gathering with motivational words for conducting the Value added programs with a regular intervals in the department.

The course continued smoothly for whole 18 hours which included 6 hours teaching which included basic tools and modelling by using Google SketchUp. 12 hours hands on experience based on the demo classes thought in demo sessions.

All the student participants were attended all the sessions with lot of curiosity to gain the knowledge of Google SketchUp software in modelling.

A concluding session followed after the tea break of last session, in which all the participants gave their feedback. There after Dr. T V Mallesh gave concluding remarks and distributed the certificates of attending the value added programme for all the participants.

At last Prof. S R Ramesh gave the vote of thanks and concluded Value added program.

SRI SIDDHARTHA INSTITUTE OF TECHNOLOGY
(A Constituent of College of Sri Siddhartha Academy of
Higher Education - a deemed to be university under section
3 of UGC Act 1956) Maralur, Tumkur - 572105

Professor & Head
Dept. Of Civil Engineering
Sri Siddhartha Institute of Technology
Maralur, TUMKUR-572 105.

About our Society:

Sri Siddhartha Education Society (SSES), Tumkur was established in the year 1959 by Late Dr. H M Gangadharaiah with the blessings of Sri Acharya Vinoba Bhave. The society made a humble beginning by starting a residential school in a village near Tumkur and has grown to an academic empire. Presently the society has more than 85 educational institutions including Medical, Dental, Nursing, management and Engineering Colleges. The objective and vision of the society is to "Reach the Un reached" in the field of education. The society is managed by Dr.G.Shivaprasad (Ophthalmologist) as secretary and Dr.G.Parameshwara (Formerly Minister for Higher Education, Government of Karnataka) as Joint Secretary, the two worthy sons of Late Dr. H M Gangadharaiah.

About the Institution:

Sri Siddhartha Institute of Technology (SSIT), Tumkur, was established in the 1979 by the Sri Siddhartha Education Society (SSES). Presently the institution offers 9 UG and 8 PG courses. Courses are accredited by the National Board of Accreditation(NBA) and was granted autonomous status during 2007 by Visveswaraya Technological University - the largest technological university in the country. Subsequently the Institution was granted a "constituent college" status of Sri Siddhartha Academy of Higher Education a deemed to be University (under section 3 of UGC Act of 1956) in 2009 by MHRD. This project envisages the expansion of MTech programmes and need based research.

About our Department:

The Department was established in the year 1979. The Department has been progressing over the years. It has well qualified, motivated and experienced faculty. Infrastructural facilities required for running the laboratories are well established. The university results have been extremely good. in Computer Aided Design of Structures (CAD of Structures) wherein the Design of Structures using Software is taught.

Objectives:

ETABS is a highly efficient analysis and design program developed especially for building systems. This course offers basic knowledge on the ETABS software and its applications in the analysis and design of structures.

Important dates :

- Last date for submission of application 10th Sept 2017
- The duly filled registration form has to reach the coordinator through email on or before 12th Sept 2017

A Report on Value added course

“Analysis and Design of Multi-storied building using ETABS”

A value added course with the title “Analysis and Design of Multi-storied building using ETABS” was conducted on 16th, 17th, 23th & 30th September, 2017. The Welcome speech given by Dr. T V Malleshand inaugurated by lightening the lamp by all the dignitaries.

16.09.2017

Session I: 2.00 pm to 3.30 pm

The inauguration was made by the dignitaries and Dr. M Z Kurian Registrar, Sri Siddhartha Academy of Higher Education, Tumakuru and Dr. M K Veeraiah Principal, SSIT, addressed the function regarding the course and its benefits for the students.

Session II: 3.30 pm to 5.00 pm

Er. Radhika Cad Centre, Maralur, Tumakuru has delivered the presentation on introduction to ETabs software and its salient features related to civil engineering.

Professor & Head
Dept. Of Civil Engineering
Sri Siddhartha Institute of Technology
Maralur, TUMAKUR-572 105.

17.09.2017

Session I: 09:30 am to 11.00 am & Session II: 11.30 am to 1.00 pm

In these sessions the usage of different basic tools in preparing the model is taught with examples. It is followed by hands-on in the next session.

Session III: 2.00 pm to 3.30 pm & Session IV: 3.30 pm to 5.00 pm

The development of plan, modelling of a structure is made with an example of three storey residential building including assigning loads, material properties etc. It is followed by hands-on in the next session.

23.09.2017

Session I: 2.00 pm to 3.30 pm & Session II: 3.30 pm to 5.00 pm

The analysis of a three storied residential building is taken as an example for the same. The hands-on session includes the practice of the same.

24.09.2017

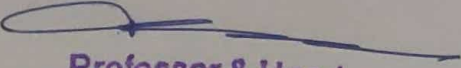

Session I: 09:30 am to 11.00 am & Session II: 11.30 am to 1.00 pm

The design is made for the analyzed model of three storied residential building and the same is included in the hands-on session.

Session III: 2.00 pm to 3.30 pm & Session IV: 3.30 pm to 5.00 pm

The evaluation is made and feedback is taken from the students. The valedictory for the course is proposed.

All the staff and student were present for all the sessions.

BROCHURE

Sri Siddhartha Education Society was established in the year 1959 by shri H.M. Gangadharaiyah, with the blessings of Acharya Vinobha Bhave, started with only one school, has grown consistently and has established 84 Institutions under its aegis spread across the southern part of Karnataka. The academic empire includes an Engineering College, a Medical College, a Dental College, a Nursing College, First Grade Colleges, B.Ed Colleges, Training Institutes, Sanskrit & Poly Schools, and number of high schools with a vision to take education to reach the unreached.

The Institution is one among the 14 Technical Institutions in Karnataka State, selected by the World Bank, for the award of financial assistance under Phase II of Technical Education quality improvement program (TEQIP). This assistance will be utilized to improve quality of education, research activities, establishment of center of excellence, Strengthening of Post Graduate Programme. Under this scheme, initiative on a large scale has already been taken for providing a congenial ambiance for learning and research.

ABOUT THE DEPARTMENT:

The Department of Electronics and Communication Engineering (ECE) –SSIT was started in the year 1980, with an initial intake of 40 students. The department has enhanced the intake to 120 in the year 2007. The department also offers two PG programmes namely 'Digital Electronics' from the year 2005 and 'VLSI and Embedded systems' from the year 2009 with an intake of 18 in each. The undergraduate and post graduate programmes are approved by AICTE and presently the department is one among the 9 departments in the institute, which is affiliated to Sri Siddhartha Academy of Higher Education.

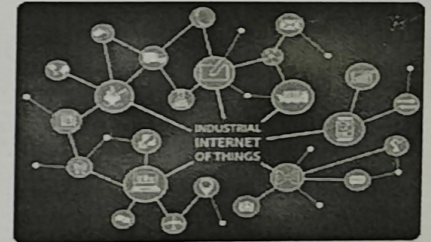

ABOUT THE COURSE:

Most of the projects in Industry 4.0 space involves integration of Information Technologies (IT) and Operational Technologies (OT), to deliver new business value for end users. This course serves as a starting point in your journey to understand OT space, by offering a hands-on session to enable you to extract data from legacy OT devices and store them in the cloud.

ABOUT THE INSTITUTION

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SAHE), Tumkur, accredited by National Board of Accreditation (NBA). The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The institute is one amongst the 14 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP1 during 2005). Presently TEQIP2 has been sanctioned for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Telecommunication Engineering started in the year 1991 and the present intake is 60. The department is accredited by the National Board of Accreditation (NBA), Delhi. It has well equipped Laboratories and also quite experienced staff.

TOPICS

- *Introduction to C programming*
- *Variables and Data types*
- *Console IO Operations*
- *Operators and Expressions*
- *Control Flow Statements*
- *Working with Functions*

About the Institution

Sri Siddhartha Institute of Technology (SSIT), Tumakuru, established in the year 1979 by Sri Siddhartha Education Society (SSES), is the constituent college of Sri Siddhartha Academy of Higher Education (SSAHE), Tumakuru. Accredited by National Board of Accreditation (NBA), National Assessment and Accreditation Committee (NAAC) with 'A' Grade, the Institution offers 9 UG, 8 PG courses in addition to the Doctoral Programs in various disciplines.

Among about 3200 technical institutions in the country, SSIT has been one amongst the 14 premier technical institutions in Karnataka selected as better performing institutes by the World Bank for the award of financial assistance under Technical Education Quality Improvement Program (TEQIP-I during 2005). Further the institution found its place in the list of institutions selected for TEQIP phase II as it has utilized the grants effectively for further improving the quality of technical education, research activities and make the institute a center of excellence. SSIT is situated in Tumakuru, 70 Kms away from Bangalore well connected by road and rail.

About the Department

The Dept. of Telecommunication Engineering was started during 1991 with an intake of 30 and increased currently to 60. It has been accredited by NBA for three times consecutively since 2004. The department has well equipped laboratories and well qualified faculty (4 Doctorates) with experienced support/ technical staff. The department has

patents in the field of communication technology and expertise in raising domains and sub domains of the core engineering.

About the Course

Embedded Systems Design Programming course is continuous of the Microprocessor and Microcontrollers, is intended to designing, implementation and Test of embedded applications. The topics covered are definition of embedded systems, history, classification, and major applications. Introduction to microcontroller and its interfacing, embedded firmware design and development, RTOS, task scheduling, threads, multitasking, task communication, task synchronization. Understand need of microcontrollers in development of various projects and to know operating systems and RTOS.

Who can attend?

- ✓ TCE students.

Registration

Registration can be submitted in the prescribed format along with related registration details.

A Quick start course on Python Programming

Syllabus for Python course:

1. Introduction to Python Programming
 - a. Features of Python
 - b. Install Python
 - c. How to run Python Programs
 - d. Modes of Python Programming
2. Basics of Python
 - a. Things to Know before Get into Programming
 - b. Data types in python
 - c. Operators in Python
 - d. Flow control and Loops
3. Data Types
 - a. Numbers
 - b. Strings
 - c. Lists
 - d. Tuples
 - e. Dictionary
4. More in Python
 - a. Functions
 - b. Input/output
 - c. Exceptions
 - d. Modules
5. Deep in Python
 - a. Networking
 - b. GUI
 - c. Turtle Programming

ABOUT THE INSTITUTION:

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SAHE), Tumkur, accredited by National Board of Accreditation (NBA). The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The institute is one among the 14 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP1 during 2005). Presently TEQIP2 has been sanctioned for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Electrical and Electronics Engineering started in the year 1980, with an intake of 40. Present intake is 60 & running PG course in Computer Application in Industrial Drives (CAID). The Electrical and Electronics Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

Practically, every activity of our day to day life is influenced by Electrical power Utilization. Transmission of Electrical Power also plays an important role in working of space vehicles, satellites, guided missiles, etc.

This workshop helps the participants to gain knowledge and importance about the Electrical Power Utilization. They will be able to understand the control and monitoring the instruments in real time.

Speaker: Dr. H Naganagouda, Director, National training centre for solar technology, KPCL, Bangaluru.

The Electrical and Electronics Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE PROGRAM:

Three days personality development programme was conducted in association with Placement & Training Cell for 3rd year BE students in March 2018.

Personality is what makes a person a unique person, and it is recognizable soon after birth. A child's personality has several components: temperament, environment, and character. Temperament is the set of genetically determined traits that determine the child's approach to the world and how the child learns about the world. There are no genes that specify personality traits, but some genes do control the development of the nervous system, which in turn controls behavior.

A second component of personality comes from adaptive patterns related to a child's specific environment. Most psychologists agree that these two factors—temperament and environment—influence the development of a person's personality the most. Temperament, with its dependence on genetic factors, is sometimes referred to as "nature," while the environmental factors are called "nurture."

Registration Fee for Participants:

Students from SSIT	: Rs. 100
Students from other Institution	: Rs. 200

The Electrical and Electronics Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE WORKSHOP:

Two days Electrical workshop on CAD Drawing was organized for 3rd & 4th Year BE students in April 2018.

CAD Drawing : A new geometric object snap has been added so you can snap to the centroid of a closed polygon. Command preview has been enhanced to include the blend, erase, scale, stretch and rotate commands. The DIM command has been enhanced to create dimensions based on the type of object you select. Preview works the same for circles and arcs when creating a diameter or radial dimension. You also have the option to switch between Radius and Diameter before placing the dimension. Width sizing of dimension text is also available for adjusting text wrapping.

Design Lines, arcs and circles are the building blocks used to bring your ideas to life. In previous versions of AutoCAD, what you saw on the screen was not always as crisp as what you plotted to paper. In this release, you'll find many design elements that provide a stunning visual experience for users.

Registration Fee for Participant : Rs. 100

The Computer Science and Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

About the course:

The course on python is to provide an introduction to Python programming. In this course department students will learn necessary to create and execute Python programs. The topics and presentations are designed to provide knowledge and experiences to students that serve as a foundation for continued learning of presented areas. At the end of the course, users can learn how to

- Programming and problem solving using Python. Emphasizes principles of software development, style, and testing.
- Understand the concepts of object oriented programming as used in Python.
- Python enables users to perform common programming tasks to strengthening the scope of bigger career opportunities and Exploring the world of Smart Technology and industry.

**Three Day Value added Course On “Python Programming”
Program Schedule**

DATE: 21/02/2019

venue : seminar hall and computer lab(403)

TIME	EVENT	TOPIC	RESORCE PERSON
8.30 TO 9.00 AM	REGISTRATION		
9.00 AM TO 10.00 AM	INAGURATION OF WORKSHOP		
10.00 AM TO 11.30	SESSION -I	Introduction To Python programming	Chethan TechTrunk Ventures Pvt Ltd , Bangalore
11.30 TO 11.45	TEA BREAK		
11.45TO 1.00 PM	SESSION -II	Coding techniques in python programming	Dr.Harish Professor, Dept Of Cs&E , GCE, Ramanagar
1.00 TO 2.00 PM	LUNCH		
2.00 TO 3.30PM	SESSION -III	Variables, expressions and statements Conditional statement execution in python programming	Dr Sanjay pande Professor and head Dept Of CS&E , Sir Mvit, Bangalore
3.030 to 3.45 pm	Tea break		
3.45 pm to 5.30pm	Session -iv	Configuration an d simple programs executions Hands on session in the computer lab (403)	Dr.Bhanuprakash Professor, Dept Of Cs&E , Sir Mvit, Bangalore

DATE: 22/02/2019

venue : seminar hall and computer lab(403)

TIME	EVENT	TOPIC	RESORCE PERSON
9.30AM TO 11.00AM	SESSION -v	Functions and Iteration using python	Dr Sanjay Professor Dept Of CS&E , NMIT, Bangalore
11.00 TO 11.15	TEA BREAK		
11.15TO 1.00 PM	SESSION -VI	Implementation of Strings using python	Narayan.K, Protech microsystems , Bangalore
1.00 TO 2.00 PM	LUNCH		
2.00 TO 3.30PM	SESSION -VII	Implementation of Lists Dictionaries Using python	Dr.Padma Professor , Dept of cs&e PESCE , MANDYA
3.030 to 3.45 pm	Tea break		
3.45 pm to 5.30pm	Session VIII	Hands on session in the computer lab (403) above mention topics	Mr.Shylendra BNA technologies,Bangalor e

Sujay

Dr. M. SIDDAPPA

Dear Sir,

Subject: Seeking permission to conduct Three Days Course on Fundamentals of Machine Learning with Python.. reg,

With reference to above subject, I would request you to permit us to conduct a Three days course on Fundamentals of Machine Learning with Python for UG students in the department. The proposed dates are in the month of September 2018. I have attached a copy of proposed brochure for reference.

Please permit us and do the needful

Thanking You

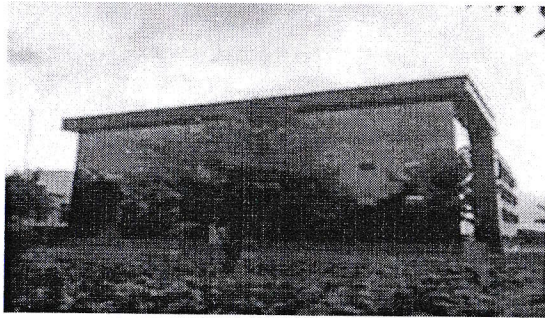

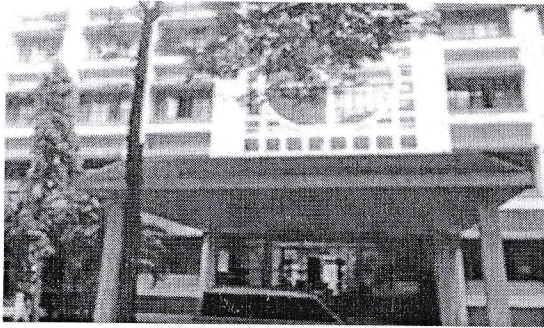

Enclosure: Brochure

Yours faithfully

HEAD

Dept. of Computer Science & Engg.
S.S.I.T., TUMAKURU-572 105

ABOUT THE INSTITUTION:

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SAHE), Tumkur, Accredited by National Board of Accreditation (NBA). The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The institute is one among the 14 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP1 during 2005) of Rupees 10 crore during 2005 to 2009. Rupees 5 crore has been sanctioned under TEQIP II 1.2 during 2012 for scaling up PG studies & research activities. The assistance was utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a Centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Computer Science and Engineering started in the year 1985, with an intake of 40. Present intake is 120 & running PG course in Computer Science and Engineering. The Computer Science and Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE COURSE:

To encourage Students to start working with Machine Learning applications by enhancing their knowledge and skills. ML is an application of AI which allows computers to automatically learn from data without being explicitly programmed. Python has been designed with the provision for creating Machine Learning algorithms. Python is preferred as the best

and robust platform for Machine Learning systems. Python also has numerous libraries for machine learning, data manipulation and analysis as well as a very active development community that continuously updates and creates new packages. It has been adopted by a wide variety of industries and applications including Data Science, Machine Learning, Data Analytics, Predictive Analytics, Business Intelligence and Web Analytics. This workshop aims to explore Python Programming right from installation, fundamentals to Machine Learning algorithms.

IMPORTANT DATES:

Last Date for Registration: **10-09-2018**

REGISTRATION FEE:

UG students : **Rs. 100**

PG & Research Students : **Rs. 200**

Payment should be made by Demand Draft / Cheque drawn in favour of The Principal, SSIT, Tumkur.

September, 2018**

Organized by

Department of Civil Engineering

SRI SIDDHARTHA INSTITUTE OF TECHNOLOGY
(A Constituent of College of Sri Siddhartha Academy of
Higher Education - a deemed to be university under section
3 of UGC Act 1956) Maralur, Tumkur - 572105

Professor & Head
Dept. Of Civil Engineering
Sri Siddhartha Institute of Technology
Marlur, TUMKUR-572 105.

About our Society:

Sri Siddhartha Education Society (SSES), Tumkur was established in the year 1959 by Late Dr. H M Gangadharaiah with the blessings of Sri Acharya Vinoba Bhave. The society made a humble beginning by starting a residential school in a village near Tumkur and has grown to an academic empire. Presently the society has more than 85 educational institutions including Medical, Dental, Nursing, management and Engineering Colleges. The objective and vision of the society is to "Reach the Un reached " in the field of education. The society is managed by Dr. G. Shivaprasad (Ophthalmologist) as secretary and Dr. G. Parameshwara (Formerly Minister for Higher Education, Government of Karnataka) as Joint Secretary, the two worthy sons of Late Dr. H M Gangadharaiah.

About the Institution:

Sri Siddhartha Institute of Technology (SSIT), Tumkur, was established in the 1979 by the Sri Siddhartha Education Society (SSES). Presently the institution offers 9 UG and 8 PG courses. Courses are accredited by the National Board of Accreditation (NBA) and was granted autonomous status during 2007 by Visveswaraya Technological University - the largest technological university in the country. Subsequently the Institution was granted a "constituent college" status of Sri Siddhartha Academy of Higher Education a deemed to be University (under section 3 of UGC Act of 1956) in 2009 by MHRD. This project envisages the expansion of MTech programmes and need based research.

About our Department:

The Department was established in the year 1979. The Department has been progressing over the years. It has well qualified, motivated and experienced faculty. Infrastructural facilities required for running the laboratories are well established. The university results have been extremely good. In Computer Aided Design of Structures (CAD of Structures) wherein the Design of Structures using Software is taught.

Objectives:

3DSMax software enables 3D modelling and rendering which is helpful in creating the landscape and architectural aspects for building systems. This course offers basics on modelling, rendering and its tools to be utilized.

Important dates :

- Last date for submission of application 08th Sept 2018
- The duly filled registration form has to reach the coordinator through email on or before 10th Sept 2018

A Report on Value added course

“3D Modelling using 3DSMax and Its Applications in Civil Engineering”

A value added course with the title “3D modelling using 3DSMax” was conducted on 16th, 23th & 30th September, 2018. The Welcome speech given by Dr. T V Mallechand inaugurated by watering the plant by all the dignitaries.

16.09.2018

Session I: 09:30 am to 11.00 am

The inauguration was made by the dignitaries and Dr. M Z Kurian Registrar, Sri Siddhartha Academy of Higher Education, Tumakuru and Dr. M K Veeraiah Principal, SSIT, addressed the function regarding the course and its benefits for the students.

Session II: 11.30am to 1.00 pm

Er. Tejas G M, CadDesk, Maralur, Tumakuru has delivered the presentation on introduction to 3DSMax software and its salient features related to civil engineering.

Session III: 2.00 pm to 3.30 pm

The usage of different basic tools in preparing the model is taught with examples.

Session IV: 3.30 pm to 3.30 pm

The hands-on session includes the practice of tools.

Professor & Head
Dept. Of Civil Engineering
Sri Siddhartha Institute of Technology
Marlur, TUMKUR-572 105.

23.09.2018

Session I: 09:30 am to 11.00 am & Session II: 11.30 am to 1.00 pm

In these sessions the development of 2D model is made with an example of single storey and two storey residential building with all related detailing. It followed by conversion of 2D into models into 3D models.

Session III: 2.00 pm to 3.30 pm & Session IV: 3.30 pm to 4.30 pm

The hands-on session includes the practice of tools along with 2D modelling workspace.

30.09.2018

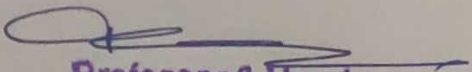

Session I: 09:30 am to 11.00 am & Session II: 11.30 am to 1.00 pm

The 3D modelling is taught for single and two storied residential buildings along with rendering and the same is included in the hands-on session.

Session III: 2.00 pm to 3.30 pm & Session IV: 3.30 pm to 4.30 pm

The evaluation is made and feedback is taken from the students. The valedictory for the course is proposed.

All the staff and student were present for all the sessions.

Sri Siddhartha Institute of Technology (SSIT), Civil Engineering was one of the two departments Tumkur Karnataka. SSIT was started in the year started along with the institute in 1979 with an intake 1979 under the ambit of Sri Siddhartha Education of 60 students. Ever since the department has grown Society (SSES), Tumkur. Since then, it has grown from strength to strength. It has well qualified, with time. At present, the Institute runs 9 experienced and dedicated staff members. In fact it programmes in Bachelor of Engineering (BE) and 7 has more senior staff members than any other Post Graduate programmes, Several Doctoral department in the institute. It is also supported by programmes and Master of Computer Application good number of non-teaching staff. with an annual intake of 836.

The department has the entire laboratory required to train the students as per the syllabi. The laboratories the year 1959 by shri H.M. Gangadharaiah, with the like Strength of Materials, Concrete, Highway, Geo blessings of Acharya Vinobha Bhawe, started with tech, Environmental, Fluid Mechanics and Survey only one school, has grown consistently and has were all established in early years of the department. established 84 Institutions under its aegis spread Now a computer center is added, to train the students across the southern part of Karnataka. The academic in the field of its application. The department also empire includes an Engineering College, a Medical takes up consultancy work as well as testing of College, a Dental College, a Nursing College, First materials. Grade Colleges, B.Ed. Colleges, Training Institutes, Sanskrit & Poly Schools, and number of high schools with a vision to take education to reach the unreached.

About the course :

- To familiarize with E CAD Survey & Total station.
- To appreciate the Procedures of working with Total station.
- To conduct field exercises using Total station digital electronics.
- To prepare field exercises for students.

BROCHURE

Sri Siddhartha Education Society was established in the year 1959 by shri H.M. Gangadharan, with the blessings of Acharya Vinobha Bhave, started with only one school, has grown consistently and has established 84 Institutions under its aegis spread across the southern part of Karnataka. The academic empire includes an Engineering College, a Medical College, a Dental College, a Nursing College, First Grade Colleges, B.Ed Colleges, Training Institutes, Sanskrit & Poly Schools, and number of high schools with a vision to take education to reach the unreached.

The Institution is one among the 14 Technical Institutions in Karnataka State, selected by the World Bank, for the award of financial assistance under Phase II of Technical Education quality improvement program (TEQIP). This assistance will be utilized to improve quality of education, research activities, establishment of center of excellence, Strengthening of Post Graduate Programme. Under this scheme, initiative on a large scale has already been taken for providing a congenial ambiance for learning and research.

ABOUT THE DEPARTMENT:

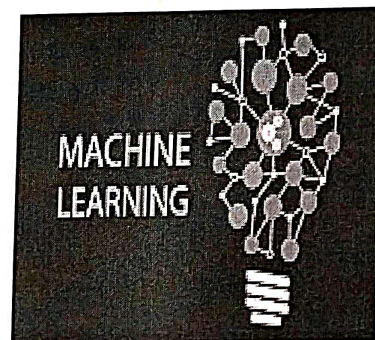

The Department of Electronics and Communication Engineering (ECE) –SSIT was started in the year 1980, with an initial intake of 40 students. The department has enhanced the intake to 120 in the year 2007. The department also offers two PG programmes namely 'Digital Electronics' from the year 2005 and 'VLSI and Embedded systems' from the year 2009 with an intake of 18 in each. The undergraduate and post graduate programmes are approved by AICTE and presently the department is one among the 9 departments in the institute, which is affiliated to Sri Siddhartha Academy of Higher Education.

ABOUT THE COURSE:

To be able to formulate machine learning problems corresponding to different applications. To understand a range of machine learning algorithms along with their strengths and weaknesses. To be able to apply machine learning algorithms to solve problems of moderate complexity.

About the Institution

Sri Siddhartha Institute of Technology (SSIT), Tumakuru, established in the year 1979 by Sri Siddhartha Education Society (SSES), is the constituent college of Sri Siddhartha Academy of Higher Education (SSAHE), Tumakuru. Accredited by National Board of Accreditation (NBA), National Assessment and Accreditation Committee (NAAC) with 'A' Grade, the Institution offers 9 UG, 8 PG courses in addition to the Doctoral Programs in various disciplines.

Among about 3200 technical institutions in the country, SSIT has been one amongst the 14 premier technical institutions in Karnataka selected as better performing institutes by the World Bank for the award of financial assistance under Technical Education Quality Improvement Program (TEQIP-I during 2005). Further the institution found its place in the list of institutions selected for TEQIP phase II as it has utilized the grants effectively for further improving the quality of technical education, research activities and make the institute a center of excellence. SSIT is situated in Tumakuru, 70 Kms away from Bangalore well connected by road and rail.

About the Department

The Dept. of Telecommunication Engineering was started during 1991 with an intake of 30 and increased currently to 60. It has been accredited by NBA for three times consecutively since 2004. The department has well equipped laboratories and well qualified faculty (4 Doctorates) with experienced support/ technical staff. The department has

patents in the field of communication technology and expertise in raising domains and sub domains of the core engineering.

About the Course

Employability skills play an important role in one's career. Professional skills are a person's skill set and ability to perform a certain type of activity or task. Employability skills are a person's ability to interact effectively with co-workers and customers. Hard skills are mainly applicable at the work place. Employability skills are applicable both at workplace and outside the work place. Employability skills complement the hard skills which are occupational requirement of a job. It also complements many other activities even outside the work place. Presently employability skills are increasingly sought out by employers in addition to standard qualification. There are instances of professions where employability skills proved to be more important, on a long term basis than occupational skills. Employability skills refer to behavior, communication, IT Skill, work ethics etc. which makes a person suitable to effectively work in a team. Studies suggest that employability skills are equally important indication of job performance as hard skills. The competency level of the

worker increases with the Employability skills and takes him to the next level..

patents in the field of communication technology and expertise in raising domains and sub domains of the core engineering.

About the Course

Embedded systems engineers are in demand, thanks to the emergence of disruptive technologies like Artificial Intelligence (AI) and the 5G powered Internet of Things (IoT). What's more, embedded systems are the building blocks of our connected world and Arm-based technologies are the industry standard. The objective of the course is to provide understanding of the techniques essential to the design and implementation of RTOS using suitable hardware and software tools. To train the students on the Arm Cortex microcontroller which has good capacity for processing real world signals? To allow people in embedded system sectors to learn programming/Interfacing peripherals to ARM cortex based microcontroller and learn troubleshooting of microcontroller based embedded electronic systems/products

ABOUT SSIT, TUMAKURU:

Sri Siddhartha Institute of Technology (SSIT), Tumakuru, was established in the 1979 by the Sri Siddhartha Education Society (SSES). Presently our institution offers 9 UG and 8 PG courses. Courses are accredited by the National Board of Accreditation (NBA) and were granted autonomous status during 2007 by Visweswaraya Technological University - the largest technological university in the country. Subsequently the Institution was granted a "constituent college" status of Sri Siddhartha Academy of Higher Education a deemed to be University (under section 3 of UGC Act of 1956) in 2009 by MHRD. The institute is one among the 14 institutions in Karnataka, selected by the World Bank for the award of financial assistance under Technical Education Quality Improvement Program (TEQIP-I during 2005). Further as a continuation the institution has been selected as one of the better performing institution in the country among the 53 TEQIP institutions for the award of grants under TEQIP-II(1.2). This program envisages the expansion of MTech programmes and need based research. This program will be from 2012 to till date. It is the pride and privilege that our college is conferred with the following awards.

- National Education Leadership Award – "Outstanding Engineering Institute South" – received on 12.09.2015 at Bangalore from Vijayavani.
- "Performance excellence Award-2014" – received on 8.10.2015 in 19th CEO's Conference at Dubai, from Indian Institute of Industrial Engineering.

ABOUT CIVIL ENGINEERING DEPARTMENT:

The Department was established in the year 1979. The Department has been progressing over the years. It has well qualified, motivated and experienced faculty. Infrastructural facilities required for running the laboratories are well established. The university results have been extremely good. The department is accredited by NBA. The department runs a PG programme M.Tech in Computer Aided Design of Structures (CAD of Structures). Opportunity is provided by our department to candidates wishing to pursue research in Ph.D.

ABOUT THE VALUE ADDED COURSE:

This Course aims to address some of the important social issues related to Construction Technology, Material used for Construction and their behaviours, Housing Sector, Transportation Infrastructure Development. This workshop shall feature key note address and invited talks. The vision of the workshop is to serve as a platform for interaction among experts and students.

OBJECTIVES

- To inculcate awareness on construction practices for the betterment of society towards sustainable development concept
- To plan for future modes of transportation & methodology of road safety index for smart urban transportation
- To discuss Energy and housing sector developmental issues
- To provide an opportunity to meet and interact with experts
- To create a platform for knowledge sharing

VALUE ADDED COURSE THEMES

Following important themes would be discussed in the technical sessions of the workshop

- Modern Construction Equipment's
- Housing Sector
- Transportation System
- Infrastructure Development
- Construction Materials
- Construction Practices

Cranes Varsity

'Where Technology Meets Excellence'

Internet of Things

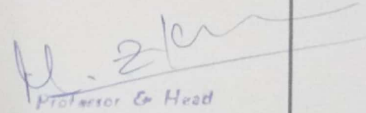

Duration: 3 days

Course Objective:

To gain an understanding of Internet of things using python features and their uses in developing applications. Understand the Internals of Internet of things by connecting node devices to gateway and gateway devices to cloud and by collecting things data, Analyzing the data and act upon the data from the cloud.

Take Away:

- Explore Raspberry-pi with Python scripts
- Discover how to work with Internet of things
- Interfacing sensors with Raspberry-pi
- Analyze the data and work with cloud
- Use Raspberry pi as a server to control the things
- Master the fundamentals of IOT by building project

ABOUT THE INSTITUTION:

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SAHE), Tumkur, accredited by National Board of Accreditation (NBA). The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The institute is one among the 14 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP1 during 2005). Presently TEQIP2 has been sanctioned for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Electrical and Electronics Engineering started in the year 1980, with an intake of 40. Present intake is 60 & running PG course in Computer Application in Industrial Drives (CAID). The Electrical and Electronics Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE PROGRAM:

The Placement Cell plays a crucial role in locating job opportunities for Under Graduates and Post Graduates passing out from the college by keeping in touch with reputed firms and industrial

establishments. The Placement Cell operates round the year to facilitate contacts between companies and graduates

Activities in training:

To assist students to develop/clarify their academic and career interests, and their short and long-term goals through individual counseling and group sessions
Maintaining and regularly updating the database of students. Maintaining database of companies and establishing strategic links for campus recruitments.
Gathering information about job fairs and all relevant recruitment advertisements.
Coordinating with companies to learn about their requirements and recruitment procedures
Identifying the needs and expectations of the companies to assist them in recruiting most suitable candidates.

Organizing pre-placement training/workshops/seminars for students.
Arranging periodic meetings with Human Resources Department of companies and TPO's to promote recruitments.
To assist students for industrial training at the end of the fourth and sixth semester.
To provide resources and activities to facilitate the career planning process.
To act as a link between students, alumni, and the employment community.
To assist students in obtaining placement in reputed companies.the analysis and designing methods of such control systems.

Placement Training Programme

“EMPLOYABILITY SKILLS”,

An Essential Training to make students Industry Ready

17th & 24th February 2019

Organized by:

Department of Telecommunication Engineering

PROGRAM SCHEDULE

17th February 2019

9 AM : INAUGURATION

10AM : Mr. Srinivasa Ramanujam, ARM, TCS, Bangalore

Topics covered:

- ❖ Typical student life cycle
- ❖ Different influencers of a student

1PM : LUNCH

2.30 PM : Typical attributes of a student - Knowledge, Skill and Attitude

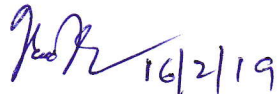

24th February 2019

10 AM : Mr Santosh, HR, M/S TCS, B'lore

- ❖ 21st Century Skills - Learning for life in our times
- ❖ Teamwork contribute to productive working relationships and outcomes.

1PM : LUNCH

2.30 PM : Self-management has a personal vision and goals

Institute Details:

Sri Siddhartha Institute of Technology(SSIT),Tumakuru, Karnataka. SSIT was started in the year 1979 under the ambit of Sri Siddhartha Education Society (SSES), Tumakuru. Since then, it has grown with time. At present, the institute runs 9 programmers' in Bachelor of Engineering(BE) and 7 Post Graduate programmers. Several Doctoral programmes and Master of Computer Application with an annual intake of 836.

Department Details:

The department of Mechanical Engineering was established in the year 1979 and its undergraduate program B.E.(Mech) is recognized by AICTE. The department has well equipped laboratories and is blessed with highly qualified, experienced & dedicated faculty. It has facilities for materials research and automotive research related to combustion, emissions and performance. It has successfully executed several industrial consultancy projects funded by organizations like Department of Scientific & Industrial Research(DSIR), Department of Science and Technology(DST), Karnataka Pollution Control Board to name a few. Striving for academic excellence by imparting quality technical education we also mould other essential human traits like discipline, moral values, leadership qualities in our graduate students enabling them to become competent

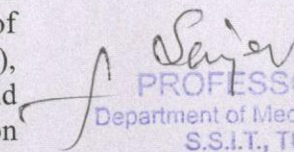

engineers by the end of their course. The department also offers a post graduate program M.Tech(Thermal Power Engineering).

Objectives:

- Give insight into fundamental concepts of Auto CAD .
- Inculcate knowledge of 1-D , 2D and all Commands and its importance while developing Design engineering applications.
- Have hands-on session to implement case studies.

How to apply?

Completed application should reach the coordinator latest by 25thFeb 2020.

Dr. M. SIDDAPPA
Professor & Head

Department of Computer Science & Engineering
Sri Siddhartha Institute of Technology
Tumakuru, Tumakuru.

ABOUT THE INSTITUTION:

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SAHE), Tumkur. Accredited by National Board of Accreditation (NBA). The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The institute is one among the 14 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP1 during 2005). Presently TEQIP2 has been sanctioned for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Computer Science and Engineering started in the year 1985, with an intake of 40. Present intake is 120 & running PG course in Computer Science and Engineering. The Computer Science and Engineering department is accredited by the National Board

of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE WORKSHOP:

This workshop aims at bringing the students, professionals, academics and research scholars together to share their knowledge for achieving focused development and advancement in the field of BIG DATA and DATA-MINING.

The primary goal of big data analytics is to help organizations make better business decision. The objective of this workshop is to understand the challenges in architectures to store, and access the Big data, perform analytics on Big data for data intensive applications.

Data-mining refers to the activity of going through big data sets to look for relevant or pertinent information. Data-mining refers to operations that involve relatively sophisticated search operations that return targeted and specific results.

In short, big data is the asset and data mining is the "handler" of that is used to provide beneficial results.

Brochure

About SSIT:

Sri Siddhartha Institute of Technology (SSIT), Tumkur Karnataka. SSIT was started in the year 1979 under the ambit of Sri Siddhartha Education Society (SSES), Tumkur. Since then, it has grown with time. At present, the Institute runs 9 programmes in Bachelor of Engineering (BE) and 7 Post Graduate programmes, Several Doctoral programmes and Master of Computer Application with an annual intake of 836.

Sri Siddhartha Education Society was established in the year 1959 by shri H.M. Gangadharaiiah, with the blessings of Acharya Vinobha Bhave, started with only one school, has grown consistently and has established 84 Institutions under its aegis spread across the southern part of Karnataka. The academic empire includes an Engineering College, a Medical College, a Dental College, a Nursing College, First Grade Colleges, B.Ed. Colleges, Training Institutes, Sanskrit & Poly Schools, and number of high schools with a vision to take education to reach the unreached.

About Department:

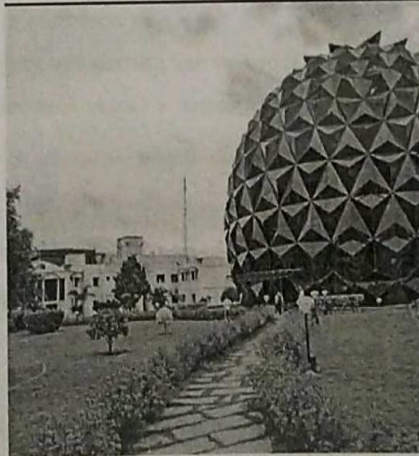

Civil Engineering was one of the two departments started along with the institute in 1979 with an intake of 60 students. Ever since the department has grown from strength to strength. It has well qualified, experienced and dedicated staff members. In fact it has more senior staff members than any other department in the institute. It is also supported by good number of non-teaching staff.

The department has all the laboratory required to train the students as per the syllabi. The laboratories like Strength of Materials, Concrete, Highway, Geotech, Environmental, Fluid Mechanics and Survey were all established in early years of the department. Now a computer center is added, to train the students in the field of its application. The department also takes up consultancy work as well as testing of materials.

About the Course :

To encourage students to know about more about Civil Engineering softwares as it is becoming an essential part of every project work. As infrastructure development is playing very important role in the growth of any country, the amount of software serving Civil Engineering and design needs is increasing tremendously.

Civil software has the major function to reduce man work, increase speed and reduce human error with authentic information on board. There are various software for Civil Engineering developed for different works like Auto CAD, SAP 2000, STAAD Pro., ETABS, Primavera, ECAD Survey, Revit, 3DS Max-Modelling etc.

ABOUT THE INSTITUTION

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SAHE), Tumkur, accredited by National Board of Accreditation (NBA). The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The institute is one amongst the 14 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP1 during 2005). Presently TEQIP2 has been sanctioned for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Electronics and Communication Engineering started in the year 1980 and the present intake is 120. The departments also offers two PG programmes. The department is 3 times accredited by the National Board of Accreditation (NBA), Delhi. It has well equipped Laboratories and also quite experienced staff.

TOPICS

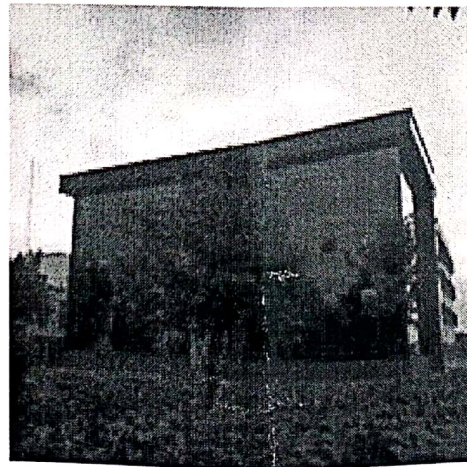

- Basics of machine Learning.
- Concepts of Machine learning algorithms.
- Python- installation, syntax, design.
- Hands on: Python programming.

IMPORTANT DATES:

Inauguration- 4th November 2019, 10.00 AM

on

“CIRCUIT DESIGN AND PCB
FABRICATION”

23/09/2019 to 25/09/2019

Organized by:

Dept. of Electronics and
Communication Engineering,

**Sri Siddhartha Institute of
Technology**

Maralur, Tumkur-572105, Karnataka
Ph:0816-2200314, 2201073
Website:www.ssit.edu.in

ABOUT THE INSTITUTION:

Sri Siddhartha Education Society was established in the year 1959 by shri H.M. Gangadharaiiah, with the blessings of Acharya Vinobha Bhave, started with only one school, has grown consistently and has established 84 Institutions under its aegis spread across the southern part of Karnataka. The academic empire includes an Engineering College, a Medical College, a Dental College, a Nursing College, First Grade Colleges, B.Ed Colleges, Training Institutes, Sanskrit & Poly Schools, and number of high schools with a vision to take education to reach the unreached.

The Institution is one among the 14 Technical Institutions in Karnataka State, selected by the World Bank, for the award of financial assistance under Phase II of Technical Education quality improvement program (TEQIP). This assistance will be utilized to improve quality of education, research activities, establishment of center of excellence, Strengthening of Post Graduate Programme. Under this scheme, initiative on a large scale has already been taken for providing a congenial ambiance for learning and research.

ABOUT THE DEPARTMENT:

The Department of Electronics and Communication Engineering (ECE) –SSIT was started in the year 1980, with an initial intake of 40 students. The department has enhanced the intake to 120 in the year 2007. The department also offers two PG programmes namely 'Digital Electronics' from the year 2005 and 'VLSI and Embedded systems' from the year 2009 with an intake of 18 in each. The undergraduate and post graduate programmes are approved by AICTE and presently the department is one among the 9 departments in the institute, which is affiliated to Sri Siddhartha Academy of Higher Education.

ABOUT THE COURSE:

In this course, the students will be able to analyze and construct basic Analog and Digital circuits as well as design printed circuit boards. This course is designed to train students in Printed Circuit Board design, Drafting and Fabrication. Students will experience the use of CAD tool to design the different circuits.

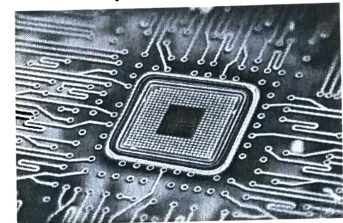

No Registration Fee

BROCHURE

About the Department:

The Electronics and Communication Department is accredited by the National Board of Accreditation (NBA) and All India Council for Technical Education (AICTE). Electronics has brought revolution in modern industries. It is the backbone in miniaturizing the present day tools, gadgets with intelligence to produce highly talented, well-trained engineers. The department was started in the year 1980. The Department is running B.E course with the intake of 120.

Presently TEQIP2 has been sanctioned for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Electrical and Electronics Engineering started in the year 1980, with an intake of 40. Present intake is 120 & running PG course in Computer Application in Industrial Drives (CAID). The Electrical and Electronics Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE WORKSHOP:

In recent years, concept of automatic control systems has achieved a very important position in advancement of Modern science. Automatic control

systems have played an important role in the advancement and improvement of engineering skills.

Practically, every activity of our day to day life is influenced by some sort of control system. Concept of control system also plays an important role in working of space vehicles, satellites, guided missiles, etc. Such control systems are now integral part of the modern industrialization, industrial process and home appliances. Control systems are found in number of practical applications like computerized control system, transportation systems, power systems, temperature limiting systems, robotics, etc. For an engineer it is absolutely necessary to be familiar with the analysis and designing methods of such control systems.

This workshop helps the participants to gain knowledge and importance about the control systems. They will be able to understand the control and monitoring the instruments in real time. They will be able to demonstrate proper operation of plants support functions. A visit to ISRO-Master Control Facility, Hassan, gives participants practical exposure to design & analysis of Advanced Control Systems.

Registration Fee for

External Participants:

Delegates from Industry : Rs. 1000

Delegates from educational Institutions : Rs. 500

PG & Research Students : Rs. 300

Workshop starts with registration on:
23rd MAY 2020 at 9 AM.

The Electrical and Electronics Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE WORKSHOP:

For effective & efficient transmission system, high voltage was chosen to transmit bulk power from generating stations to the consumer premises. The demand for large amount of electric power, necessitates

transmission at increasingly High Voltages. Today's challenges in power transmission looks for flexible and effective technical solutions. HVDC technology is the adequate solution for economical power transmission over very long distances and also a trusted method to connect grids. Therewith HVDC transmission is the only realistic alternate to AC technology. A DC transmission consists of nearly all the components of a corresponding AC system of capable voltage, current and power levels, but in addition has the following unique equipments such as Filtered to smooth rectified AC, Reactors to supply reactive power, High voltage-High current rectifiers, Inverters, Ground electrodes. Experts on HVDC cover the following topics during the workshop.

- Components of HVDC transmission
- Types of HVDC transmission
- Rectifier and Inverter station in HVDC Transmission system
- Protection in HVDC system.

A visit to Talcher-Kolar HVDC system gives practical exposure to HVDC system. Talcher-Kolar HVDC system is a 1450 Km HVDC transmission connected between eastern and southern regions in India.

Cranes Varsity

'Where Technology Meets Excellence'

Machine Learning

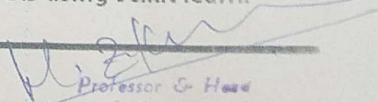

Duration: 3 days

Course Objective:

- This is an introductory course on Machine Learning. It begins by refreshing the core concepts of Python required in programming of Machine Learning models.
- Learn about working with vectors and matrices using NumPy package.
- Learn to read data-sets and prepare the data for modelling using pandas library.
- Learn and Apply various machine learning algorithms.

Take Away:

- Learn how to build and tune predictive models and evaluate how well they perform on unseen data.
- Learn how to cluster, transform, visualize and extract insights from unlabelled datasets using scikit learn.
- Use ML to make decisions

REPORT FOR PROGRAMME ON BIM USING REVIT ARCHITECTURE

The department event for students is conducted in civil engineering department, it is the most informative and knowledge event for students conducted by CADD CENTRE TUMAKURU.

This event is conducted from 27th FEB 2021, from 2.30p.m. to 5.30p.m. in SSIT

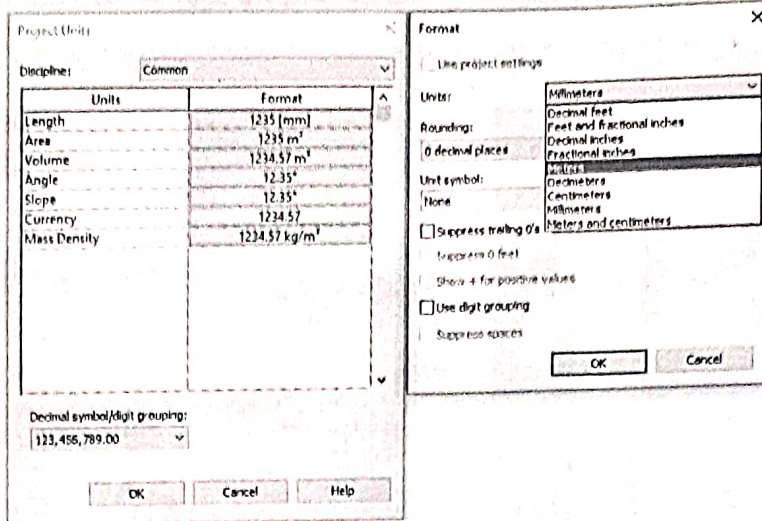

The following topics are covered by using Revit Architecture

- ✓ Basic setups, units, levels.
- ✓ Creation of walls & openings.
- ✓ Floors, Roof & Staircase.
- ✓ Exterior design
- ✓ Materials.
- ✓ Rendering.

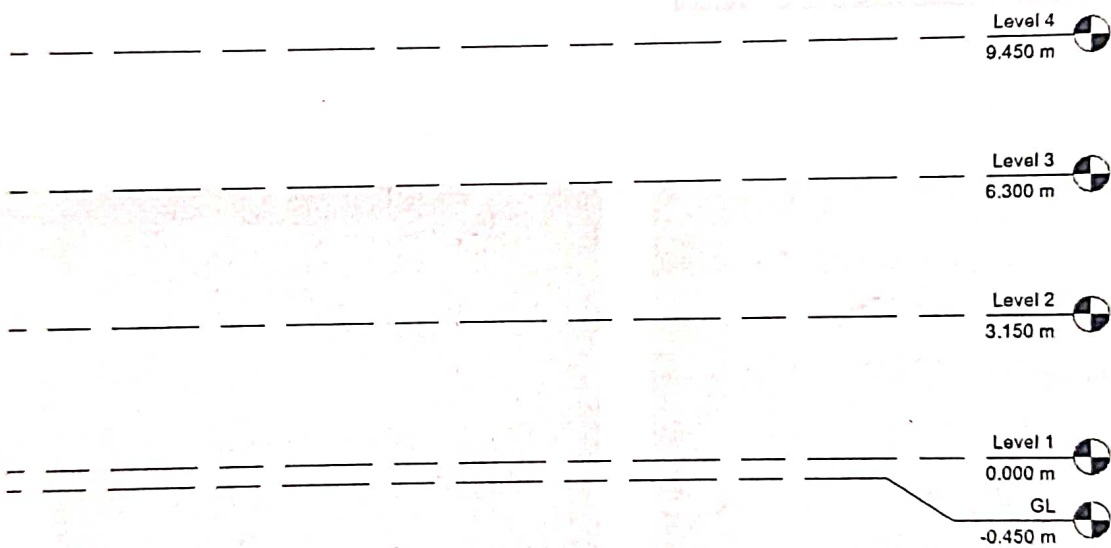

Bidirectional Associativity:

- ✓ A change anywhere is a change everywhere.
- ✓ In Revit Architecture software, all model information is stored in one place. As a result, any information that gets changed is effectively changed throughout the model.

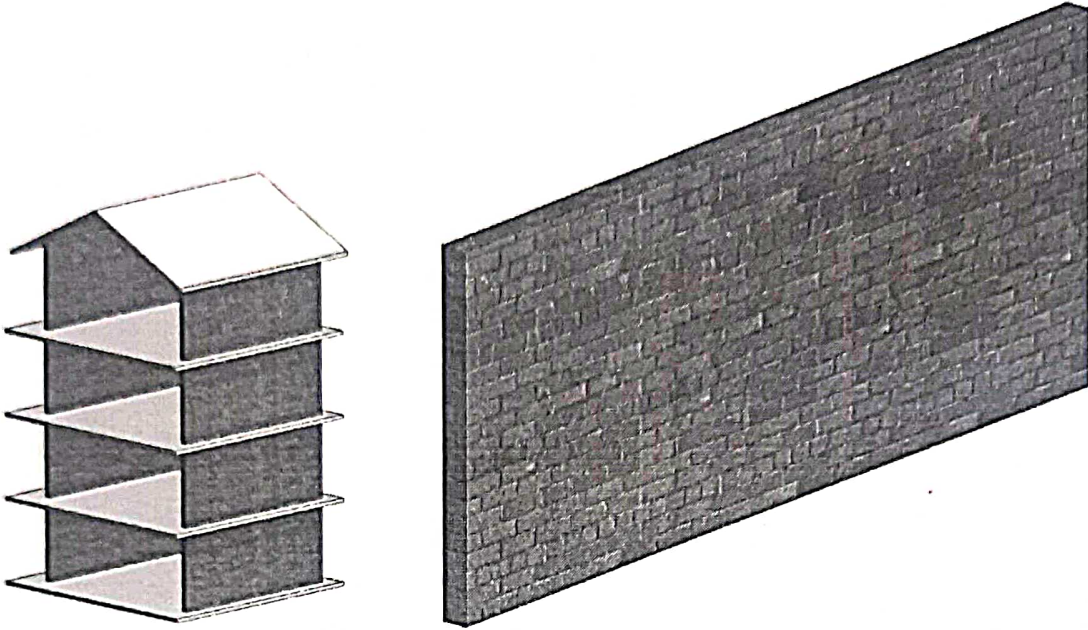

Basic setups, units, levels:

Levels:

Creation of walls doors and windows

3D ELEVATION by using Revit Architecture:

Inauguration

Patrons:

ABOUT THE INSTITUTE

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SSAHE), Tumkur and accredited by National Board of Accreditation (NBA). The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The Institute is one among the top Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program during 2005. Presently has been sanctioned for scaling up PG studies and research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a center of excellence.

ABOUT THE DEPARTMENT

The Department of Electronics & Communication Engineering started in the year 1980, with an intake of 40. Presently the intake is 120 and running PG courses in Master of Technology (VLSI & Embedded Systems) and Master of Technology (Digital Electronics). The department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories and experienced staff.

ABOUT THE VALUE ADDED COURSE

The basic objective of the course is to train the students members on Advanced C Programming, which also includes the advanced C Programming Applications. The participants will be introduced to the recent trends on advanced programming language.

PROGRAMME OBJECTIVES

Students will be able to apply advanced concepts of the C programming language to create advanced C applications. Students will be able to apply Function and Double Pointers, Recursion, Bit Manipulation, Macros, Signals, Students Learn all about threads and networking with Sockets. Students Master the art of problem solving in programming using efficient, proven methods. Students be able to apply advanced C concepts to other programming languages and writing high quality C code, to make yourself more marketable for higher level programming positions and be apply for real-time programming positions.

IMPORTANT DATES

Last Date for Registration: 10/5/2021

BROCHURE

Sri Siddhartha Education Society was established in the year 1959 by shri H.M. Gangadharaiah, with the blessings of Acharya VinobhaBhave, started with only one school, has grown consistently and has established 84 Institutions under its aegis spread across the southern part of Karnataka. The academic empire includes an Engineering College, a Medical College, a Dental College, a Nursing College, First Grade Colleges, B.Ed Colleges, Training Institutes, Sanskrit & Poly Schools, and number of high schools with a vision to take education to reach the unreached.

The Institution is one among the 14 Technical Institutions in Karnataka State, selected by the World Bank, for the award of financial assistance under Phase II of Technical Education quality improvement program (TEQIP). This assistance will be utilized to improve quality of education, research activities, establishment of center of excellence, Strengthening of Post Graduate Programme. Under this scheme, initiative on a large scale has already been taken for providing a congenial ambiance for learning and research.

ABOUT THE DEPARTMENT:

The Department of Electronics and Communication Engineering (ECE) –SSIT was started in the year 1980, with an initial intake of 40 students. The department has enhanced the intake to 120 in the year 2007. The department also offers two PG programmes namely 'Digital Electronics' from the year 2005 and 'VLSI and Embedded systems' from the year 2009 with an intake of 18 in each. The undergraduate and post graduate programmes are approved by AICTE and presently the department is one among the 9 departments in the institute, which is affiliated to Sri Siddhartha Academy of Higher Education.

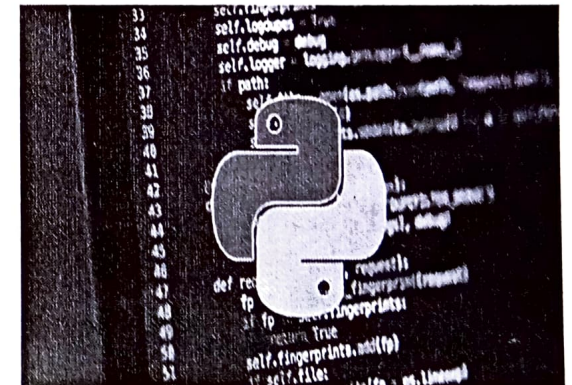

ABOUT THE COURSE:

Python is a high-level, general-purpose programming language. Its design philosophy emphasizes code readability with the use of significant indentation. Python is dynamically-typed and garbage-collected. It supports multiple programming paradigms, including structured, object-oriented and functional

programming. It is often described as a "batteries included" language due to its comprehensive standard library.

About the Institution

Sri Siddhartha Institute of Technology (SSIT), Tumakuru, established in the year 1979 by Sri Siddhartha Education Society (SSES), is the constituent college of Sri Siddhartha Academy of Higher Education (SSAHE), Tumakuru. Accredited by National Board of Accreditation (NBA), National Assessment and Accreditation Committee (NAAC) with 'A' Grade, the Institution offers 9 UG, 8 PG courses in addition to the Doctoral Programs in various disciplines.

Among about 3200 technical institutions in the country, SSIT has been one amongst the 14 premier technical institutions in Karnataka selected as better performing institutes by the World Bank for the award of financial assistance under Technical Education Quality Improvement Program (TEQIP-I during 2005). Further the institution found its place in the list of institutions selected for TEQIP phase II as it has utilized the grants effectively for further improving the quality of technical education, research activities and make the institute a center of excellence. SSIT is situated in Tumakuru, 70 Kms away from Bangalore well connected by road and rail.

About the Department

The Dept. of Telecommunication Engineering was started during 1991 with an intake of 30 and increased currently to 60. It has been accredited by NBA for three times consecutively since 2004. The department has well equipped laboratories and well qualified faculty (4 Doctorates) with experienced support/ technical staff. The department has

patents in the field of communication technology and expertise in raising domains and sub domains of the core engineering.

About the FDP

Employability skills play an important role in one's career. Professional skills are a person's skill set and ability to perform a certain type of activity or task. Employability skills are a person's ability to interact effectively with co-workers and customers. Hard skills are mainly applicable at the work place. Employability skills are applicable both at workplace and outside the work place. Employability skills complement the hard skills which are occupational requirement of a job. It also complements many other activities even outside the work place. Presently employability skills are increasingly sought out by employers in addition to standard qualification. There are instances of professions where employability skills proved to be more important, on a long term basis than occupational skills. Employability skills refer to behavior, communication, IT Skill, work ethics etc. which makes a person suitable to effectively work in a team. Studies suggest that employability skills are equally important indication of job performance as hard skills. The competency level of the

worker increases with the Employability skills and takes him to the next level..

Who can attend?

- ✓ E&TC students.

Report on
“Value Added Course on Circuit design and PCB Fabrication
(VAC/19-20/ET/2)
15 Hrs (Evening/Weekends)
5/9/2020 to 26/9/2020

The Value Added Course Programme where various related subtopics like Getting started with PCB Layout, PCB Process fabrication flow, Exporting the gerbers for PCB Fabrication, were discussed in detail by eminent educationists and a very beneficial academic environment was experienced by the participants.

The Value Added Course was started on 4th September, 2021 with the Lamp Lightening ceremony followed by Saraswati Vandana. The dignitaries were welcomed by the HOD dept. of E&TE.

The Value Added Course Programme where various related subtopics like Getting started with PCB Layout, PCB Process fabrication flow, Exporting the gerbers for PCB Fabrication, were discussed in detail by eminent educationists and a very beneficial academic environment was experienced by the participants

Outcome: The participants have acquired knowledge of the different aspects of designing, planning and delivering quality e-content for teaching-learning and also about the appropriate developmental tools needed to develop e-model using text, images, audio and video.

Firstly the students were given brief explanation on the different stages involved in PCB designing. They were then given a hands-on training on Eagle Software, where the instructor took them step by step through Schematic creation, ERC, Netlist generation, Layout design, and DRC.

These sessions included varied topics in the domain of **Circuit design and PCB Fabrication** where the usage of technology, which gave insight to participants of various methodologies used and evolved and the lecture, was very beneficial and provided an insight on the various challenges associated with topic.

A concluding session followed after the tea break in which participants shared their experiences. Most of them talked about their enriching experience at the value added course and gave the vote of thanks and concluded the programme.

Department of Computer Science & Engineering

Sri Siddhartha Institute of Technology

Maraluru, Tumakuru.

ABOUT THE INSTITUTION:

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SAHE), Tumkur, Accredited by National Board of Accreditation (NBA). The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The institute is one among the 14 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP1 during 2005). Presently TEQIP2 has been sanctioned for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a Centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Computer Science and Engineering started in the year 1985, with an intake of 40. Present intake is 120 & running PG

course in Computer Science and Engineering. The Computer Science and Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE COURSE:

To encourage Students to start working with IoT applications by enhancing their knowledge and skills in various hardware and software design aspects of Internet of things (IoT). This course offers a range

of topics of immediate relevance to industry and makes the students exactly suitable for industries engaged in IoT System development. This course is also an excellent preparation for those wishes to engage in application research in this rapidly developing area. Also the course offers the idea of how to develop IoT products specific to Indian needs in the domains of agriculture, health, water quality, natural disasters, transportation, security, automobile, supply chain management, smart cities, automated metering and monitoring of utilities, waste management, Oil & Gas) etc

“Internet of Things”

Four days Value added Course on “INTERNET OF THINGS” was organized by department of Computer Science and Engg., SSIT Tumkur on 16/12/2021 Thursday to 19/12/2021 Sunday. The Course was inaugurated by Mr Deepak Singh Co-founder, Monkfox Bangalore as chief guest and Presided by Dr M S Raviprakash Principal and Mr Deepak Singh explains overview Internet of things and its applications in present day.

Day 1 : 16-12-2021

Mr. Mr Deepak Singh Bangalore Explained in detail about Introduction to IoT Overview, various sub-areas of IoT, technology layers, product examples.

Day 2 : 17-12-2021

Mr Sai Kiran Senior Programmer, Monkfox Bangalore – give detailed talk on Study on existing IoT platforms/middle wares IoT- A Hydra, OpenIOT, Carriot, Xively etc , and also discussed about Introduction to Raspberry Pi Platform, Different methods of Logging in to Raspberry Pi

Day 3: 18.12.2021

Dr Dr Thippeswamy, Professor, Dept of CSE, VTU, Mysore

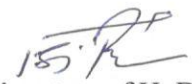

Discuss on Discussion on IoT protocols Data protocols MQTT, CoAP, AMQP, Websocket and Communication protocols WiFi, BLE (Bluetooth Low Energy), 6LowPan, Zigbee and their variants. Dr. Yuvaraju Professor, Dept of CSE, VVIT,, Mysore explains fundamentals on Demonstration of Bluetooth and Wifi Modules using hardware and also discussed about Refreshing Linux and VIM

Day 4 : 19- 12 -2021

Narayana K A, Protech Micro Systems Pvt Ltd. Bangalore given a talk on Building a Temperature Sensing System, Build the Temperature Sensing System and send value to a Mobile App, build each part of this system (except the mobile App). Explanation is given for I2C protocol, working of ADCs, MQTT protocol and the overall system architecture

Mr. Suprith Protech Micro Systems Pvt Ltd. Bangalore. discussed on Home Automation: Light Control Control Bulb through Mobile App Home Automation: Light Control, We build the entire hardware and software system for this. They first write a local publisher & subscriber and then use the Mobile App

About SSIT:

Sri Siddhartha Institute of Technology (SSIT), Civil Engineering was one of the two departments Tumkur Karnataka. SSIT was started in the year started along with the institute in 1979 with an intake 1979 under the ambit of Sri Siddhartha Education of 60 students. Ever since the department has grown Society (SSES), Tumkur. Since then, it has grown from strength to strength. It has well qualified, with time. At present, the Institute runs 9 experienced and dedicated staff members. In fact it programmes in Bachelor of Engineering (BE) and 7 has more senior staff members than any other Post Graduate programmes, Several Doctoral department in the institute. It is also supported by programmes and Master of Computer Application good number of non-teaching staff and the intake with an annual intake of 836. has been increased from 60 to 120 in the year 2018.

About Department:

Sri Siddhartha Education Society was established in The department has the entire laboratory required to the year 1959 by shri H.M. Gangadharaiah, with the train the students as per the syllabi. The laboratories blessings of Acharya Vinobha Bhave, started with like Strength of Materials, Concrete, Highway, only one school, has grown consistently and has Geotech, Environmental, Fluid Mechanics and established 84 Institutions under its aegis spread Survey were all established in early years of the across the southern part of Karnataka. The academic department. Now a computer center is added, to train the students in the field of its application. The empire includes an Engineering College, a Medical department also takes up consultancy work as well as College, a Dental College, a Nursing College, First testing of materials. Grade Colleges, B.Ed. Colleges, Training Institutes, Sanskrit & Poly Schools, and number of high schools with a vision to take education to reach the unreached.

Objectives of Value Added Course :

The main objective of the Value Added Course is to learn managing information for a built asset throughout its lifecycle—from planning and design to construction and operations and to learn beyond the syllabus.

Value Added Course
On
2D and 3D modelling by using AutoCAD
Report - December 2021

Value Added Course on 2D and 3D modelling by using AutoCAD for the students of 5th semester from 4th to 05th December and 11th to 12th December 2021 was organized by the Department of Civil Engineering in Tumakuru,. The Course was coordinated by Mr. Guruprasad T N Assistant Professor of the Civil Engineering Department.

The Day 1 of Value Added Course was Inaugurated with Invocation from Ms Jnanashree 5th semester student and followed by the Inauguration by watering the plants by the dignitaries of the programme. Dr T V Mallesh welcomed the dignitaries to the programme and introduction of the chief guests were read by the coordinators and the guests were addressed the gathering followed by the presidential address by Dr M S Raviprakash Principal SSIT. Mr. Sharath Chandra the resource person from the CADD Centre presented the Introduction to AutoCAD Software to the participants and the day one ended with the good interaction between the speaker and the participants.

Day two of Value Added Course was started with hands on session from resource person to the participants on AutoCAD Software and the sessions were interactive and very neatly executed by the resource person. Day three of Value Added Course was started with the part where they left on the day two and the participants had a very good practice on the software. And followed by day four Mr Shivakumar A S Trainer CAD Centre has presented the conclusion talk. At last the valedictory function was arranged in the last session and Mr Alok Chandra T and Jalaja K shared their feedback about the experience and the learning opportunity provided by the Value Added Course. At last vote of thanks was performed by Prof S R Ramesh.

The Value Added Course was a very good practical experience for the Registered Students of 5th Semester and completed on a good note with the support of management, the Principal, and all teaching and non-teaching staff members of the department.

Now a computer center is added, to train the students in the field of its application. The department also takes up consultancy work as well as testing of materials.

About the Course :

Due to project productivity and profitability, lean construction principles and techniques are becoming increasingly prevalent worldwide. Following are the themes of the present course

- Lean Construction and Behaviour
- Lean Construction Philosophy
- Lean Construction Methods
- Lean Design Management
- Lean In Sustainable and Green Technologies
- Lean Construction in Public Sector

BROCHURE

ABOUT THE INSTITUTION

Sri Siddhartha Institute of Technology (SSIT), Tumkur, was established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SSAHE), Tumkur, accredited by National Board of Accreditation (NBA). The Institution offers 10 courses at the UG level and 8 courses at the PG level, and Doctoral programmes in various disciplines.

The institute is one among the 17 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP1 during 2005) and TEQIP2 for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a centre of excellence.

ABOUT THE DEPARTMENT

The Department of Electronics and Communication Engineering (ECE) –SSIT was started in the year 1980, with an initial intake of 40 students. The department has enhanced the intake to 120 in the year 2007. The department also offers two PG

programmes namely 'Digital Electronics' from the year 2005 and 'VLSI and Embedded systems' from the year 2009 with an intake of 18 in each. The undergraduate and post graduate programmes are approved by AICTE and presently the department is one among the 9 departments in the institute, which is affiliated to Sri Siddhartha Academy of Higher Education.

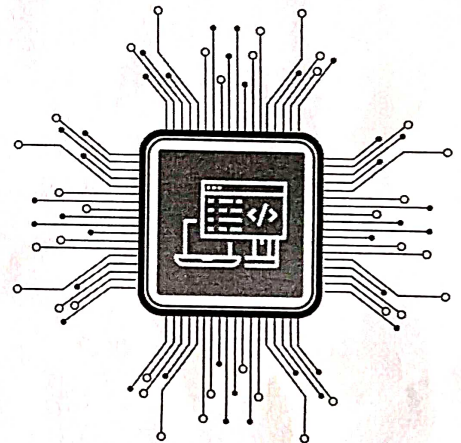

ABOUT THE COURSE:

The course is intended to provide a vibrant opportunity for research scholars to enrich their knowledge in the area of digital IC Design. The following topics will be covered on this course.

- Review of Analog/Digital VLSI circuit Design
- ASIC Design Flow
- VLSI Schematic circuit design (using Cadence Virtuoso/Synopsys Custom designer)
- VLSI Layout design (using Cadence Virtuoso Layout Editor)
- Analog Environment Simulation
- Layout versus schematic simulation(LVS)
- Post Layout Simulation
- Monte Carlo Simulation
- GDS file extraction
- Introduction on SOC Encounter
- Synopsys Design vision for HDL synthesis and netlist file generation.

Value Added Course

on

“Analog and Digital Circuit Design using VLSI Tools”

Date: 15.02.2022 to 17.02.2022

Report

The aim of this course is to provide hands-on experience on the state-of-the-art Cadence EDA tools for VLSI Design. The participants will have an exposure to the Circuit Design & Simulation, Layout, Physical Verification (DRC, LVS), and Extraction. The workshop includes practice sessions on the Cadence design and simulation tools (Virtuoso, Spectra, Assura and Incisive).

Cadence is a leading provider of EDA and semiconductor IP. Our custom/analog tools help engineers design the transistors, standard cells, and IP blocks that make up SoCs. Our digital tools automate the design and verification of giga-scale, giga-hertz SoCs at the latest semiconductor processing nodes. Our IC packaging and PCB tools permit the design of complete boards and subsystems. Cadence also offers a growing portfolio of design IP and verification IP for memories, interface protocols, analog/mixed-signal components, and specialized processors. And reaching up to the systems level, Cadence offers an integrated suite of hardware/software co-development platforms. In short, Cadence® technology helps customers build great products that connect the world.

Course Topics:

- Introduction to VLSI, Technologies, Applications, Future Trends in VLSI.
- Design and Analysis of Analog Circuits.
- Design and Analysis of Digital Circuits.
- Design of Layouts of Analog and Digital Circuits.

ABOUT THE INSTITUTION:

Sri Siddhartha Institute of Technology (SSIT), Tumkur, established in the year 1979 by Sri Siddhartha Education Society (SSES), is affiliated to Sri Siddhartha Academy of Higher Education (SAHE), Tumkur, accredited by National Board of Accreditation (NBA) and National Accreditation Assessment Council (NAAC) with 'A' grade. The Institution offers 9 courses at the UG level and 8 courses at the PG level, apart from Doctoral programmes in various disciplines under its research centers.

The institute is one among the 14 Premier Technical Institutions in Karnataka, selected by the World Bank for award of financial assistance under Technical Education Quality Improvement Program (TEQIP-I during 2005). Presently TEQIP-II has been sanctioned for scaling up PG studies & research activities. The assistance is utilized to improve the quality of education, to modernize the laboratory facilities and to make this Institution a centre of excellence.

ABOUT THE DEPARTMENT:

The Department of Electrical and Electronics Engineering started in the year 1980, with an intake of 40. Present intake is 120 & running PG course in Computer Application in Industrial Drives (CAID). The Electrical and Electronics Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE WORKSHOP:

With increasing demand for energy and with fast depleting conventional sources of energy such as coal, petroleum, natural gas,

etc., the non-conventional sources of energy such as energy from sun, wind, biomass, tidal energy, geo-thermal energy and even energy from waste material are gaining importance. This energy is abundant, renewable, pollution free and eco-friendly. Utilization, industrialization and increased penetration of electricity have led to unprecedented dependency on fossil fuels. The development of renewable energy sources and their technologies is of paramount importance to have a balanced environment for better quality of life. The main objective of the workshop is to discuss the recent trends in the area of non conventional energy sources, to analyze the need for optimizing the output from the solar, wind and tidal energy and to discuss various control techniques available to optimize the output and integrate the solar, wind and tidal energy system with the grid. This workshop helps the participants to gain knowledge and importance about the non conventional energy sources. They will be able to understand the generation of alternate energy sources like solar, wind, tidal, etc. A visit to Solar power plant at Kolar gives participants practical exposure to generation of non conventional energy source.

The Electrical and Electronics Engineering department is accredited by the National Board of Accreditation (NBA). The department has well equipped Laboratories & experienced staff.

ABOUT THE WORKSHOP:

Electric Drives plays an important role in industrial application. In Industrial drives, generator operation permits use of regenerative braking mode, by which the machine speed slows down while its mechanical energy is recovered. Technology advances in power electronics drive contribute to performance improvement and cost reduction, with applications proliferating in industrial, commercial, residential, military and aerospace environment.

About the Institution

Sri Siddhartha Institute of Technology (SSIT), Tumakuru, established in the year 1979 by Sri Siddhartha Education Society (SSES), is the constituent college of Sri Siddhartha Academy of Higher Education (SSAHE), Tumakuru. Accredited by National Board of Accreditation (NBA), National Assessment and Accreditation Committee (NAAC) with 'A' Grade, the Institution offers 9 UG, 8 PG courses in addition to the Doctoral Programs in various disciplines.

Among about 3200 technical institutions in the country, SSIT has been one amongst the 14 premier technical institutions in Karnataka selected as better performing institutes by the World Bank for the award of financial assistance under Technical Education Quality Improvement Program (TEQIP-I during 2005). Further the institution found its place in the list of institutions selected for TEQIP phase II as it has utilized the grants effectively for further improving the quality of technical education, research activities and make the institute a center of excellence. SSIT is situated in Tumakuru, 70 Kms away from Bangalore well connected by road and rail.

About the Department

The Dept. of Telecommunication Engineering was started during 1991 with an intake of 30 and increased currently to 60. It has been accredited by NBA for three times consecutively since 2004. The department has well equipped laboratories and well qualified

faculty (4 Doctorates) with experienced support/ technical staff. The department has patents in the field of communication technology and expertise in raising domains and sub domains of the core engineering.

About the FDP

Employability skills play an important role in one's career. Professional skills are a person's skill set and ability to perform a certain type of activity or task. Employability skills are a person's ability to interact effectively with co-workers and customers. Hard skills are mainly applicable at the work place. Employability skills are applicable both at workplace and outside the work place. Employability skills complement the hard skills which are occupational requirement of a job. It also complements many other activities even outside the work place. Presently employability skills are increasingly sought out by employers in addition to standard qualification. There are instances of professions where employability skills proved to be more important, on a long term basis than occupational skills. Employability skills refer to behavior, communication, IT Skill, work ethics etc. which makes a person suitable to effectively work in a team. Studies suggest that employability skills are equally

important indication of job performance as hard skills. The competency level of the worker increases with the Employability skills and takes him to the next level..
