Report on Annual Cultural Day 2017-18

The Sri Siddhartha Dental College has organized its annual cultural program on 9th July 2018 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The auditorium had been set up in a grandeur arrangement. All the gates were covered with flowers and beautiful lights. At 10:30 in the morning the program started with an inauguration by the honourable Vice chancellor Dr. Balakrishna Shetty and the chief guest, Sri Ramakrishna cine Artist. Then an opening musical presentation made the audience feel the warmth.

The last performance was immensely intense as it was dedicated to the social workers who are dedicating their life every day to bring positive changes to the world. After the end of the traditional cultural programs by the students, a special surprise of an authentic Kuchipudi performance was presented. It gave a delightful ending to the evening.

Report on Annual Cultural Day 2017-18

The Sri Siddhartha Medical College has organized its annual cultural program on 19th July 2018 in the Nagarajuna auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

We would like to inform you that all Cultural Activities, with the Co-operation of all students of the College, College Development Council's members, CollegePrincipal, Members of the Cultural Committee, Teaching and non-Teaching faculties have been very successful in the academic year 2017-18. The inaugural ceremony of the college's cultural activities commenced with the academic year 2017-18 and celebrated the national, international, our state festival and national leaders' celebrations at the college to create awareness of the patriotic and leadership qualities of the students. Recognizing the hidden talents of the college's talented students, they were sent from the college as cultural ambassadors for intercollegiate singing and dance competitions at the university

Report on Ayadhapooja 2017-18

Rangoli Competition

The Sri Siddhartha Dental College has organized its annual cultural program on 4th Oct 2017 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The principal goddesses worshipped during the Ayudha Puja are [Saraswati](#), the goddess of learning, Lakshmi, the goddess of prosperity, and Parvati, the goddess of power. On this occasion, the implements employed by people of various professions and walks of life are customarily venerated, such as the weapons of a soldier, tools of an artisan, and the books of a student. The religious significance of this occasion is to commemorate the victory of the goddess Durga over Mahishasura, or the conquest of Lanka by Rama. In South India, the occasion is primarily dedicated to Saraswati, with the practice of educational materials such as books, pens, pencils, musical instruments, and other equipment being venerated, to signify the victory of knowledge over ignorance.

On this occasion in our college we conduct Rangoli competition. Our University Vice-chancellor inaugurated this function. And all the students are participated in this competition. Prizes will be distributed to winners.

Report on best out of waste

The Sri Siddhartha Institute of Technology has organized its Annual Program "BEST OUT OF WASTE", on 15th Oct 2017 in the college Premises. All the Students are participated.

The motion "BEST OUT OF WASTE" in itself refers to encourage reuse of wastes. In our homes, there are many clothes which lie unworn. Based on the thinking to reuse these clothes and reuse the waste products our team collaborated with Swacchta Action Plan and decided to make cloth bags which would rather help to replace plastic bags, used in homes and to increase the awareness about the environment among the people. Eco-club play an important role in creating environmental awareness amongst the students and these are the means by which students can be empowered to participate and take up meaningful environmental activities and projects. Preparation of Eco- friendly product out of waste material forms an important part of Eco-club as it enables us to make the useless things more useful. So our Ecoclub team not only make various things like cloth bags, wall hangings, face mask, wall decorations, flower pots, paper bags etc. and also create awareness among students through Whatsaap, Facebook etc. to use the waste products in best possible way

Report on cooking competition

Sri Siddhartha Dental college is conducting Cooking Competition without fire on 20.11.2017 at College premises. All the Students are participated.

Cooking competitions are a thrilling way to showcase culinary skills and creativity. Recently, I had the opportunity to attend a cooking competition and witness some of the most talented chefs in action. The competition was held in a state-of-the-art kitchen, with all the necessary equipment and ingredients provided to the participants. In this essay, I will provide a descriptive account of the competition, including the venue and setup, the cooking process, and the final dishes.

The competition took place in a large kitchen with multiple cooking stations. Each station was equipped with the latest cooking appliances, including gas stoves, ovens, and blenders. The participants were provided with a wide range of ingredients, including fresh vegetables, meats, and spices. The kitchen was well-lit and ventilated, creating an ideal environment for the chefs to work in. The setup was well-organized, with each station labeled and numbered for easy identification.

The cooking process was intense and captivating. The chefs were given a limited amount of time to prepare their dishes, adding to the excitement and pressure of the competition. The contestants used a variety of cooking techniques, including grilling, baking, and frying. Each chef incorporated unique flavors and ingredients into their dishes, making them stand out from the rest. Some contestants even used unconventional ingredients, such as edible flowers and exotic fruits, to create a truly unique culinary experience.

Report on DOCTORS DAY

The Sri Siddhartha Medical college has organized its International Doctors day Program on 1st July 2018 in the college auditoriumNagarajuna Hall. All the students were present in the program.

International Doctor's Day was first observed in order to pay respect to the legendary physician and Bengal's former Chief Minister, DrBidhan Chandra Roy, to recognize and appreciate his contributions in the field of medicine.

Roy played an important role in the establishment of the Medical Council of India and the Indian Medical Association. He was born on July 1, 1882 and passed away on July 1, 1962. Roy was awarded with the Bharat Ratna, which is considered India's highest civilian award.

On National Doctor's Day, we say 'thank you' to our doctors and nurses, and health workers for all that they do for us and our loved ones.

Historically, a card or red carnation was sent to all doctors and nurses and also to their families, along with a flower being placed on the graves of deceased physicians. If you want to thank the medical staff, then you can show your appreciation by doing any of the below-mentioned stuff:

- Say 'Thanks' to your doctor and medical staff
- Pledge to donate your organs
- You can offer a service to them.
- Donate, and also encourage others to do so
- Send them a thank you card and flowers
- Shoot a video for them and post it on your social media.

Report on Dr. H M Gangadhariah memorial badminton tournament

Sri Siddhartha Medical College is organised State level Badminton Tournament to the medical students at college premises on 25.11.2017. More than 20 Teams are participated.

SRI SIDDHARTHA EDUCATION SOCIETY (SSES) was founded by late Sri H M Gangadhariah also the founder secretary of the society, with the blessings of saint and seer, the father of "Bhoodan movement" Sri VinobhaBhave in 1959, has made a leap in the field of education.

Sri Gangadhariah feels that the world is on the brink of disaster and only two group of persons can save the world, Ideal mother and Ideal Teachers. Only such persons can produce future citizens who can reform the demoralized society and preserve human values. Therefore, the responsibilities of the teaching community is instrumental. They are the architects of the nation and torch bearers of civilization. Education for character building is the need of the hour and it was the fervent desire of His Holiness to start good college of education to prepare quality teachers to function at the secondary school level.

Leadership always plays a vital role in this process and was carefully nurtured. The Society is fortunate enough to have two illustrious sons of the founder who are equally zealous and committed to the founder's goals. Dr. G. Shivaprasad, an eminent Ophthalmologist, was the Founder Secretary and Dr. G. Parameshwara a reputed agriculture Scientist is the Secretary of the Society.

In the memory of Dr.H.M.Gangadhariah university conducts University level Badminton Championship tournament. All the constituent colleges are participated.

Report on ELECTROTECH

(Annual programme of ECE, TCE and MLE Association)

Sri Siddhartha Institute of Technology is conducting the Annual programme ELECTROTECH for the departments of Electronics & Communication Engineering, Tele-Communication Engineering and Medical Electronics Engineering Students on 6th June 2018. Our Principal Dr.M.K.Veeraiah Inauguration the function.

Digital 3D imaging can benefit from advances in VLSI technology in order to accelerate its deployment in many fields like visual communication and industrial automation. High-resolution 3D images can be acquired using laser-based vision systems. With this approach, the 3D information becomes relatively insensitive to background illumination and surface texture. Complete images of visible surfaces that are rather featureless to the human eye or a video camera can be generated. Intelligent digitizers will be capable of measuring accurately and simultaneously colour and 3D.

Report on Engineers Day

Sri Siddhartha Institute of Technology is organised Engineers Day Every Year. On 15.9.2017 we celebrate Engineers day at our college Campus.

Engineering is not merely the possession of the capacity to get elegant solutions to non-existent engineering problems, engineering is practicing the art of the organized forcing of technological change. In remembrance of Sir Mokshagundam Vishweshwarayya, the most outstanding Engineer of all times, the engineering fraternity of India celebrates “Engineer’s Day” every year on 15thSeptember to identify the great works done by our hard working engineers.

The program was inaugurated by lighting the lamp by the dignitaries on the dias at the auditorium in the college premises. This Program was organized by Electronics & Communication Engineering Department.

More than 50 students showed their participation in the various events and few of them had delivered speeches. The great enthusiasm and participation shown by student were highly appreciated by all the staff members.

Report on ETHNIC WEAR COMPETITION

The Sri Siddhartha Medical college has organized to students to ETHNIC WEAR COMPETITION is conducted on 20.11.2017. Principal is inaugurated the function. And all students are participated and enjoyed.

India boasts of a rich and ancient textile and clothing heritage that has continued to evolve through time. While the nation is taking big strides towards modernization, its citizens are still traditionalists at heart, especially when it comes to expressing their culture and heritage through fashion.

Traditionally, ethnic wear in India was largely derigueur for occasions, festivals and weddings. But in the course of time, as functionality and comfort started taking a cente rstage in fashion, the entire template of ethnic wear was subjected to a thorough overhaul. Especially in the women's section, the category today covers a wide spectrum of sartorial elegance — from inherently classic to more contemporary avatars; from everyday wear, festive wear to ensembles that befit even corporate boardrooms.

“Customers love pure ethnics as occasion wear, but with the emergence of fusion wear, they have found something that they can fl aunt on a daily basis. The fusion wear category includes myriad ensembles right from kurtis, kameez and tunics, etc., which can be paired with fitted pants, tides, palazzos and even long skirts.

Report on HMG Drawing competition

(State level competition)

Sri Siddhartha Institute of Technology is conducting H.M.Gangadharaiah Memorial State level Drawing Competition to the students. More than 3000 students from LKG to High School Students from different schools were participated. This will conduct every Year December 1st Saturday(5.12.2017).

Dr. H M Gangadharaiah, an art teacher is the architect of this premier society. He was blessed by Mahatma Gandhi and Vinobabhave. Sri HMG and was inspired by Vinobha Bhave's thoughts and he blessed Sri HMG "May you be a staunch social worker and may this Gollahalli be a Shanthinikethan". Let your honesty be a beacon for your efforts. The blessing of Sri Vinoba bhave was lingering in the mind of Sri HMG and he made up his mind to give education to the needy and thus established Sri Siddhartha Educational Society named after a great philosopher, Sri Goutama Buddha.

1. To bring out the creative expression, artistic skills of the students and also to gauge their awareness quotient,
2. The aim of this competition was not merely to see the creative aspect but also to trigger the thought process of the students and sensitize them towards these burning & serious issues such as violence against women.
3. Competitions of the sort increase the observational skills, response to thoughts, awareness and concern of the students towards global issues.

Report on INDEPENDENCE DAY

The Independence Day was celebrated with great enthusiasm by all the students of the school. The students cleaned their classrooms and decorated them with colourful balloons and ribbons. Pictures of our great leaders and freedom fighters were placed on the notice board. Later, students presented patriotic songs and poems. There were speeches by teachers, the Principal, and the chief guest. Then the chief guest inaugurated an exhibition on our freedom struggle and our freedom fighters. There was a feeling of pride and patriotism in everyone's heart. The program was concluded with a vote of thanks. At the end, sweets were distributed to the students.

Sri Siddhartha Medical college: Our Principal Dr.Srinivas murthy hoisted the National Flag. Then we all saluted the flag and sang our National Anthem together. NCC Students will show the NCC training abilities.

Sri Siddhartha Institute of Technology: Our Principal Dr.M.K.Veeraiah hoisted the National Flag. Then we all saluted the flag and sang our National anthem together. NCC students are participated.

Sri Siddhartha Dental College: Our Principal Dr.Kashinath hoisted the National flag. Then we all saluted the flag and sang our national anthem together.

Report on INTERNATIONAL WOMENS DAY

Sri Siddhartha Medical College is Conducting a INTERNATIONAL WOMENS DAY under the IQAC Cell(Internal Quality Assurance Cell). All the Constituent colleges are conducting in their college premises on 8.3.2018.

History of Women's Day. International Women's Day is celebrated in many countries around the world. It is a day when women are recognized for their achievements without regard to divisions, whether national, ethnic, linguistic, cultural, economic or political.

If women are unable to access the Internet and do not feel safe online, they are unable to develop the necessary digital skills to engage in digital spaces, which diminishes their opportunities to pursue careers in science, technology, engineering, and mathematics (STEM) related fields. By 2050, 75% of jobs will be related to STEM areas. Yet today, women hold just 22% of positions in artificial intelligence, to name just one.

Bringing women into technology results in more creative solutions and has greater potential for innovations that meet women's needs and promote gender equality. Their lack of inclusion, by contrast, comes with massive costs. The world comes together for International Women's Day (IWD) on March 8 to celebrate women's achievements and reinforce a commitment to women's equality. **12 Wonderful women's day activities in office to motivate and encourage your female employees**

1. Host a panel discussion
2. Networking event
3. Mentorship program
4. Inspirational speakers
5. Charity drive
6. Dress-up day
7. Training sessions
8. Employee recognition
9. Art competition
10. Lunch and learn
11. Women's Day newsletter
12. Social media campaign

Report on KALOTSAVA

Sri Siddhartha Institute of Technology has been conducting a state level Cultural Program Kalotsava on 24.3.2018 . In this event, students of different colleges of the state have participated. Three days Cultural fest has been conducted with different activities in this program. Cultural Programming is a powerful tool that establishes creative place making for a specific locale. It has been shown to help vitalize communities by increasing economic investment and strengthening social ties among residents, while also affirming the identity and core values of a Institute.

Our College KALOTSAVA Day programs are a feast to the eye of the viewers. The College Kalostava Day is celebrated in an astonishing way for the students to exhibit their talents effectively. The students perform their creative ideas in the form of Dazzling dances, motivating skits, mind blowing mimes are few of the programs that entrance the audience. The highlight of the day is the musical performance of the college orchestra.

Participating in cultural events not only benefits the person in many ways but also the family and the community

Physical benefits: Students engage in physical activity when theyb engage in activities like moose hunting or dancing. It is commonly recognised that regular exercise is good for body and can prevent a variety of illnesses and health issues. Eating traditional or cultural meals has significant advantages as well.

Mental health benefits: It is well recognised that cultural connection has a significant role in lowering the risk of mental health conditions like depression and addictive behaviours. Each year, more studies are published that demonstrate how much less probable it is for people to experience issues with substance misuse, depression, or suicide when they have stronger ties to their families and cultures.

Spiritual benefits: The majority of cultural activities promote the wellness of the whole individual by promoting gratitude for what has been given and earned, sharing, respect for the environment, and honouring those who have taught us.

Emotional benefits: A formula for excellent emotional health includes participating in passed-down customs, doing physical exercise, improving one's mental health, and interacting with others. Having a cultural component might boost your happiness and satisfaction because talking and other social activities are already known to stimulate endorphins, which improve mood.

Report on National Chess competition

Sri Siddhartha Academy of Higher Education is conducting a National level Chess Tournament on 24.3.2018, which is a series of chess games played. Competitively to determine a winning individual or team.

The time control for each game in the classical portion of the match will be 120 minutes per side for the first 40 moves, 60 minutes for the next 20 moves, and 15 minutes for the rest of the game, with a 30-second increment per move starting with move 61.

The match is best of 14 games; a score of at least $7\frac{1}{2}$ would win the world championship. If the score is equal after 14 games, tiebreak games with faster time controls will be played:

- A match consisting of 4 rapid games with 25 minutes per side and a 10-second increment starting with move 1 will be played. If a player scores $2\frac{1}{2}$ points or more, he would win the championship.
- If the score is equal after the rapid portion, a mini-match of two blitz games will be played, with a time control of 5 minutes per side and a 3-second increment starting with move 1. If a player scores $1\frac{1}{2}$ points or more, he would win the championship. If the blitz mini-match is tied, another mini-match with the same conditions will be played to decide the winner of the championship.
- If both blitz mini-matches are tied, a single game with a time control of 3 minutes per side and a 2-second increment starting with move 1 will be played, and the winner would win the championship. A drawing of lots shall decide which player plays with the white pieces. If this game is drawn, another blitz game with reversed colours will be played with the same time control, and the winner would win the championship. This process will be repeated until either player wins a game.

Players are not allowed to agree to a draw before Black's 40th move. A draw claim before then is only permitted if a threefold repetition or stalemate has occurred.

Report on NIRMAAN

(Annual program of Civil Engg))

Sri Siddhartha Institute of Technology is organizing a state level Program called NIRMAAN on 4.5.2018. Which is basically helpful in construction of new technology buildings with modern aids.

The first straw-bale structures we know of were built about a hundred years ago by European settlers in the Sand Hills of Nebraska. Having little other means to shelter themselves, they were driven by necessity to improvise. Using the newly invented steam- and horse-powered balers, they baled the grasses that surrounded them, stacked the bales to form walls, and applied mud or cement plasters inside and out. Some of those homes still exist and are in good shape, as are a few more that were built in Nebraska and Wyoming over the subsequent decades. A revival in straw-bale construction began in the American West in the 1980s and has now spread all over the world.

Fiber Reinforced Cement as a material made from hydraulic cement and discrete, discontinuous fibers (containing no aggregate). Fiber reinforced concrete (FRC) is made with hydraulic cement, aggregates of various sizes, incorporating discrete, discontinuous fibers. Both are firmly established as a new construction material. Steel fibers and synthetic fibers find applications in civil engineering on a larger scale by virtue of their inherent advantages; it is of interest to note that the performance of concrete can be enhanced through the employment of these micro-reinforcements in a hybrid form. The volume of data available on the performance studies of hybrid fiber reinforced concrete appears to be inadequate for a better understanding the investigation, it is proposed to combine these fibers at different proportions in the beam structural elements and engineering properties and performance are being investigated. The necessity for the addition of fibers in structural material is to increase the strength of the concrete and mortar and also to reduce the crack propagation that mainly depends on the following parameters.

Report on ONAM Celebration

Sri Siddhartha Medical College is organizing ONAM Celebration, which is at national level. ONAM is an ancient Hindu festival of Kerala that celebrates rice harvest. The significance of the festival is in Indian culture, of which two are more common Cultural events will be celebrated.

Onam commemorates King Mahabali and Vamana. According to Hindu legends, Onam is celebrated in Kerala in remembrance of the good governance under the rule of daitya king Mahabali, a mythical king who once ruled Kerala. The legend holds that jealous of Mahabali's popularity and his power, the devas and gods conspired to end his reign. They sent Vamana to earth in the form of a dwarf Brahmin who trampled Mahabali to patala. Vamana asked Mahabali for three feet of land as his wish from the generous Mahabali. Since denying gifts to Brahmin is considered a sacrilege, Mahabali agreed to fulfill Vamana's wish. In the first two feet Vamana measured the entirety of universe, leaving nowhere to place his third foot. Mahabali offered his own head to place his third feet making the wish complete. However, witnessing Mahabali's generosity, Vishnu granted the king's sole wish to visit his land and people once every year. This homecoming of Mahabali is celebrated as Onam in Kerala every year

Report on Rajyotsava

(Regional level event of Karnataka)

Sri Siddhartha Medical College is celebrating Kannada Rajyotsava, also known as Karnataka Formation Day or Karnataka Day, is a state public holiday and celebrated on 1 November of every year.

All Constituent colleges of Sri Siddhartha Academy of Higher Education were celebrated Kannada Rajyotsava in their premises every year on 1st November.

Karnataka was formed on this day, hence this day is also known as Kannada Day, Karnataka Formation Day or Karnataka Day. Rajyotsava means the birth of a state. In 1956, a state was created by merging all the Kannada speaking regions in India, which was named as Karnataka. The spoken language was Kannada This day is considered the most special day for all the Kannada people in karnataka.

On this day, people of Karnataka wear their traditional clothes and also hoist their state flag, which is red and yellow. The people there also sing the Kannada Anthem ("Jaya Bharatha Jananiya Tanujate"). The state government awards people who contribute to the development of Karnataka. The Chief Minister inaugurates the function of the State which is held at Kanteerava Stadium, Bengaluru. This Rajyotsava is celebrated by all religions Hindu, Muslims and Christians. Not only in Karnataka but also in many parts of India this day is celebrated.

Report on REPUBLIC DAY

Sri Siddhartha Academy of Higher Education is celebrating Republic day celebrated on 26th January of every year. The day is celebrated with pomp and show, zeal and spirit, throughout the length and breadth of the country. The day was celebrated in our Institute with great eclat. The Institute building was tastefully decorated with flower-pots, buntings, pictures of heroes of the freedom movement and national flags. . The programme started with paying respect to the motherland by unfurling of National Tri colour The students enthusiastically participated in a variety of programmes like Song, Dance, Skit and speech.

Twenty Sixth January holds an everlasting place in our national memory because it is the day when modern India was born. The development journey of India over the years has been marked by significant milestones and reforms that enabled it to achieve substantial progress in many areas including rise in income levels, growth in literacy, life expectancy and a wide variety of other economic indicators. The presentation of success story of our country made everyone proud and developed a sense of solidarity.

Report on SAMARTHYA

(State level programme by SSIT IEEE Chapter)

Sri Siddhartha Institute of Technology is conducting a Program SAMARTHYA for student on 7.7.2017. SSIT-IEEE Chapters are a technical subunit of a Region, one or more Sections or a Geographic Council. There may be single Society Chapters, joint Society Chapters, and Technical Council Chapters.

A Chapter shall comprise a minimum of twelve (12) IEEE voting members of a Society, or group of Societies in the case of a joint chapter, and shall be established by petition to the parent geographical and technical organizational units concerned to fulfill the mission of IEEE. In the case of a Technical Council Chapter, a minimum of any twelve (12) IEEE voting members of Council Member Societies in the parent geographical unit shall be required to petition to the geographic unit and to the Technical Council. Chapters are formed to serve IEEE members by holding meetings at the local level, and provide opportunities to network, enabling personal and professional growth.

There are three different paths one can take to develop an IEEE Chapter: form a new Chapter, form a new joint Chapter, or expand an existing Chapter. Start by researching your area, then decide which route will best suit your needs and support a healthy, active Society/Technical Council Chapter environment.

Report on SIDDHARTHA PREMIER LEAGUE(SPL)

(CRICKET TOURNAMENT)

Sri Siddhartha Institute of Technology is organizing a premier Cricket Tournament SPL on 29.6.2017. In this different Branch Students are Participated with different teams.

A team can acquire players through any of the three ways: the annual player auction, trading players with other teams during the trading windows, and signing replacements for unavailable players. Players sign up for the auction and also set their base price, and are bought by the franchise that bids the highest for them. Unsold players at the auction are eligible to be signed up as replacement signings. In the trading windows, a player can only be traded with his consent, with the franchise paying the difference if any between the old and new contracts. If the new contract is worth more than the older one, the difference is shared between the player and the franchise selling the player. There are generally three trading windows—two before the auction and one after the auction but before the start of the tournament. Players cannot be traded outside the trading windows or during the tournament, whereas replacements can be signed before or during the tournament.

Report on Sports meet(SSIT)

Sri Siddhartha Institute of Technology is Organising Sports meet to their students on 15.7.2017. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers. Sports not only contribute to shaping your personality but also impact your academic performance significantly.

There have been many studies proving that students involved in sports during their college life perform better in academics. Reasons for this can be many, as sport teaches you the skills of time management and also act as a stress buster when you are loaded with too many assignments and deadlines. Students need to take a break from their daily routine to ensure that they have stable mental health. And what better way than involving yourself in sports, to take that much-needed break? Such productive breaks enhance your capacity to think, learn, focus, and contribute to academics. Being fit mentally and physically is essential.

By having sports as your hobby, you can boost your mental health and also learn to maintain a balance between your curricular and co-curricular activities. It enables you to be emotionally strong as sports lets you experience various emotions like success, failure, happiness, disappointment, etc. When you are involved in sports, you exercise daily to maintain your stamina and physical fitness. Daily exercise helps in reducing stress and makes you feel positive about yourself.

At SSIT, our culture is to provide holistic growth to our students, and therefore, apart from excellent infrastructure, we also have dedicated student support services that support the mental well-being of students.

Report on Sports meet

Sri Siddhartha Medical College is Organising Sports meet to their students on 25.7.2017 to their Students. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers.

In addition to that, sports and games are known to develop the students holistically. They enhance the personality of individuals by imparting various traits in them. Sports are said to boost alertness, discipline, team spirit, mental ability, confidence and concentration of a student. A student's life is no less than a rollercoaster. In addition to learning new skills and exploring various opportunities, a student has a lot to deal with in terms of assignments, practicals, exams, internships, workshops, lectures, and much more, essential to ensure optimum academic development. Amidst the busy schedule, it is very important to take a break to refresh oneself. This is where extracurricular activities play a vital role. These activities, during college life, keep you positive, fresh, energetic and go a long way in making you more productive. Not only do they lighten your mood, but they also help in shaping your overall personality and interpersonal skills.

Besides effective communication, these interactions help you become a multi-tasker as you start realizing the importance of striking a balance between work and personal life. You will also learn the skill of time management as you gradually learn to manage time between your lectures, assignments, academics, and sports. While playing a sport you come across various situations that require quick decision-making which will be crucial for you and your team. Encountering such situations not only makes you proactive but also makes you a good decision-maker, a great team player, and even a good leader.

Report on TECHNODEA

(National level project competition and exhibition)

Sri Siddhartha Institute of Technology was organised a National level project competition and exhibition to the students named TECHNODEA on 20.6.2017. This competition will conduct every year. In this exhibition more than 200 students are participating and exhibit their talent.

In other words "ChatGPT is a massive language model trained to utilize OpenAI to apprehend and generate natural language. It uses deep getting-to-know and synthetic intelligence generation to conduct human-like customer conversations."

ChatGPT is the modern representative from a class of AI systems that responds to human language (Texts). It is called "Natural Language Processing," or NLP for quick. It is manufactured from an entire chain of innovations that began in 2017 with a new AI architecture.

In the subsequent years, the first AI fashions evolved primarily based on this structure that reached human-degree language understanding. In the ultimate years, the models learned to write and even have complete conversations with the consumer using ChatGPT.

Chat GPT stands out for generating credible and appropriate responses to user requests compared to other models. CharGPT can write programs, add comments to programs,

In addition to ChatGPT, there are many different language fashions in distinct forms: open source, proprietary, with dialog alternatives, or other abilities. It has become apparent that those abilities continued to develop with larger fashions and extra (specifically extraordinary) facts.

Unlike at the start predicted, there appears to be no higher limit. Conversely, the larger the models, the more abilities they gain!

These linguistic capabilities and the flexibility of ChatGPT are excellent, but using such large fashions is only sometimes precisely resource-friendly. Large models like ChatGPT are operated via external vendors who price every request to the model.

Report on VOLLYBALL

The Sri Siddhartha Medical College has organized its annual sports Volleyball Tournament at University level on 9.7.2017. In this sports all constituent colleges of Sri Siddhartha Academy of Higher Education are participated. More than 10 Teams are participated in this Tournament .

Though the student did not have enough time to practice before the event due to heavy rain but they were ready to play with full energy. At the SSMC Ground after warm up and a short practice the match started at 9:30a.m. In qualifying round our school won in oppose of the ECE team one more time.

After the quarter final and semi-final match we were in the finals. They were very confident but the team which was in the final was very good. Their players were much trained and they had practiced well. Their quarterfinal and semifinal matches their performance was awesome. As their team was last year state champion the perfection was seen in their matches. Tension was there in the mind of our players that what to do, but our coach Santhosh motivated the players that play with confident and do their best.

And finally the final match started, as they were experienced player the perfection was seen in their game. Our player's Guru, and one player from CSE which was selected and playing with us were continuously attacking but their defense was hard and tight. As a result in 1st round we lost with the score 25/17 in second round we tried harder but we were not cope up to defend and as a result we again lost by 25/13. As being runner up we got the advantage and our six players were selected in state level Volleyball competition.

Report on YANTRIK

(Annual Programme of Mechanical Engg and IEM)

Yantrik-2017 is a department fest organized by the Mechanical Engineering Association (MEA) in association with the department of IEM, to serve as a platform for showcasing the inherent and hidden talents of our students in both co curricular and extracurricular activities. It is celebrated every year midway during their academic calendar in the even semester.

This year, **Yantrik-2017** began with release of the association's **POSTER/SOUVENIR** on **14/6/2017** at 10AM in the presence of our principal Dr. M.K.Veeraiah, chief guest Mr. V Subrahmanya Kumar, HOD, staff and students of mechanical and IEM departments. The event took place near the Main Circle, SSIT Campus.

The inaugural function began soon after at 10:30AM with the chief guest of the day Mr. Subrahmanya Kumar, Business Head, Madhur Industrial & Allied Solutions, Bangalore, by watering the plant. Later Mr. Subrahmanya Kumar addressed our students and gave a technical talk on "**Career Opportunities in Industry for Mechanical / IEM engineers**".

As part of the inaugural function, student toppers from 1st year to final year of mechanical and 1st and final year IEM were honored with prizes. The inaugural function which concluded at 12 Noon was followed by a **Bike-Rally** of our students in the campus.

An **AUTO-EXPO** was arranged in the campus sponsored by the Indian automotive giants MARUTI-SUZUKI Ltd., and Mahindra & Mahindra Ltd. The two companies had set up stalls where their entire range of vehicles were on display and sale. In addition Maruti Suzuki had arranged a free general check up camp for all their vehicles. Working Lunch was arranged for all the staff and students of ME & IEM in the afternoon.

The valedictory programme began at 7:30PM in the evening and was graced by upcoming stars of KOLLYWOOD, Mr. Dhusyanth of Gatha Vaibhava fame, Ms.Arundhathi Lal, former MissBanjara-2018 Beauty contest winner and Ms.Arptha Jain, former Miss South India 2018 Beauty Contest winner. The stage was set on fire by the celebrities above and our students every moment of the events that followed thereafter.

Report on Annual Cultural Day

The Sri Siddhartha Dental College has organized its annual cultural program on 10/09/2018 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The auditorium had been set up in a grandeur arrangement. All the gates were covered with flowers and beautiful lights. At 10:30 in the morning the program started with an inauguration by the honourable Vice chancellor Dr. Balakrishna Shetty and the chief guest, Sri Ganapa Music director. Then an opening musical presentation made the audience feel the warmth.

The last performance was immensely intense as it was dedicated to the social workers who are dedicating their life every day to bring positive changes to the world. After the end of the traditional cultural programs by the students, a special surprise of an authentic Kuchipudi performance was presented. It gave a delightful ending to the evening.

Rangoli Competition

The Sri Siddhartha Dental College has organized its annual cultural program on 11.10.2018 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The principal goddesses worshipped during the Ayudha Puja are [Saraswati](#), the goddess of learning, Lakshmi, the goddess of prosperity, and Parvati, the goddess of power. On this occasion, the implements employed by people of various professions and walks of life are customarily venerated, such as the weapons of a soldier, tools of an artisan, and the books of a student. The religious significance of this occasion is to commemorate the victory of the goddess Durga over Mahishasura, or the conquest of Lanka by Rama. In South India, the occasion is primarily dedicated to Saraswati, with the practice of educational materials such as books, pens, pencils, musical instruments, and other equipment being venerated, to signify the victory of knowledge over ignorance.

On this occasion in our college we conduct Rangoli competition. Our University Vice-chancellor inaugurated this function. And all the students are participated in this competition. Prizes will be distributed to winners.

Report on best out of waste

The Sri Siddhartha Institute of Technology has organized its Annual Program “BEST OUT OF WASTE”, on 23rd Oct 2018 in the college Premises. All the Students are participated.

The motion “BEST OUT OF WASTE” in itself refers to encourage reuse of wastes. In our homes, there are many clothes which lie unworn. Based on the thinking to reuse these clothes and reuse the waste products our team collaborated with Swacchta Action Plan and decided to make cloth bags which would rather help to replace plastic bags, used in homes and to increase the awareness about the environment among the people. Eco-club play an important role in creating environmental awareness amongst the students and these are the means by which students can be empowered to participate and take up meaningful environmental activities and projects. Preparation of Eco- friendly product out of waste material forms an important part of Eco-club as it enables us to make the useless things more useful. So our Ecoclub team not only make various things like cloth bags, wall hangings, face mask, wall decorations, flower pots, paper bags etc. and also create awareness among students through Whatsaap, Facebook etc. to use the waste products in best possible way

Report on cooking competition

Sri Siddhartha Dental college is conducting Cooking Competition without fire on 11th Nov 2018 at College premises. All the Students are participated.

Cooking competitions are a thrilling way to showcase culinary skills and creativity. Recently, I had the opportunity to attend a cooking competition and witness some of the most talented chefs in action. The competition was held in a state-of-the-art kitchen, with all the necessary equipment and ingredients provided to the participants. In this essay, I will provide a descriptive account of the competition, including the venue and setup, the cooking process, and the final dishes.

The competition took place in a large kitchen with multiple cooking stations. Each station was equipped with the latest cooking appliances, including gas stoves, ovens, and blenders. The participants were provided with a wide range of ingredients, including fresh vegetables, meats, and spices. The kitchen was well-lit and ventilated, creating an ideal environment for the chefs to work in. The setup was well-organized, with each station labeled and numbered for easy identification.

The cooking process was intense and captivating. The chefs were given a limited amount of time to prepare their dishes, adding to the excitement and pressure of the competition. The contestants used a variety of cooking techniques, including grilling, baking, and frying. Each chef incorporated unique flavors and ingredients into their dishes, making them stand out from the rest. Some contestants even used unconventional ingredients, such as edible flowers and exotic fruits, to create a truly unique culinary experience.

Report on DOCTORS DAY

The Sri Siddhartha Medical college has organized its International Doctors day Program on 1st July 2019 in the college auditoriumNagarajuna Hall. All the students were present in the program.

International Doctor's Day was first observed in order to pay respect to the legendary physician and Bengal's former Chief Minister, DrBidhan Chandra Roy, to recognize and appreciate his contributions in the field of medicine.

Roy played an important role in the establishment of the Medical Council of India and the Indian Medical Association. He was born on July 1, 1882 and passed away on July 1, 1962. Roy was awarded with the Bharat Ratna, which is considered India's highest civilian award.

On National Doctor's Day, we say 'thank you' to our doctors and nurses, and health workers for all that they do for us and our loved ones.

Historically, a card or red carnation was sent to all doctors and nurses and also to their families, along with a flower being placed on the graves of deceased physicians. If you want to thank the medical staff, then you can show your appreciation by doing any of the below-mentioned stuff:

- Say 'Thanks' to your doctor and medical staff
- Pledge to donate your organs
- You can offer a service to them.
- Donate, and also encourage others to do so
- Send them a thank you card and flowers
- Shoot a video for them and post it on your social media.

Report on Dr. H M Gangadhariah memorial badminton tournament

Sri Siddhartha Medical College is organised State level Badminton Tournament to the medical students at college premises on 5.10.2018. More than 20 Teams are participated.

SRI SIDDHARTHA EDUCATION SOCIETY (SSES) was founded by late Sri H M Gangadhariah also the founder secretary of the society, with the blessings of saint and seer, the father of "Bhoodan movement" Sri VinobhaBhave in 1959, has made a leap in the field of education.

Sri Gangadhariah feels that the world is on the brink of disaster and only two group of persons can save the world, Ideal mother and Ideal Teachers. Only such persons can produce future citizens who can reform the demoralized society and preserve human values. Therefore, the responsibilities of the teaching community is instrumental. They are the architects of the nation and torch bearers of civilization. Education for character building is the need of the hour and it was the fervent desire of His Holiness to start good college of education to prepare quality teachers to function at the secondary school level.

Leadership always plays a vital role in this process and was carefully nurtured. The Society is fortunate enough to have two illustrious sons of the founder who are equally zealous and committed to the founder's goals. Dr. G. Shivaprasad, an eminent Ophthalmologist, was the Founder Secretary and Dr. G. Parameshwara a reputed agriculture Scientist is the Secretary of the Society.

In the memory of Dr.H.M.Gangadhariah university conducts University level Badminton Championship tournament. All the constituent colleges are participated.

Report on ELECTROTECH

(Annual programme of ECE, TCE and MLE Association)

Sri Siddhartha Institute of Technology is conducting the Annual programme ELECTROTECH for the departments of Electronics & Communication Engineering, Tele-Communication Engineering and Medical Electronics Engineering Students on 17/06/2019. Our Principal Dr.M.K.Veeraiah Inauguration the function.

Digital 3D imaging can benefit from advances in VLSI technology in order to accelerate its deployment in many fields like visual communication and industrial automation. High-resolution 3D images can be acquired using laser-based vision systems. With this approach, the 3D information becomes relatively insensitive to background illumination and surface texture. Complete images of visible surfaces that are rather featureless to the human eye or a video camera can be generated. Intelligent digitizers will be capable of measuring accurately and simultaneously colour and 3D.

Report on Engineers Day

Sri Siddhartha Institute of Technology is organised Engineers Day Every Year. On 15.9.2018 we celebrate Engineers day at our college Campus.

Engineering is not merely the possession of the capacity to get elegant solutions to non-existent engineering problems, engineering is practicing the art of the organized forcing of technological change. In remembrance of Sir Mokshagundam Vishweshwarayya, the most outstanding Engineer of all times, the engineering fraternity of India celebrates "Engineer's Day" every year on 15th September to identify the great works done by our hard working engineers.

The program was inaugurated by lighting the lamp by the dignitaries on the dias at the auditorium in the college premises. This Program was organized by Electronics & Communication Engineering Department.

More than 50 students showed their participation in the various events and few of them had delivered speeches. The great enthusiasm and participation shown by student were highly appreciated by all the staff members.

Report on ETHNIC WEAR COMPITITION

The Sri Siddhartha Medical college has organized to students to ETHNIC WEAR COMPITITION is conducted on 05/12/2018. Principal is inaugurated the function. And all students are participated and enjoyed.

India boasts of a rich and ancient textile and clothing heritage that has continued to evolve through time. While the nation is taking big strides towards modernization, its citizens are still traditionalists at heart, especially when it comes to expressing their culture and heritage through fashion.

Traditionally, ethnic wear in India was largely derigueur for occasions, festivals and weddings. But in the course of time, as functionality and comfort started taking a cente rstage in fashion, the entire template of ethnic wear was subjected to a thorough overhaul. Especially in the women's section, the category today covers a wide spectrum of sartorial elegance — from inherently classic to more contemporary avatars; from everyday wear, festive wear to ensembles that befit even corporate boardrooms.

“Customers love pure ethnics as occasion wear, but with the emergence of fusion wear, they have found something that they can fl aunt on a daily basis. The fusion wear category includes myriad ensembles right from kurtis, kameez and tunics, etc., which can be paired with fitted pants, tides, palazzos and even long skirts.

Report on HMG Drawing competition

(State level competition)

Sri Siddhartha Institute of Technology is conducting H.M.Gangadharaiah Memorial State level Drawing Competition to the students. More than 3000 students from LKG to High School Students from different schools were participated. This will conduct every Year December 1st Saturday(5.12.2018).

Dr. H M Gangadharaiah, an art teacher is the architect of this premier society. He was blessed by Mahatma Gandhi and Vinobabhave. Sri HMG and was inspired by Vinobha Bhave's thoughts and he blessed Sri HMG "May you be a staunch social worker and may this Gollahalli be a Shanthinikethan". Let your honesty be a beacon for your efforts. The blessing of Sri Vinoba bhave was lingering in the mind of Sri HMG and he made up his mind to give education to the needy and thus established Sri Siddhartha Educational Society named after a great philosopher, Sri Goutama Buddha.

1. To bring out the creative expression, artistic skills of the students and also to gauge their awareness quotient,
2. The aim of this competition was not merely to see the creative aspect but also to trigger the thought process of the students and sensitize them towards these burning & serious issues such as violence against women.
3. Competitions of the sort increase the observational skills, response to thoughts, awareness and concern of the students towards global issues.

Report on INDEPENDENCE DAY

The Independence Day was celebrated with great enthusiasm by all the students of the school. The students cleaned their classrooms and decorated them with colourful balloons and ribbons. Pictures of our great leaders and freedom fighters were placed on the notice board. Later, students presented patriotic songs and poems. There were speeches by teachers, the Principal, and the chief guest. Then the chief guest inaugurated an exhibition on our freedom struggle and our freedom fighters. There was a feeling of pride and patriotism in everyone's heart. The program was concluded with a vote of thanks. At the end, sweets were distributed to the students.

Sri Siddhartha Medical college: Our Principal Dr.Srinivas murthy hoisted the National Flag. Then we all saluted the flag and sang our National Anthem together. NCC Students will show the NCC training abilities.

Sri Siddhartha Institute of Technology: Our Principal Dr.M.K.Veeraiah hoisted the National Flag. Then we all saluted the flag and sang our National anthem together. NCC students are participated.

Sri Siddhartha Dental College: Our Principal Dr.Kashinath hoisted the National flag. Then we all saluted the flag and sang our national anthem together.

Report on INTERNATIONAL WOMENS DAY

Sri Siddhartha Medical College is Conducting a INTERNATIONAL WOMENS DAY under the IQAC Cell(Internal Quality Assurance Cell). All the Constituent colleges are conducting in their college premises on 8.3.2019.

History of Women's Day. International Women's Day is celebrated in many countries around the world. It is a day when women are recognized for their achievements without regard to divisions, whether national, ethnic, linguistic, cultural, economic or political.

If women are unable to access the Internet and do not feel safe online, they are unable to develop the necessary digital skills to engage in digital spaces, which diminishes their opportunities to pursue careers in science, technology, engineering, and mathematics (STEM) related fields By 2050, 75% of jobs will be related to STEM areas. Yet today, women hold just 22% of positions in artificial intelligence, to name just one.

Bringing women into technology results in more creative solutions and has greater potential for innovations that meet women's needs and promote gender equality. Their lack of inclusion, by contrast, comes with massive costs. The world comes together for International Women's Day (IWD) on March 8 to celebrate women's achievements and reinforce a commitment to women's equality. **12 Wonderful women's day activities in office to motivate and encourage your female employees**

1. Host a panel discussion
2. Networking event
3. Mentorship program
4. Inspirational speakers
5. Charity drive
6. Dress-up day
7. Training sessions
8. Employee recognition
9. Art competition
10. Lunch and learn
11. Women's Day newsletter
12. Social media campaign

Report on KALOTSAVA

Sri Siddhartha Institute of Technology has been conducting a state level Cultural Program Kalotsava on 05.05.2019. In this event, students of different colleges of the state have participated. Three days Cultural fest has been conducted with different activities in this program. Cultural Programming is a powerful tool that establishes creative place making for a specific locale. It has been shown to help vitalize communities by increasing economic investment and strengthening social ties among residents, while also affirming the identity and core values of an Institute.

Our College KALOTSAVA Day programs are a feast to the eye of the viewers. The College Kalotsava Day is celebrated in an astonishing way for the students to exhibit their talents effectively. The students perform their creative ideas in the form of Dazzling dances, motivating skits, mind blowing mimes are few of the programs that enthrall the audience. The highlight of the day is the musical performance of the college orchestra.

Participating in cultural events not only benefits the person in many ways but also the family and the community

Physical benefits: Students engage in physical activity when they engage in activities like moushiki or dancing. It is commonly recognised that regular exercise is good for body and can prevent a variety of illnesses and health issues. Eating traditional or cultural meals has significant advantages as well.

Mental health benefits: It is well recognised that cultural connection has a significant role in lowering the risk of mental health conditions like depression and addictive behaviours. Each year, more studies are published that demonstrate how much less probable it is for people to experience issues with substance misuse, depression, or suicide when they have stronger ties to their families and cultures.

Spiritual benefits: The majority of cultural activities promote the wellness of the whole individual by promoting gratitude for what has been given and earned, sharing, respect for the environment, and honouring those who have taught us.

Emotional benefits: A formula for excellent emotional health includes participating in passed-down customs, doing physical exercise, improving one's mental health, and interacting with others. Having a cultural component might boost your happiness and satisfaction because talking and other social activities are already known to stimulate endorphins, which improve mood.

Report on National Chess competition

Sri Siddhartha Academy of Higher Education is conducting a National level Chess Tournament on 27-04-2019, which is a series of chess games played. Competitively to determine a winning individual or team.

The time control for each game in the classical portion of the match will be 120 minutes per side for the first 40 moves, 60 minutes for the next 20 moves, and 15 minutes for the rest of the game, with a 30-second increment per move starting with move 61.

The match is best of 14 games; a score of at least 7½ would win the world championship. If the score is equal after 14 games, tiebreak games with faster time controls will be played:

- A match consisting of 4 rapid games with 25 minutes per side and a 10-second increment starting with move 1 will be played. If a player scores 2½ points or more, he would win the championship.
- If the score is equal after the rapid portion, a mini-match of two blitz games will be played, with a time control of 5 minutes per side and a 3-second increment starting with move 1. If a player scores 1½ points or more, he would win the championship. If the blitz mini-match is tied, another mini-match with the same conditions will be played to decide the winner of the championship.
- If both blitz mini-matches are tied, a single game with a time control of 3 minutes per side and a 2-second increment starting with move 1 will be played, and the winner would win the championship. A drawing of lots shall decide which player plays with the white pieces. If this game is drawn, another blitz game with reversed colours will be played with the same time control, and the winner would win the championship. This process will be repeated until either player wins a game.

Players are not allowed to agree to a draw before Black's 40th move. A draw claim before then is only permitted if a threefold repetition or stalemate has occurred.

Report on NIRMAAN

(Annual program of Civil Engg))

Sri Siddhartha Institute of Technology is organizing a state level Program called NIRMAAN on 19.06.2019. Which is basically helpful in construction of new technology buildings with modern aids.

The first straw-bale structures we know of were built about a hundred years ago by European settlers in the Sand Hills of Nebraska. Having little other means to shelter themselves, they were driven by necessity to improvise. Using the newly invented steam- and horse-powered balers, they baled the grasses that surrounded them, stacked the bales to form walls, and applied mud or cement plasters inside and out. Some of those homes still exist and are in good shape, as are a few more that were built in Nebraska and Wyoming over the subsequent decades. A revival in straw-bale construction began in the American West in the 1980s and has now spread all over the world.

Fiber Reinforced Cement as a material made from hydraulic cement and discrete, discontinuous fibers (containing no aggregate). Fiber reinforced concrete (FRC) is made with hydraulic cement, aggregates of various sizes, incorporating discrete, discontinuous fibers. Both are firmly established as a new construction material. Steel fibers and synthetic fibers find applications in civil engineering on a larger scale by virtue of their inherent advantages; it is of interest to note that the performance of concrete can be enhanced through the employment of these micro-reinforcements in a hybrid form.? The volume of data available on the performance studies of hybrid fiber reinforced concrete appears to be inadequate for a better understanding the investigation, it is proposed to combine these fibers at different proportions in the beam structural elements and engineering properties and performance are being investigated. The necessity for the addition of fibers in structural material is to increase the strength of the concrete and mortar and also to reduce the crack propagation that mainly depends on the following parameters.

Report on ONAM Celebration

Sri Siddhartha Medical College is organizing ONAM Celebration, which is at national level. ONAM is an ancient Hindu festival of Kerala that celebrates rice harvest. The significance of the festival is in Indian culture, of which two are more common Cultural events will be celebrated.

Onam commemorates King Mahabali and Vamana. According to Hindu legends, Onam is celebrated in Kerala in remembrance of the good governance under the rule of daitya king Mahabali, a mythical king who once ruled Kerala. The legend holds that jealous of Mahabali's popularity and his power, the devas and gods conspired to end his reign. They sent Vamana to earth in the form of a dwarf Brahmin who trampled Mahabali to patala. Vamana asked Mahabali for three feet of land as his wish from the generous Mahabali. Since denying gifts to Brahmin is considered a sacrilege, Mahabali agreed to fulfill Vamana's wish. In the first two feet Vamana measured the entirety of universe, leaving nowhere to place his third foot. Mahabali offered his own head to place his third feet making the wish complete. However, witnessing Mahabali's generosity, Vishnu granted the king's sole wish to visit his land and people once every year. This homecoming of Mahabali is celebrated as Onam in Kerala every year

Report on Rajyotsava

(Regional level event of Karnataka)

Sri Siddhartha Medical College is celebrating Kannada Rajyotsava, also known as Karnataka Formation Day or Karnataka Day, is a state public holiday and celebrated on 1 November of every year.

All Constituent colleges of Sri Siddhartha Academy of Higher Education were celebrated Kannada Rajyotsava in their premises every year on 1st November.

Karnataka was formed on this day, hence this day is also known as Kannada Day, Karnataka FormationDay or Karnataka Day. Rajyotsava means the birth of a state. In 1956, a state was created by merging all the Kannada speaking regions in India, which was named as Karnataka. The spoken language was Kannada This day is considered the most special day for all the Kannada people in karnataka.

On this day, people of Karnataka wear their traditional clothes and also hoist their state flag, which is red and yellow. The people there also sing the Kannada Anthem ("Jaya Bharatha Jananiya Tanujate"). The state government awards people who contribute to the development of Karnataka. The Chief Minister inaugurates the function of the State which is held at Kanteerava Stadium, Bengaluru. This Rajyotsava is celebrated by all religions Hindu, Muslims and Christians. Not only in Karnataka but also in many parts of India this day is celebrated.

Report on REPUBLIC DAY

Sri Siddhartha Academy of Higher Education is celebrating Republic day celebrated on 26th January of every year. The day is celebrated with pomp and show, zeal and spirit, throughout the length and breadth of the country. The day was celebrated in our Institute with great eclat. The Institute building was tastefully decorated with flower-pots, buntings, pictures of heroes of the freedom movement and national flags. . The programme started with paying respect to the motherland by unfurling of National Tri colour The students enthusiastically participated in a variety of programmes like Song, Dance, Skit and speech.

Twenty Sixth January holds an everlasting place in our national memory because it is the day when modern India was born. The development journey of India over the years has been marked by significant milestones and reforms that enabled it to achieve substantial progress in many areas including rise in income levels, growth in literacy, life expectancy and a wide variety of other economic indicators. The presentation of success story of our country made everyone proud and developed a sense of solidarity.

Report on SAMARTHYA

(State level programme by SSIT IEEE Chapter)

Sri Siddhartha Institute of Technology is conducting a Program SAMARTHYA for student on 29.04.2019. SSIT-IEEE Chapters are a technical subunit of a Region, one or more Sections or a Geographic Council. There may be single Society Chapters, joint Society Chapters, and Technical Council Chapters.

A Chapter shall comprise a minimum of twelve (12) IEEE voting members of a Society, or group of Societies in the case of a joint chapter, and shall be established by petition to the parent geographical and technical organizational units concerned to fulfill the mission of IEEE. In the case of a Technical Council Chapter, a minimum of any twelve (12) IEEE voting members of Council Member Societies in the parent geographical unit shall be required to petition to the geographic unit and to the Technical Council. Chapters are formed to serve IEEE members by holding meetings at the local level, and provide opportunities to network, enabling personal and professional growth.

There are three different paths one can take to develop an IEEE Chapter: form a new Chapter, form a new joint Chapter, or expand an existing Chapter. Start by researching your area, then decide which route will best suit your needs and support a healthy, active Society/Technical Council Chapter environment.

Report on SIDDHARTHA PREMIER LEAGUE(SPL)

(CRICKET TOURNAMENT)

Sri Siddhartha Institute of Technology is organizing a premier Cricket Tournament SPL on 17.5.2019. In this different Branch Students are Participated with different teams.

A team can acquire players through any of the three ways: the annual player auction, trading players with other teams during the trading windows, and signing replacements for unavailable players. Players sign up for the auction and also set their base price, and are bought by the franchise that bids the highest for them. Unsold players at the auction are eligible to be signed up as replacement signings. In the trading windows, a player can only be traded with his consent, with the franchise paying the difference if any between the old and new contracts. If the new contract is worth more than the older one, the difference is shared between the player and the franchise selling the player. There are generally three trading windows—two before the auction and one after the auction but before the start of the tournament. Players cannot be traded outside the trading windows or during the tournament, whereas replacements can be signed before or during the tournament.

Report on Sports meet(SSIT)

Sri Siddhartha Institute of Technology is Organising Sports meet to their students on 21.6.2019. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers. Sports not only contribute to shaping your personality but also impact your academic performance significantly.

There have been many studies proving that students involved in sports during their college life perform better in academics. Reasons for this can be many, as sport teaches you the skills of time management and also act as a stress buster when you are loaded with too many assignments and deadlines. Students need to take a break from their daily routine to ensure that they have stable mental health. And what better way than involving yourself in sports, to take that much-needed break? Such productive breaks enhance your capacity to think, learn, focus, and contribute to academics. Being fit mentally and physically is essential.

By having sports as your hobby, you can boost your mental health and also learn to maintain a balance between your curricular and co-curricular activities. It enables you to be emotionally strong as sports lets you experience various emotions like success, failure, happiness, disappointment, etc. When you are involved in sports, you exercise daily to maintain your stamina and physical fitness. Daily exercise helps in reducing stress and makes you feel positive about yourself.

At SSIT, our culture is to provide holistic growth to our students, and therefore, apart from excellent infrastructure, we also have dedicated student support services that support the mental well-being of students.

The sports committee of Sri Siddhartha Dental college conducted its annual sports meet, on 14/03/2019 which filled with fervour and excitement.

The sports meet started off with the inaugural program held on 14/03/2018 at 10:00AM at the College Ground in the presence of **Dr Kashinath K R**, Principal, SSDC. Other dignitaries who were present for inauguration were **Dr Bhartesh J V**, Vice-Principal, SSDC and **Dr Nagalakshmi Chowdary**, Head of the Department of Pedodontics and Preventive Dentistry along with the **Sports Committee** of Sri Siddhartha Dental College.

The list of sports events conducted are as Follows:

- ❖ Athletics Events for Men and Women (100m/200m/4x100m relay)
- ❖ Men's Cricket
- ❖ Tug of War
- ❖ Lemon and Spoon race for Men and Women
- ❖ Women's Badminton Singles and Doubles
- ❖ Women's Cricket
- ❖ Men's Badminton Singles and Doubles
- ❖ Carrom

The ceremony made way for the first men's cricket match which was followed by other sports events for four days.

Report on Sports meet

Sri Siddhartha Medical College is Organising Sports meet to their students on 07-06-2018 to their Students. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers.

In addition to that, sports and games are known to develop the students holistically. They enhance the personality of individuals by imparting various traits in them. Sports are said to boost alertness, discipline, team spirit, mental ability, confidence and concentration of a student. A student's life is no less than a rollercoaster. In addition to learning new skills and exploring various opportunities, a student has a lot to deal with in terms of assignments, practicals, exams, internships, workshops, lectures, and much more, essential to ensure optimum academic development. Amidst the busy schedule, it is very important to take a break to refresh oneself. This is where extracurricular activities play a vital role. These activities, during college life, keep you positive, fresh, energetic and go a long way in making you more productive. Not only do they lighten your mood, but they also help in shaping your overall personality and interpersonal skills.

Besides effective communication, these interactions help you become a multi-tasker as you start realizing the importance of striking a balance between work and personal life. You will also learn the skill of time management as you gradually learn to manage time between your lectures, assignments, academics, and sports. While playing a sport you come across various situations that require quick decision-making which will be crucial for you and your team. Encountering such situations not only makes you proactive but also makes you a good decision-maker, a great team player, and even a good leader.

Report on TANTRA

(State level event by SSIT ISTE Chapter)

PROJECT EXHIBITION was organized by the Department of Computer science and Engineering, on 5.7.2019. Final year students are participation of this exhibition.

Major objective of organizing this exhibition was to provide the platform and unleash the potential of the students by showcasing their innovative projects developed in the Final Year either as Industry Defined Problem or User Defined Problem and provide an opportunity for the students to demonstrate their learning experience.

The outcome of the PROJECT EXHIBITION was that students were able to show their project at higher level and the process boosted their confidence.

The inaugural of the project exhibition witnessed the presence of Dr.M.K.Veeraiah R, principal, SSIT the faculty and staff members of Department of CSE,

Dr.M.Siddappa, HOD, ISE Department formally welcomed the principal of SSIT,

Dr. M.K.Veeraiah, principal, RRCE, in his motivational address emphasized on the importance of learning new technologies and tools for the students.

Report on Teachers day

Teachers' Day was celebrated on September 5 in our College with pomp and grandeur. All the students attended the program. The program was held in the MBA Seminar Hall which was beautifully decorated with flowers and festoons.

The Well known teacher Dr.Girish, State Govt. Awardee was invited as the chief guest of the program. The guest and the teachers were welcomed with flowers and gifts. The Principal of the College Dr.M.K.Veeraiah inaugurated the program at 4.00 P.M. by garlanding the portrait of Dr. Sarvepalli Radhakrishnan. The Principal gave a brief speech on Sarvepalli Radhakrishnan and explained the significance of Teachers' Day.

The Students performed various cultural activities like dance, song, recitation, drama, etc. A student of Mr.Ramesh, IV Semester CSE also delivered a beautiful speech on Teachers' Day. The chief guest and Principal appreciated the performances of the students. Finally, the program ended by distributing chocolates and biscuits. The program was a grand success.

Report on TECHNODEA

(National level project competition and exhibition)

Sri Siddhartha Institute of Technology was organised a National level project competition and exhibition to the students named TECHNODEA on 24.6.2019. This competition will conduct every year. In this exhibition more than 175 students are participating and exhibit their talent.

In other words "ChatGPT is a massive language model trained to utilize OpenAI to apprehend and generate natural language. It uses deep getting-to-know and synthetic intelligence generation to conduct human-like customer conversations."

ChatGPT is the modern representative from a class of AI systems that responds to human language (Texts). It is called "Natural Language Processing," or NLP for quick. It is manufactured from an entire chain of innovations that began in 2017 with a new AI architecture.

In the subsequent years, the first AI fashions evolved primarily based on this structure that reached human-degree language understanding. In the ultimate years, the models learned to write and even have complete conversations with the consumer using ChatGPT.

Chat GPT stands out for generating credible and appropriate responses to user requests compared to other models. CharGPT can write programs, add comments to programs,

In addition to ChatGPT, there are many different language fashions in distinct forms: open source, proprietary, with dialog alternatives, or other abilities. It has become apparent that those abilities continued to develop with larger fashions and extra (specifically extraordinary) facts.

Unlike at the start predicted, there appears to be no higher limit. Conversely, the larger the models, the more abilities they gain!

These linguistic capabilities and the flexibility of ChatGPT are excellent, but using such large fashions is only sometimes precisely resource-friendly. Large models like ChatGPT are operated via external vendors who price every request to the model.

Report on VIDYUTH

(Annual event of EEE)

Sri Siddhartha Institute of Technology (SSIT), is one of the premier most technical institute in Karnataka under Sri Siddhartha Academy of Higher Education. Electrical and Electronics(EEE) department is one of the technically advanced department ,under this for the past 39 years ,it has produced many gems in the field of Electrical Engineering.

"VIDYUTH" is the annual fest organized by Electrical and Electronics Engineering Association held on 17.6.2019. "VIDYUTH" had been grand success since past 20 years. This year also we it reach at the level which will be cherished forever.

Vidyuth 2017 was inaugurated on 17th June 2019 at 10 AM by Dr.Radheshyam, Engineer, BESCO, Dancing Champion Contestent ,Bigg Boss seven Contestent. The guest of honour was **Dr.M.K.Veeraiah**, Principal, SSIT. **Dr. L. Sanjeev Kumar**, Professor and Head, Department of E&EE, presided over the function. **Mr. Shri Harsha J**, Assistant Professor, Department of E&EE, Advisor Electrical and Electronics Engineering Assosiation, welcomed the distinguished Guests, delegates and Participants.

The following events are being conducted in this year:

Flash mob, Fashion show, skit, mime, mad ads, group dance, solo dance, Group song, solo song, and lots more....

Report on VOLLYBALL

The Sri Siddhartha Medical College has organized its annual sports Volleyball Tournament at University level on 10.8.2019. In this sports all constituent colleges of Sri Siddhartha Academy of Higher Education are participated. More than 10 Teams are participated in this Tournament .

Though the student did not have enough time to practice before the event due to heavy rain but they were ready to play with full energy. At the SSMC Ground after warm up and a short practice the match started at 9:30a.m. In qualifying round our school won in oppose of the ECE team one more time.

After the quarter final and semi-final match we were in the finals. They were very confident but the team which was in the final was very good. Their players were much trained and they had practiced well. Their quarterfinal and semifinal matches their performance was awesome. As their team was last year state champion the perfection was seen in their matches. Tension was there in the mind of our players that what to do, but our coach Santhosh motivated the players that play with confident and do their best.

And finally the final match started, as they were experienced player the perfection was seen in their game. Our player's Guru, and one player from CSE which was selected and playing with us were continuously attacking but their defense was hard and tight. As a result in 1st round we lost with the score 25/17 in second round we tried harder but we were not cope up to defend and as a result we again lost by 25/13. As being runner up we got the advantage and our six players were selected in state level Volleyball competition.

Report on YANTRIK

(Annual Programme of Mechanical Engg and IEM)

Yanthrik-2018 is a department fest organized by the Mechanical Engineering Association (MEA) in association with the department of IEM, to serve as a platform for showcasing the inherent and hidden talents of our students in both co curricular and extracurricular activities. It is celebrated every year midway during their academic calendar in the even semester.

This year, **Yanthrik-2018** began with release of the association's **POSTER/SOUVENIR** on **28.6.2019** at 10AM in the presence of our principal Dr. M.K.Veeraiah, chief guest Mr. V Subrahmanya Kumar, HOD, staff and students of mechanical and IEM departments. The event took place near the Main Circle, SSIT Campus.

The inaugural function began soon after at 10:30AM with the chief guest of the day Mr. Subrahmanya Kumar, Business Head, Madhur Industrial & Allied Solutions, Bangalore, by watering the plant. Later Mr. Subrahmanya Kumar addressed our students and gave a technical talk on "**Career Opportunities in Industry for Mechanical / IEM engineers**".

As part of the inaugural function, student toppers from 1st year to final year of mechanical and 1st and final year IEM were honored with prizes. The inaugural function which concluded at 12 Noon was followed by a **Bike-Rally** of our students in the campus.

An **AUTO-EXPO** was arranged in the campus sponsored by the Indian automotive giants MARUTI-SUZUKI Ltd., and Mahindra & Mahindra Ltd. The two companies had set up stalls where their entire range of vehicles were on display and sale. In addition Maruti Suzuki had arranged a free general check up camp for all their vehicles. Working Lunch was arranged for all the staff and students of ME & IEM in the afternoon.

The valedictory programme began at 7:30PM in the evening and was graced by upcoming stars of KOLLYWOOD, Mr. Dhushanth of Gatha Vaibhava fame, Ms.Arundhathi Lal, former MissBanjara-2018 Beauty contest winner and Ms.Arptha Jain, former Miss South India 2018 Beauty Contest winner. The stage was set on fire by the celebrities above and our students every moment of the events that followed thereafter.

Report on Annual Cultural Day

The Sri Siddhartha Dental College has organized its annual cultural program on 06/08/2019 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The auditorium had been set up in a grandeur arrangement. All the gates were covered with flowers and beautiful lights. At 10:30 in the morning the program started with an inauguration by the honourable Vice chancellor Dr. Balakrishna Shetty and the chief guest, Sri Ganapa Music director. Then an opening musical presentation made the audience feel the warmth.

The last performance was immensely intense as it was dedicated to the social workers who are dedicating their life every day to bring positive changes to the world. After the end of the traditional cultural programs by the students, a special surprise of an authentic Kuchipudi performance was presented. It gave a delightful ending to the evening.

Report on Ayadhapooja

Rangoli Competition

The Sri Siddhartha Dental College has organized its annual cultural program on 20.10.2019 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The principal goddesses worshipped during the Ayudha Puja are [Saraswati](#), the goddess of learning, Lakshmi, the goddess of prosperity, and Parvati, the goddess of power. On this occasion, the implements employed by people of various professions and walks of life are customarily venerated, such as the weapons of a soldier, tools of an artisan, and the books of a student. The religious significance of this occasion is to commemorate the victory of the goddess Durga over Mahishasura, or the conquest of Lanka by Rama. In South India, the occasion is primarily dedicated to Saraswati, with the practice of educational materials such as books, pens, pencils, musical instruments, and other equipment being venerated, to signify the victory of knowledge over ignorance.

On this occasion in our college we conduct Rangoli competition. Our University Vice-chancellor inaugurated this function. And all the students are participated in this competition. Prizes will be distributed to winners.

Report on best out of waste

The Sri Siddhartha Institute of Technology has organized its Annual Program “BEST OUT OF WASTE”, on 9.11.2019 in the college Premises. All the Students are participated.

The motion “BEST OUT OF WASTE” in itself refers to encourage reuse of wastes. In our homes, there are many clothes which lie unworn. Based on the thinking to reuse these clothes and reuse the waste products our team collaborated with Swacchta Action Plan and decided to make cloth bags which would rather help to replace plastic bags, used in homes and to increase the awareness about the environment among the people. Eco-club play an important role in creating environmental awareness amongst the students and these are the means by which students can be empowered to participate and take up meaningful environmental activities and projects. Preparation of Eco- friendly product out of waste material forms an important part of Eco-club as it enables us to make the useless things more useful. So our Ecoclub team not only make various things like cloth bags, wall hangings, face mask, wall decorations, flower pots, paper bags etc. and also create awareness among students through Whassaap, Facebook etc. to use the waste products in best possible way

Report on cooking competition

Sri Siddhartha Dental college is conducting Cooking Competition without fire on 4.12.2019 at College premises. All the Students are participated.

Cooking competitions are a thrilling way to showcase culinary skills and creativity. Recently, I had the opportunity to attend a cooking competition and witness some of the most talented chefs in action. The competition was held in a state-of-the-art kitchen, with all the necessary equipment and ingredients provided to the participants. In this essay, I will provide a descriptive account of the competition, including the venue and setup, the cooking process, and the final dishes.

The competition took place in a large kitchen with multiple cooking stations. Each station was equipped with the latest cooking appliances, including gas stoves, ovens, and blenders. The participants were provided with a wide range of ingredients, including fresh vegetables, meats, and spices. The kitchen was well-lit and ventilated, creating an ideal environment for the chefs to work in. The setup was well-organized, with each station labeled and numbered for easy identification.

The cooking process was intense and captivating. The chefs were given a limited amount of time to prepare their dishes, adding to the excitement and pressure of the competition. The contestants used a variety of cooking techniques, including grilling, baking, and frying. Each chef incorporated unique flavors and ingredients into their dishes, making them stand out from the rest. Some contestants even used unconventional ingredients, such as edible flowers and exotic fruits, to create a truly unique culinary experience.

Report on DOCTORS DAY

The Sri Siddhartha Medical college has organized its International Doctors day Program on 1st July 2020 in the college auditorium Nagarajuna Hall. All the students were present in the program.

International Doctor's Day was first observed in order to pay respect to the legendary physician and Bengal's former Chief Minister, DrBidhan Chandra Roy, to recognize and appreciate his contributions in the field of medicine.

Roy played an important role in the establishment of the Medical Council of India and the Indian Medical Association. He was born on July 1, 1882 and passed away on July 1, 1962. Roy was awarded with the Bharat Ratna, which is considered India's highest civilian award.

On National Doctor's Day, we say 'thank you' to our doctors and nurses, and health workers for all that they do for us and our loved ones.

Historically, a card or red carnation was sent to all doctors and nurses and also to their families, along with a flower being placed on the graves of deceased physicians. If you want to thank the medical staff, then you can show your appreciation by doing any of the below-mentioned stuff:

- Say 'Thanks' to your doctor and medical staff
- Pledge to donate your organs
- You can offer a service to them.
- Donate, and also encourage others to do so
- Send them a thank you card and flowers
- Shoot a video for them and post it on your social media.

Report on Dr. H M Gangadharaiah memorial badminton tournament

Sri Siddhartha Medical College is organised State level Badminton Tournament to the medical students at college premises on 3.7.2020. More than 20 Teams are participated.

SRI SIDDHARTHA EDUCATION SOCIETY (SSES) was founded by late Sri H M Gangadharaiah also the founder secretary of the society, with the blessings of saint and seer, the father of "Bhoodan movement" Sri VinobhaBhave in 1959, has made a leap in the field of education.

Sri Gangadharaiah feels that the world is on the brink of disaster and only two group of persons can save the world, Ideal mother and Ideal Teachers. Only such persons can produce future citizens who can reform the demoralized society and preserve human values. Therefore, the responsibilities of the teaching community is instrumental. They are the architects of the nation and torch bearers of civilization. Education for character building is the need of the hour and it was the fervent desire of His Holiness to start good college of education to prepare quality teachers to function at the secondary school level.

Leadership always plays a vital role in this process and was carefully nurtured. The Society is fortunate enough to have two illustrious sons of the founder who are equally zealous and committed to the founder's goals. Dr. G. Shivaprasad, an eminent Ophthalmologist, was the Founder Secretary and Dr. G. Parameshwara a reputed agriculture Scientist is the Secretary of the Society.

In the memory of Dr.H.M.Gangadharaiah university conducts University level Badminton Championship tournament. All the constituent colleges are participated.

Report on ELECTROTECH

(Annual programme of ECE, TCE and MLE Association)

Sri Siddhartha Institute of Technology is conducting the Annual programme ELECTROTECH for the departments of Electronics & Communication Engineering, Tele-Communication Engineering and Medical Electronics Engineering Students on 7.7.2020. Our Principal Dr.M.S.Raviprakasha Inauguration the function.

Digital 3D imaging can benefit from advances in VLSI technology in order to accelerate its deployment in many fields like visual communication and industrial automation. High-resolution 3D images can be acquired using laser-based vision systems. With this approach, the 3D information becomes relatively insensitive to background illumination and surface texture. Complete images of visible surfaces that are rather featureless to the human eye or a video camera can be generated. Intelligent digitizers will be capable of measuring accurately and simultaneously colour and 3D.

Report on Engineers Day

Sri Siddhartha Institute of Technology is organised Engineers Day Every Year. On 15.9.2019 we celebrate Engineers day at our college Campus.

Engineering is not merely the possession of the capacity to get elegant solutions to non-existent engineering problems, engineering is practicing the art of the organized forcing of technological change. In remembrance of Sir Mokshagundam Vishweshwarayya, the most outstanding Engineer of all times, the engineering fraternity of India celebrates "Engineer's Day" every year on 15th September to identify the great works done by our hard working engineers.

The program was inaugurated by lighting the lamp by the dignitaries on the dias at the auditorium in the college premises. This Program was organized by Electronics & Communication Engineering Department.

More than 50 students showed their participation in the various events and few of them had delivered speeches. The great enthusiasm and participation shown by student were highly appreciated by all the staff members.

Report on ETHNIC WEAR COMPITITION

The Sri Siddhartha Medical college has organized to students to ETHNIC WEAR COMPITITION is conducted on 21.9.2019. Principal is inaugurated the function. And all students are participated and enjoyed.

India boasts of a rich and ancient textile and clothing heritage that has continued to evolve through time. While the nation is taking big strides towards modernization, its citizens are still traditionalists at heart, especially when it comes to expressing their culture and heritage through fashion.

Traditionally, ethnic wear in India was largely derigueur for occasions, festivals and weddings. But in the course of time, as functionality and comfort started taking a cente rstage in fashion, the entire template of ethnic wear was subjected to a thorough overhaul. Especially in the women's section, the category today covers a wide spectrum of sartorial elegance — from inherently classic to more contemporary avatars; from everyday wear, festive wear to ensembles that befit even corporate boardrooms.

“Customers love pure ethnics as occasion wear, but with the emergence of fusion wear, they have found something that they can fl aunt on a daily basis. The fusion wear category includes myriad ensembles right from kurtis, kameez and tunics, etc., which can be paired with fitted pants, tides, palazzos and even long skirts.

Report on HMG Drawing competition

(State level competition)

Sri Siddhartha Institute of Technology is conducting H.M.Gangadharaiah Memorial State level Drawing Competition to the students. More than 3000 students from LKG to High School Students from different schools were participated. This will conduct every Year December 1st Saturday(8.2.2019).

Dr. H M Gangadharaiah, an art teacher is the architect of this premier society. He was blessed by Mahatma Gandhi and Vinobabhave. Sri HMG and was inspired by Vinobha Bhave's thoughts and he blessed Sri HMG "May you be a staunch social worker and may this Gollahalli be a Shanthinikethan". Let your honesty be a beacon for your efforts. The blessing of Sri Vinoba bhave was lingering in the mind of Sri HMG and he made up his mind to give education to the needy and thus established Sri Siddhartha Educational Society named after a great philosopher, Sri Goutama Buddha.

1. To bring out the creative expression, artistic skills of the students and also to gauge their awareness quotient,
2. The aim of this competition was not merely to see the creative aspect but also to trigger the thought process of the students and sensitize them towards these burning & serious issues such as violence against women.
3. Competitions of the sort increase the observational skills, response to thoughts, awareness and concern of the students towards global issues.

Report on INDEPENDENCE DAY

The Independence Day was celebrated with great enthusiasm by all the students of the school. The students cleaned their classrooms and decorated them with colourful balloons and ribbons. Pictures of our great leaders and freedom fighters were placed on the notice board. Later, students presented patriotic songs and poems. There were speeches by teachers, the Principal, and the chief guest. Then the chief guest inaugurated an exhibition on our freedom struggle and our freedom fighters. There was a feeling of pride and patriotism in everyone's heart. The program was concluded with a vote of thanks. At the end, sweets were distributed to the students.

Sri Siddhartha Medical college: Our Principal Dr.Srinivas murthy hoisted the National Flag. Then we all saluted the flag and sang our National Anthem together. NCC Students will show the NCC training abilities.

Sri Siddhartha Institute of Technology: Our Principal Dr.M.K.Veeraiah hoisted the National Flag. Then we all saluted the flag and sang our National anthem together. NCC students are participated.

Sri Siddhartha Dental College: Our Principal Dr.Kashinath hoisted the National flag. Then we all saluted the flag and sang our national anthem together.

Report on INTERFACE

(Annual program of CSE, ISE and MCA Association)

Departments of Computer Science & Engineering, Information Science & Engineering and Master of Computer Application of Sri Siddhartha Institute of Technology is conducting annual program INTERFACE 19.7.2020 to their department student In this Students are doing their Hobby project and exhibits. different engineering colleges are also participated.

The Interface Summary report shows statistics and a chart of the data sent and received for each interface. This report can help you to monitor activity on the interfaces configured on your device. Here are some ways to use this report

This report displays the collected metrics data from the specified network interfaces on each selected device. You can further customize the output of the report by selecting devices by group and category, and by selecting interfaces by type and tag.

Report on INTERNATIONAL WOMENS DAY

Sri Siddhartha Medical College is Conducting a INTERNATIONAL WOMENS DAY under the IQAC Cell(Internal Quality Assurance Cell). All the Constituent colleges are conducting in their college premises on 9.3.2020.

History of Women's Day. International Women's Day is celebrated in many countries around the world. It is a day when women are recognized for their achievements without regard to divisions, whether national, ethnic, linguistic, cultural, economic or political.

If women are unable to access the Internet and do not feel safe online, they are unable to develop the necessary digital skills to engage in digital spaces, which diminishes their opportunities to pursue careers in science, technology, engineering, and mathematics (STEM) related fields. By 2050, 75% of jobs will be related to STEM areas. Yet today, women hold just 22% of positions in artificial intelligence, to name just one.

Bringing women into technology results in more creative solutions and has greater potential for innovations that meet women's needs and promote gender equality. Their lack of inclusion, by contrast, comes with massive costs. The world comes together for International Women's Day (IWD) on March 8 to celebrate women's achievements and reinforce a commitment to women's equality. **12 Wonderful women's day activities in office to motivate and encourage your female employees**

1. Host a panel discussion
2. Networking event
3. Mentorship program
4. Inspirational speakers
5. Charity drive
6. Dress-up day
7. Training sessions
8. Employee recognition
9. Art competition
10. Lunch and learn
11. Women's Day newsletter
12. Social media campaign

Report on KALOTSAVA

Sri Siddhartha Institute of Technology has been conducting a state level Cultural Program Kalotsava on 25.5.2020 . In this event, students of different colleges of the state have participated. Three days Cultural fest has been conducted with different activities in this program. Cultural Programming is a powerful tool that establishes creative place making for a specific locale. It has been shown to help vitalize communities by increasing economic investment and strengthening social ties among residents, while also affirming the identity and core values of a Institute.

Our College KALOTSAVA Day programs are a feast to the eye of the viewers. The College Kalostava Day is celebrated in an astonishing way for the students to exhibit their talents effectively. The students perform their creative ideas in the form of Dazzling dances, motivating skits, mind blowing mimes are few of the programs that entrance the audience. The highlight of the day is the musical performance of the college orchestra.

Participating in cultural events not only benefits the person in many ways but also the family and the community

Physical benefits: Students engage in physical activity when they engage in activities like moose hunting or dancing. It is commonly recognised that regular exercise is good for body and can prevent a variety of illnesses and health issues. Eating traditional or cultural meals has significant advantages as well.

Mental health benefits: It is well recognised that cultural connection has a significant role in lowering the risk of mental health conditions like depression and addictive behaviours. Each year, more studies are published that demonstrate how much less probable it is for people to experience issues with substance misuse, depression, or suicide when they have stronger ties to their families and cultures.

Spiritual benefits: The majority of cultural activities promote the wellness of the whole individual by promoting gratitude for what has been given and earned, sharing, respect for the environment, and honouring those who have taught us.

Emotional benefits: A formula for excellent emotional health includes participating in passed-down customs, doing physical exercise, improving one's mental health, and interacting with others. Having a cultural component might boost your happiness and satisfaction because talking and other social activities are already known to stimulate endorphins, which improve mood.

Report on National Chess competition

Sri Siddhartha Academy of Higher Education is conducting a National level Chess Tournament on 15.3.2020, which is a series of chess games played. Competitively to determine a winning individual or team.

The time control for each game in the classical portion of the match will be 120 minutes per side for the first 40 moves, 60 minutes for the next 20 moves, and 15 minutes for the rest of the game, with a 30-second increment per move starting with move 61.

The match is best of 14 games; a score of at least $7\frac{1}{2}$ would win the world championship. If the score is equal after 14 games, tiebreak games with faster time controls will be played:

- A match consisting of 4 rapid games with 25 minutes per side and a 10-second increment starting with move 1 will be played. If a player scores $2\frac{1}{2}$ points or more, he would win the championship.
- If the score is equal after the rapid portion, a mini-match of two blitz games will be played, with a time control of 5 minutes per side and a 3-second increment starting with move 1. If a player scores $1\frac{1}{2}$ points or more, he would win the championship. If the blitz mini-match is tied, another mini-match with the same conditions will be played to decide the winner of the championship.
- If both blitz mini-matches are tied, a single game with a time control of 3 minutes per side and a 2-second increment starting with move 1 will be played, and the winner would win the championship. A drawing of lots shall decide which player plays with the white pieces. If this game is drawn, another blitz game with reversed colours will be played with the same time control, and the winner would win the championship. This process will be repeated until either player wins a game.

Players are not allowed to agree to a draw before Black's 40th move. A draw claim before then is only permitted if a threefold repetition or stalemate has occurred.

Report on NIRMAAN

(Annual program of Civil Engg))

Sri Siddhartha Institute of Technology is organizing a state level Program called NIRMAAN on 29.6.2020. Which is basically helpful in construction of new technology buildings with modern aids.

The first straw-bale structures we know of were built about a hundred years ago by European settlers in the Sand Hills of Nebraska. Having little other means to shelter themselves, they were driven by necessity to improvise. Using the newly invented steam- and horse-powered balers, they baled the grasses that surrounded them, stacked the bales to form walls, and applied mud or cement plasters inside and out. Some of those homes still exist and are in good shape, as are a few more that were built in Nebraska and Wyoming over the subsequent decades. A revival in straw-bale construction began in the American West in the 1980s and has now spread all over the world.

Fiber Reinforced Cement as a material made from hydraulic cement and discrete, discontinuous fibers (containing no aggregate). Fiber reinforced concrete (FRC) is made with hydraulic cement, aggregates of various sizes, incorporating discrete, discontinuous fibers. Both are firmly established as a new construction material. Steel fibers and synthetic fibers find applications in civil engineering on a larger scale by virtue of their inherent advantages; it is of interest to note that the performance of concrete can be enhanced through the employment of these micro-reinforcements in a hybrid form. The volume of data available on the performance studies of hybrid fiber reinforced concrete appears to be inadequate for a better understanding the investigation, it is proposed to combine these fibers at different proportions in the beam structural elements and engineering properties and performance are being investigated. The necessity for the addition of fibers in structural material is to increase the strength of the concrete and mortar and also to reduce the crack propagation that mainly depends on the following parameters.

Report on ONAM Celebration

Sri Siddhartha Medical College is organizing ONAM Celebration, which is at national level. ONAM is an ancient Hindu festival of Kerala that celebrates rice harvest. The significance of the festival is in Indian culture, of which two are more common Cultural events will be celebrated.

Onam commemorates King Mahabali and Vamana. According to Hindu legends, Onam is celebrated in Kerala in remembrance of the good governance under the rule of daitya king Mahabali, a mythical king who once ruled Kerala. The legend holds that jealous of Mahabali's popularity and his power, the devas and gods conspired to end his reign. They sent Vamana to earth in the form of a dwarf Brahmin who trampled Mahabali to patala. Vamana asked Mahabali for three feet of land as his wish from the generous Mahabali. Since denying gifts to Brahmin is considered a sacrilege, Mahabali agreed to fulfill Vamana's wish. In the first two feet Vamana measured the entirety of universe, leaving nowhere to place his third foot. Mahabali offered his own head to place his third feet making the wish complete. However, witnessing Mahabali's generosity, Vishnu granted the king's sole wish to visit his land and people once every year. This homecoming of Mahabali is celebrated as Onam in Kerala every year

Report on Rajyotsava

(Regional level event of Karnataka)

Sri Siddhartha Medical College is celebrating Kannada Rajyotsava, also known as Karnataka Formation Day or Karnataka Day, is a state public holiday and celebrated on 1 November of every year.

All Constituent colleges of Sri Siddhartha Academy of Higher Education were celebrated Kannada Rajyotsava in their premises every year on 1st November.

Karnataka was formed on this day, hence this day is also known as Kannada Day, Karnataka Formation Day or Karnataka Day. Rajyotsava means the birth of a state. In 1956, a state was created by merging all the Kannada speaking regions in India, which was named as Karnataka. The spoken language was Kannada This day is considered the most special day for all the Kannada people in karnataka.

On this day, people of Karnataka wear their traditional clothes and also hoist their state flag, which is red and yellow. The people there also sing the Kannada Anthem ("Jaya Bharatha Jananiya Tanujate"). The state government awards people who contribute to the development of Karnataka. The Chief Minister inaugurates the function of the State which is held at Kanteerava Stadium, Bengaluru. This Rajyotsava is celebrated by all religions Hindu, Muslims and Christians. Not only in Karnataka but also in many parts of India this day is celebrated.

Report on REPUBLIC DAY

Sri Siddhartha Academy of Higher Education is celebrating Republic day celebrated on 26th January of every year. The day is celebrated with pomp and show, zeal and spirit, throughout the length and breadth of the country. The day was celebrated in our Institute with great eclat. The Institute building was tastefully decorated with flower-pots, buntings, pictures of heroes of the freedom movement and national flags. . The programme started with paying respect to the motherland by unfurling of National Tri colour The students enthusiastically participated in a variety of programmes like Song, Dance, Skit and speech.

Twenty Sixth January holds an everlasting place in our national memory because it is the day when modern India was born. The development journey of India over the years has been marked by significant milestones and reforms that enabled it to achieve substantial progress in many areas including rise in income levels, growth in literacy, life expectancy and a wide variety of other economic indicators. The presentation of success story of our country made everyone proud and developed a sense of solidarity.

Report on SAMARTHYA

(State level programme by SSIT IEEE Chapter)

Sri Siddhartha Institute of Technology is conducting a Program SAMARTHYA for student on 5.7.2020. SSIT-IEEE Chapters are a technical subunit of a Region, one or more Sections or a Geographic Council. There may be single Society Chapters, joint Society Chapters, and Technical Council Chapters.

A Chapter shall comprise a minimum of twelve (12) IEEE voting members of a Society, or group of Societies in the case of a joint chapter, and shall be established by petition to the parent geographical and technical organizational units concerned to fulfill the mission of IEEE. In the case of a Technical Council Chapter, a minimum of any twelve (12) IEEE voting members of Council Member Societies in the parent geographical unit shall be required to petition to the geographic unit and to the Technical Council. Chapters are formed to serve IEEE members by holding meetings at the local level, and provide opportunities to network, enabling personal and professional growth.

There are three different paths one can take to develop an IEEE Chapter: form a new Chapter, form a new joint Chapter, or expand an existing Chapter. Start by researching your area, then decide which route will best suit your needs and support a healthy, active Society/Technical Council Chapter environment.

Report on SIDDHARTHA PREMIER LEAGUE(SPL)

(CRICKET TOURNAMENT)

Sri Siddhartha Institute of Technology is organizing a premier Cricket Tournament SPL on 8.6.2020. In this different Branch Students are Participated with different teams.

A team can acquire players through any of the three ways: the annual player auction, trading players with other teams during the trading windows, and signing replacements for unavailable players. Players sign up for the auction and also set their base price, and are bought by the franchise that bids the highest for them. Unsold players at the auction are eligible to be signed up as replacement signings. In the trading windows, a player can only be traded with his consent, with the franchise paying the difference if any between the old and new contracts. If the new contract is worth more than the older one, the difference is shared between the player and the franchise selling the player. There are generally three trading windows—two before the auction and one after the auction but before the start of the tournament. Players cannot be traded outside the trading windows or during the tournament, whereas replacements can be signed before or during the tournament.

Report on Sports meet(SSIT)

Sri Siddhartha Institute of Technology is Organising Sports meet to their students on 19.6.2020. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers. Sports not only contribute to shaping your personality but also impact your academic performance significantly.

There have been many studies proving that students involved in sports during their college life perform better in academics. Reasons for this can be many, as sport teaches you the skills of time management and also act as a stress buster when you are loaded with too many assignments and deadlines. Students need to take a break from their daily routine to ensure that they have stable mental health. And what better way than involving yourself in sports, to take that much-needed break? Such productive breaks enhance your capacity to think, learn, focus, and contribute to academics. Being fit mentally and physically is essential.

By having sports as your hobby, you can boost your mental health and also learn to maintain a balance between your curricular and co-curricular activities. It enables you to be emotionally strong as sports lets you experience various emotions like success, failure, happiness, disappointment, etc. When you are involved in sports, you exercise daily to maintain your stamina and physical fitness. Daily exercise helps in reducing stress and makes you feel positive about yourself.

At SSIT, our culture is to provide holistic growth to our students, and therefore, apart from excellent infrastructure, we also have dedicated student support services that support the mental well-being of students.

The sports committee of Sri Siddhartha Dental College conducted its annual sports meet, ENTHUZIA from 10-04-2019 which filled with fervor and excitement.

The sports meet started off with the inaugural program held on 10-04-2019 at 1:00pm at the college ground in the presence of **Dr. K.R.Kashinath**, Principal, SSDC .Other dignitaries who were present for inauguration program were **Dr. Bharatesh**, Vice-principal, SSDC and **Dr. Suhas** Head of the department of Oral Medicine and Radiology along with the **Sports committee** of Sri Siddhartha Dental college.

.The list of sports events conducted (this year) are as follows:

- Men's Cricket
- Women's cricket
- Men's badminton-singles and doubles
- Women's badminton-singles and doubles
- Athletic events for men and women (100m/200m/4x100m relay)
- Lemon and spoon race for men and women

-The ceremony made way for the first men's cricket match which was followed by other sports events (enlisted above) over the week.

Report on Sports meet

Sri Siddhartha Medical College is Organising Sports meet to their students on 06-07-2019 to their Students. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers.

In addition to that, sports and games are known to develop the students holistically. They enhance the personality of individuals by imparting various traits in them. Sports are said to boost alertness, discipline, team spirit, mental ability, confidence and concentration of a student. A student's life is no less than a rollercoaster. In addition to learning new skills and exploring various opportunities, a student has a lot to deal with in terms of assignments, practicals, exams, internships, workshops, lectures, and much more, essential to ensure optimum academic development. Amidst the busy schedule, it is very important to take a break to refresh oneself. This is where extracurricular activities play a vital role. These activities, during college life, keep you positive, fresh, energetic and go a long way in making you more productive. Not only do they lighten your mood, but they also help in shaping your overall personality and interpersonal skills.

Besides effective communication, these interactions help you become a multi-tasker as you start realizing the importance of striking a balance between work and personal life. You will also learn the skill of time management as you gradually learn to manage time between your lectures, assignments, academics, and sports. While playing a sport you come across various situations that require quick decision-making which will be crucial for you and your team. Encountering such situations not only makes you proactive but also makes you a good decision-maker, a great team player, and even a good leader.

Report on TANTRA

(State level event by SSIT ISTE Chapter)

PROJECT EXHIBITION was organized by the Department of Computer science and Engineering, on 11.6.2020. Final year students are participation of this exhibition.

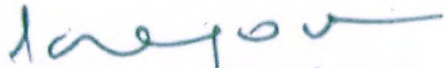

Major objective of organizing this exhibition was to provide the platform and unleash the potential of the students by showcasing their innovative projects developed in the Final Year either as Industry Defined Problem or User Defined Problem and provide an opportunity for the students to demonstrate their learning experience.

The outcome of the PROJECT EXHIBITION was that students were able to show their project at higher level and the process boosted their confidence.

The inaugural of the project exhibition witnessed the presence of Dr.M.K.Veeraiah R, principal, SSIT the faculty and staff members of Department of CSE,

Dr.M.Siddappa, HOD, ISE Department formally welcomed the principal of SSIT,

Dr. M.K.Veeraiah, principal, RRCE, in his motivational address emphasized on the importance of learning new technologies and tools for the students.

Report on TECHNODEA

(National level project competition and exhibition)

Sri Siddhartha Institute of Technology was organised a National level project competition and exhibition to the students named TECHNODEA on 29.6.2020. This competition will conduct every year. In this exhibition more than 175 students are participating and exhibit their talent.

In other words "ChatGPT is a massive language model trained to utilize OpenAI to apprehend and generate natural language. It uses deep getting-to-know and synthetic intelligence generation to conduct human-like customer conversations."

ChatGPT is the modern representative from a class of AI systems that responds to human language (Texts). It is called "Natural Language Processing," or NLP for quick. It is manufactured from an entire chain of innovations that began in 2017 with a new AI architecture.

In the subsequent years, the first AI fashions evolved primarily based on this structure that reached human-degree language understanding. In the ultimate years, the models learned to write and even have complete conversations with the consumer using ChatGPT.

Chat GPT stands out for generating credible and appropriate responses to user requests compared to other models. CharGPT can write programs, add comments to programs,

In addition to ChatGPT, there are many different language fashions in distinct forms: open source, proprietary, with dialog alternatives, or other abilities. It has become apparent that those abilities continued to develop with larger fashions and extra (specifically extraordinary) facts.

Unlike at the start predicted, there appears to be no higher limit. Conversely, the larger the models, the more abilities they gain!

These linguistic capabilities and the flexibility of ChatGPT are excellent, but using such large fashions is only sometimes precisely resource-friendly. Large models like ChatGPT are operated via external vendors who price every request to the model.

Report on VOLLYBALL

The Sri Siddhartha Medical College has organized its annual sports Volleyball Tournament at University level on 10.8.2020. In this sports all constituent colleges of Sri Siddhartha Academy of Higher Education are participated. More than 10 Teams are participated in this Tournament .

Though the student did not have enough time to practice before the event due to heavy rain but they were ready to play with full energy. At the SSMC Ground after warm up and a short practice the match started at 9:30a.m. In qualifying round our school won in oppose of the ECE team one more time.

After the quarter final and semi-final match we were in the finals. They were very confident but the team which was in the final was very good. Their players were much trained and they had practiced well. Their quarterfinal and semifinal matches their performance was awesome. As their team was last year state champion the perfection was seen in their matches. Tension was there in the mind of our players that what to do, but our coach Santhosh motivated the players that play with confident and do their best.

And finally the final match started, as they were experienced player the perfection was seen in their game. Our player's Guru, and one player from CSE which was selected and playing with us were continuously attacking but their defense was hard and tight. As a result in 1st round we lost with the score 25/17 in second round we tried harder but we were not cope up to defend and as a result we again lost by 25/13. As being runner up we got the advantage and our six players were selected in state level Volleyball competition.

Report on YANTRIK

(Annual Programme of Mechanical Engg and IEM)

Yanthrik-2018 is a department fest organized by the Mechanical Engineering Association (MEA) in association with the department of IEM, to serve as a platform for showcasing the inherent and hidden talents of our students in both co curricular and extracurricular activities. It is celebrated every year midway during their academic calendar in the even semester.

This year, **Yanthrik-2019** began with release of the association's **POSTER/SOUVENIR** on **24.6.2020** at 10AM in the presence of our principal Dr. M.S.Raviprakash, chief guest Mr. V Siddharth, HOD, staff and students of mechanical and IEM departments. The event took place near the Main Circle, SSIT Campus.

The inaugural function began soon after at 10:30AM with the chief guest of the day Mr. V Siddharth, Business Head, Madhur Industrial & Allied Solutions, Bangalore, by watering the plant. Later Mr. V Siddharth addressed our students and gave a technical talk on "**Career Opportunities in Industry for Mechanical / IEM engineers**".

As part of the inaugural function, student toppers from 1st year to final year of mechanical and 1st and final year IEM were honored with prizes. The inaugural function which concluded at 12 Noon was followed by a **Bike-Rally** of our students in the campus.

An **AUTO-EXPO** was arranged in the campus sponsored by the Indian automotive giants MARUTI-SUZUKI Ltd., and Mahindra & Mahindra Ltd. The two companies had set up stalls where their entire range of vehicles were on display and sale. In addition Maruti Suzuki had arranged a free general check up camp for all their vehicles. Working Lunch was arranged for all the staff and students of ME & IEM in the afternoon.

The valedictory programme began at 7:30PM in the evening and was graced by upcoming stars of KOLLYWOOD, Mr. Dhūsyant of Gatha Vaibhava fame, Ms.Arundhathi Lal, former MissBanjara-2018 Beauty contest winner and Ms.Arptha Jain, former Miss South India 2018 Beauty Contest winner. The stage was set on fire by the celebrities above and our students every moment of the events that followed thereafter.

Report on Annual Cultural Day

The Sri Siddhartha Dental College has organized its annual cultural program on 17.7.2020 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The auditorium had been set up in a grandeur arrangement. All the gates were covered with flowers and beautiful lights. At 10:30 in the morning the program started with an inauguration by the honourable Vice chancellor Dr. Balakrishna Shetty and the chief guest, Sri Ganapa Music director. Then an opening musical presentation made the audience feel the warmth.

The last performance was immensely intense as it was dedicated to the social workers who are dedicating their life every day to bring positive changes to the world. After the end of the traditional cultural programs by the students, a special surprise of an authentic Kuchipudi performance was presented. It gave a delightful ending to the evening.

Report on Annual Cultural Day

The Sri Siddhartha Medical College has organized its annual cultural program on 14.9.2020 in the Nagarajuna auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

We would like to inform you that all Cultural Activities, with the Co-operation of all students of the College, College Development Council's members, College Principal, Members of the Cultural Committee, Teaching and non-Teaching faculties have been very successful in the academic year 2017-18. The inaugural ceremony of the college's cultural activities commenced with the academic year 2017-18 and celebrated the national, international, our state festival and national leaders' celebrations at the college to create awareness of the patriotic and leadership qualities of the students. Recognizing the hidden talents of the college's talented students, they were sent from the college as cultural ambassadors for intercollegiate singing and dance competitions at the university

Report on Ayadhapooja

Rangoli Competition

The Sri Siddhartha Dental College has organized its annual cultural program on 19.10.2020 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The principal goddesses worshipped during the Ayudha Puja are Saraswati, the goddess of learning, Lakshmi, the goddess of prosperity, and Parvati, the goddess of power. On this occasion, the implements employed by people of various professions and walks of life are customarily venerated, such as the weapons of a soldier, tools of an artisan, and the books of a student. The religious significance of this occasion is to commemorate the victory of the goddess Durga over Mahishasura, or the conquest of Lanka by Rama. In South India, the occasion is primarily dedicated to Saraswati, with the practice of educational materials such as books, pens, pencils, musical instruments, and other equipment being venerated, to signify the victory of knowledge over ignorance.

On this occasion in our college we conduct Rangoli competition. Our University Vice-chancellor inaugurated this function. And all the students are participated in this competition. Prizes will be distributed to winners.

Report on best out of waste

The Sri Siddhartha Institute of Technology has organized its Annual Program "BEST OUT OF WASTE", on 5.8.2020 in the college Premises. All the Students are participated.

The motion "BEST OUT OF WASTE" in itself refers to encourage reuse of wastes. In our homes, there are many clothes which lie unworn. Based on the thinking to reuse these clothes and reuse the waste products our team collaborated with Swacchta Action Plan and decided to make cloth bags which would rather help to replace plastic bags, used in homes and to increase the awareness about the environment among the people. Eco-club play an important role in creating environmental awareness amongst the students and these are the means by which students can be empowered to participate and take up meaningful environmental activities and projects. Preparation of Eco- friendly product out of waste material forms an important part of Eco-club as it enables us to make the useless things more useful. So our Ecoclub team not only make various things like cloth bags, wall hangings, face mask, wall decorations, flower pots, paper bags etc. and also create awareness among students through Whatsaap, Facebook etc. to use the waste products in best possible way

Report on cooking competition

Sri Siddhartha Dental college is conducting Cooking Competition without fire on 2.9.2020 at College premises. All the Students are participated.

Cooking competitions are a thrilling way to showcase culinary skills and creativity. Recently, I had the opportunity to attend a cooking competition and witness some of the most talented chefs in action. The competition was held in a state-of-the-art kitchen, with all the necessary equipment and ingredients provided to the participants. In this essay, I will provide a descriptive account of the competition, including the venue and setup, the cooking process, and the final dishes.

The competition took place in a large kitchen with multiple cooking stations. Each station was equipped with the latest cooking appliances, including gas stoves, ovens, and blenders. The participants were provided with a wide range of ingredients, including fresh vegetables, meats, and spices. The kitchen was well-lit and ventilated, creating an ideal environment for the chefs to work in. The setup was well-organized, with each station labeled and numbered for easy identification.

The cooking process was intense and captivating. The chefs were given a limited amount of time to prepare their dishes, adding to the excitement and pressure of the competition. The contestants used a variety of cooking techniques, including grilling, baking, and frying. Each chef incorporated unique flavors and ingredients into their dishes, making them stand out from the rest. Some contestants even used unconventional ingredients, such as edible flowers and exotic fruits, to create a truly unique culinary experience.

Report on DOCTORS DAY

The Sri Siddhartha Medical college has organized its International Doctors day Program on 1st July 2021 in the college auditorium Nagarajuna Hall. All the students were present in the program.

International Doctor's Day was first observed in order to pay respect to the legendary physician and Bengal's former Chief Minister, DrBidhan Chandra Roy, to recognize and appreciate his contributions in the field of medicine.

Roy played an important role in the establishment of the Medical Council of India and the Indian Medical Association. He was born on July 1, 1882 and passed away on July 1, 1962. Roy was awarded with the Bharat Ratna, which is considered India's highest civilian award.

On National Doctor's Day, we say 'thank you' to our doctors and nurses, and health workers for all that they do for us and our loved ones.

Historically, a card or red carnation was sent to all doctors and nurses and also to their families, along with a flower being placed on the graves of deceased physicians. If you want to thank the medical staff, then you can show your appreciation by doing any of the below-mentioned stuff:

- Say 'Thanks' to your doctor and medical staff
- Pledge to donate your organs
- You can offer a service to them.
- Donate, and also encourage others to do so
- Send them a thank you card and flowers
- Shoot a video for them and post it on your social media.

Report on Dr. H M Gangadharaiah memorial badminton tournament

Sri Siddhartha Medical College is organised State level Badminton Tournament to the medical students at college premises on 4.2.2021. More than 20 Teams are participated.

SRI SIDDHARTHA EDUCATION SOCIETY (SSES) was founded by late Sri H M Gangadharaiah also the founder secretary of the society, with the blessings of saint and seer, the father of "Bhoodan movement" Sri VinobhaBhave in 1959, has made a leap in the field of education.

Sri Gangadharaiah feels that the world is on the brink of disaster and only two group of persons can save the world, Ideal mother and Ideal Teachers. Only such persons can produce future citizens who can reform the demoralized society and preserve human values. Therefore, the responsibilities of the teaching community is instrumental. They are the architects of the nation and torch bearers of civilization. Education for character building is the need of the hour and it was the fervent desire of His Holiness to start good college of education to prepare quality teachers to function at the secondary school level.

Leadership always plays a vital role in this process and was carefully nurtured. The Society is fortunate enough to have two illustrious sons of the founder who are equally zealous and committed to the founder's goals. Dr. G. Shivaprasad, an eminent Ophthalmologist, was the Founder Secretary and Dr. G. Parameshwara a reputed agriculture Scientist is the Secretary of the Society.

In the memory of Dr.H.M.Gangadharaiah university conducts University level Badminton Championship tournament. All the constituent colleges are participated.

Report on ELECTROTECH

(Annual programme of ECE, TCE and MLE Association)

Sri Siddhartha Institute of Technology is conducting the Annual programme ELECTROTECH for the departments of Electronics & Communication Engineering, Tele-Communication Engineering and Medical Electronics Engineering Students on 25.7.2020. Our Principal Dr.M.S.Raviprakashia Inauguration the function.

Digital 3D imaging can benefit from advances in VLSI technology in order to accelerate its deployment in many fields like visual communication and industrial automation. High-resolution 3D images can be acquired using laser-based vision systems. With this approach, the 3D information becomes relatively insensitive to background illumination and surface texture. Complete images of visible surfaces that are rather featureless to the human eye or a video camera can be generated. Intelligent digitizers will be capable of measuring accurately and simultaneously colour and 3D.

Report on Engineers Day

Sri Siddhartha Institute of Technology is organised Engineers Day Every Year. On 15.9.2020 we celebrate Engineers day at our college Campus.

Engineering is not merely the possession of the capacity to get elegant solutions to non-existent engineering problems, engineering is practicing the art of the organized forcing of technological change. In remembrance of Sir Mokshagundam Vishweshwarayya, the most outstanding Engineer of all times, the engineering fraternity of India celebrates "Engineer's Day" every year on 15th September to identify the great works done by our hard working engineers.

The program was inaugurated by lighting the lamp by the dignitaries on the dias at the auditorium in the college premises. This Program was organized by Electronics & Communication Engineering Department.

More than 50 students showed their participation in the various events and few of them had delivered speeches. The great enthusiasm and participation shown by student were highly appreciated by all the staff members.

Report on ETHNIC WEAR COMPITITION

The Sri Siddhartha Medical college has organized to students to ETHNIC WEAR COMPITITION is conducted on 2.12.2020. Principal is inaugurated the function. And all students are participated and enjoyed.

India boasts of a rich and ancient textile and clothing heritage that has continued to evolve through time. While the nation is taking big strides towards modernization, its citizens are still traditionalists at heart, especially when it comes to expressing their culture and heritage through fashion.

Traditionally, ethnic wear in India was largely derigueur for occasions, festivals and weddings. But in the course of time, as functionality and comfort started taking a cente rstage in fashion, the entire template of ethnic wear was subjected to a thorough overhaul. Especially in the women's section, the category today covers a wide spectrum of sartorial elegance — from inherently classic to more contemporary avatars; from everyday wear, festive wear to ensembles that befit even corporate boardrooms.

“Customers love pure ethnics as occasion wear, but with the emergence of fusion wear, they have found something that they can fl aunt on a daily basis. The fusion wear category includes myriad ensembles right from kurtis, kameez and tunics, etc., which can be paired with fitted pants, tides, palazzos and even long skirts.

Report on HMG Drawing competition

(State level competition)

Sri Siddhartha Institute of Technology is conducting H.M.Gangadharaiah Memorial State level Drawing Competition to the students. More than 3000 students from LKG to High School Students from different schools were participated. This will conduct every Year December 1st Saturday(5.12.2020).

Dr. H M Gangadharaiah, an art teacher is the architect of this premier society. He was blessed by Mahatma Gandhi and Vinobabhave. Sri HMG and was inspired by Vinobha Bhave's thoughts and he blessed Sri HMG "May you be a staunch social worker and may this Gollahalli be a Shanthinikethan". Let your honesty be a beacon for your efforts. The blessing of Sri Vinoba bhave was lingering in the mind of Sri HMG and he made up his mind to give education to the needy and thus established Sri Siddhartha Educational Society named after a great philosopher, Sri Goutama Buddha.

1. To bring out the creative expression, artistic skills of the students and also to gauge their awareness quotient,
2. The aim of this competition was not merely to see the creative aspect but also to trigger the thought process of the students and sensitize them towards these burning & serious issues such as violence against women.
3. Competitions of the sort increase the observational skills, response to thoughts, awareness and concern of the students towards global issues.

Report on INTERNATIONAL WOMENS DAY

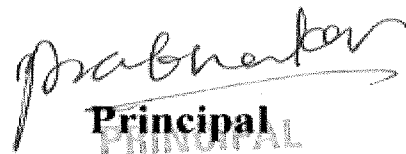

Sri Siddhartha Medical College is Conducting a INTERNATIONAL WOMENS DAY under the IQAC Cell(Internal Quality Assurance Cell). All the Constituent colleges are conducting in their college premises on 8.3.2021.

History of Women's Day. International Women's Day is celebrated in many countries around the world. It is a day when women are recognized for their achievements without regard to divisions, whether national, ethnic, linguistic, cultural, economic or political.

If women are unable to access the Internet and do not feel safe online, they are unable to develop the necessary digital skills to engage in digital spaces, which diminishes their opportunities to pursue careers in science, technology, engineering, and mathematics (STEM) related fields By 2050, 75% of jobs will be related to STEM areas. Yet today, women hold just 22% of positions in artificial intelligence, to name just one.

Bringing women into technology results in more creative solutions and has greater potential for innovations that meet women's needs and promote gender equality. Their lack of inclusion, by contrast, comes with massive costs. The world comes together for International Women's Day (IWD) on March 8 to celebrate women's achievements and reinforce a commitment to women's equality. **12 Wonderful women's day activities in office to motivate and encourage your female employees**

1. Host a panel discussion
2. Networking event
3. Mentorship program
4. Inspirational speakers
5. Charity drive
6. Dress-up day
7. Training sessions
8. Employee recognition
9. Art competition
10. Lunch and learn
11. Women's Day newsletter
12. Social media campaign

Report on KALOTSAVA

Sri Siddhartha Institute of Technology has been conducting a state level Cultural Program Kalotsava on 24.5.2021. In this event, students of different colleges of the state have participated. Three days Cultural fest has been conducted with different activities in this program. Cultural Programming is a powerful tool that establishes creative place making for a specific locale. It has been shown to help vitalize communities by increasing economic investment and strengthening social ties among residents, while also affirming the identity and core values of a Institute.

Our College KALOTSAVA Day programs are a feast to the eye of the viewers. The College Kalostava Day is celebrated in an astonishing way for the students to exhibit their talents effectively. The students perform their creative ideas in the form of Dazzling dances, motivating skits, mind blowing mimes are few of the programs that entrance the audience. The highlight of the day is the musical performance of the college orchestra.

Participating in cultural events not only benefits the person in many ways but also the family and the community

Physical benefits: Students engage in physical activity when they engage in activities like moose hunting or dancing. It is commonly recognised that regular exercise is good for body and can prevent a variety of illnesses and health issues. Eating traditional or cultural meals has significant advantages as well.

Mental health benefits: It is well recognised that cultural connection has a significant role in lowering the risk of mental health conditions like depression and addictive behaviours. Each year, more studies are published that demonstrate how much less probable it is for people to experience issues with substance misuse, depression, or suicide when they have stronger ties to their families and cultures.

Spiritual benefits: The majority of cultural activities promote the wellness of the whole individual by promoting gratitude for what has been given and earned, sharing, respect for the environment, and honouring those who have taught us.

Emotional benefits: A formula for excellent emotional health includes participating in passed-down customs, doing physical exercise, improving one's mental health, and interacting with others. Having a cultural component might boost your happiness and satisfaction because talking and other social activities are already known to stimulate endorphins, which improve mood.

Report on National Chess competition

Sri Siddhartha Academy of Higher Education is conducting a National level Chess Tournament on 20.4.2021, which is a series of chess games played. Competitively to determine a winning individual or team.

The time control for each game in the classical portion of the match will be 120 minutes per side for the first 40 moves, 60 minutes for the next 20 moves, and 15 minutes for the rest of the game, with a 30-second increment per move starting with move 61.

The match is best of 14 games; a score of at least 7½ would win the world championship. If the score is equal after 14 games, tiebreak games with faster time controls will be played:

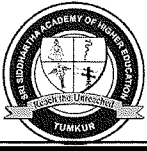

- A match consisting of 4 rapid games with 25 minutes per side and a 10-second increment starting with move 1 will be played. If a player scores 2½ points or more, he would win the championship.
- If the score is equal after the rapid portion, a mini-match of two blitz games will be played, with a time control of 5 minutes per side and a 3-second increment starting with move 1. If a player scores 1½ points or more, he would win the championship. If the blitz mini-match is tied, another mini-match with the same conditions will be played to decide the winner of the championship.
- If both blitz mini-matches are tied, a single game with a time control of 3 minutes per side and a 2-second increment starting with move 1 will be played, and the winner would win the championship. A drawing of lots shall decide which player plays with the white pieces. If this game is drawn, another blitz game with reversed colours will be played with the same time control, and the winner would win the championship. This process will be repeated until either player wins a game.

Players are not allowed to agree to a draw before Black's 40th move. A draw claim before then is only permitted if a threefold repetition or stalemate has occurred.

Report on NIRMAAN

(Annual program of Civil Engg))

Sri Siddhartha Institute of Technology is organizing a state level Program called NIRMAAN on 29.6.2021. Which is basically helpful in construction of new technology buildings with modern aids.

The first straw-bale structures we know of were built about a hundred years ago by European settlers in the Sand Hills of Nebraska. Having little other means to shelter themselves, they were driven by necessity to improvise. Using the newly invented steam- and horse-powered balers, they baled the grasses that surrounded them, stacked the bales to form walls, and applied mud or cement plasters inside and out. Some of those homes still exist and are in good shape, as are a few more that were built in Nebraska and Wyoming over the subsequent decades. A revival in straw-bale construction began in the American West in the 1980s and has now spread all over the world.

Fiber Reinforced Cement as a material made from hydraulic cement and discrete, discontinuous fibers (containing no aggregate). Fiber reinforced concrete (FRC) is made with hydraulic cement, aggregates of various sizes, incorporating discrete, discontinuous fibers. Both are firmly established as a new construction material. Steel fibers and synthetic fibers find applications in civil engineering on a larger scale by virtue of their inherent advantages; it is of interest to note that the performance of concrete can be enhanced through the employment of these micro-reinforcements in a hybrid form.? The volume of data available on the performance studies of hybrid fiber reinforced concrete appears to be inadequate for a better understanding the investigation, it is proposed to combine these fibers at different proportions in the beam structural elements and engineering properties and performance are being investigated. The necessity for the addition of fibers in structural material is to increase the strength of the concrete and mortar and also to reduce the crack propagation that mainly depends on the following parameters.

Report on ONAM Celebration

Sri Siddhartha Medical College is organizing ONAM Celebration, which is at national level. ONAM is an ancient Hindu festival of Kerala that celebrates rice harvest. The significance of the festival is in Indian culture, of which two are more common Cultural events will be celebrated.

Onam commemorates King Mahabali and Vamana. According to Hindu legends, Onam is celebrated in Kerala in remembrance of the good governance under the rule of daitya king Mahabali, a mythical king who once ruled Kerala. The legend holds that jealous of Mahabali's popularity and his power, the devas and gods conspired to end his reign. They sent Vamana to earth in the form of a dwarf Brahmin who trampled Mahabali to patala. Vamana asked Mahabali for three feet of land as his wish from the generous Mahabali. Since denying gifts to Brahmin is considered a sacrilege, Mahabali agreed to fulfill Vamana's wish. In the first two feet Vamana measured the entirety of universe, leaving nowhere to place his third foot. Mahabali offered his own head to place his third feet making the wish complete. However, witnessing Mahabali's generosity, Vishnu granted the king's sole wish to visit his land and people once every year. This homecoming of Mahabali is celebrated as Onam in Kerala every year

Report on Rajyotsava

(Regional level event of Karnataka)

Sri Siddhartha Medical College is celebrating Kannada Rajyotsava, also known as Karnataka Formation Day or Karnataka Day, is a state public holiday and celebrated on 1 November of every year.

All Constituent colleges of Sri Siddhartha Academy of Higher Education were celebrated Kannada Rajyotsava in their premises every year on 1st November.

Karnataka was formed on this day, hence this day is also known as Kannada Day, Karnataka FormationDay or Karnataka Day. Rajyotsava means the birth of a state. In 1956, a state was created by merging all the Kannada speaking regions in India, which was named as Karnataka. The spoken language was Kannada This day is considered the most special day for all the Kannada people in karnataka.

On this day, people of Karnataka wear their traditional clothes and also hoist their state flag, which is red and yellow. The people there also sing the Kannada Anthem ("Jaya Bharatha Jananiya Tanujate"). The state government awards people who contribute to the development of Karnataka. The Chief Minister inaugurates the function of the State which is held at Kanteerava Stadium, Bengaluru. This Rajyotsava is celebrated by all religions Hindu, Muslims and Christians. Not only in Karnataka but also in many parts of India this day is celebrated.

Report on REPUBLIC DAY

Sri Siddhartha Academy of Higher Education is celebrating Republic day celebrated on 26th January of every year. The day is celebrated with pomp and show, zeal and spirit, throughout the length and breadth of the country. The day was celebrated in our Institute with great eclat. The Institute building was tastefully decorated with flower-pots, buntings, pictures of heroes of the freedom movement and national flags. . The programme started with paying respect to the motherland by unfurling of National Tri colour The students enthusiastically participated in a variety of programmes like Song, Dance, Skit and speech.

Twenty Sixth January holds an everlasting place in our national memory because it is the day when modern India was born. The development journey of India over the years has been marked by significant milestones and reforms that enabled it to achieve substantial progress in many areas including rise in income levels, growth in literacy, life expectancy and a wide variety of other economic indicators. The presentation of success story of our country made everyone proud and developed a sense of solidarity.

Report on SAMARTHYA

(State level programme by SSIT IEEE Chapter)

Sri Siddhartha Institute of Technology is conducting a Program SAMARTHYA for student on 26.5.2021. SSIT-IEEE Chapters are a technical subunit of a Region, one or more Sections or a Geographic Council. There may be single Society Chapters, joint Society Chapters, and Technical Council Chapters.

A Chapter shall comprise a minimum of twelve (12) IEEE voting members of a Society, or group of Societies in the case of a joint chapter, and shall be established by petition to the parent geographical and technical organizational units concerned to fulfill the mission of IEEE. In the case of a Technical Council Chapter, a minimum of any twelve (12) IEEE voting members of Council Member Societies in the parent geographical unit shall be required to petition to the geographic unit and to the Technical Council. Chapters are formed to serve IEEE members by holding meetings at the local level, and provide opportunities to network, enabling personal and professional growth.

There are three different paths one can take to develop an IEEE Chapter: form a new Chapter, form a new joint Chapter, or expand an existing Chapter. Start by researching your area, then decide which route will best suit your needs and support a healthy, active Society/Technical Council Chapter environment.

Report on SIDDHARTHA PREMIER LEAGUE(SPL)

(CRICKET TOURNAMENT)

Sri Siddhartha Institute of Technology is organizing a premier Cricket Tournament SPL on 2.7.2021. In this different Branch Students are Participated with different teams.

A team can acquire players through any of the three ways: the annual player auction, trading players with other teams during the trading windows, and signing replacements for unavailable players. Players sign up for the auction and also set their base price, and are bought by the franchise that bids the highest for them. Unsold players at the auction are eligible to be signed up as replacement signings. In the trading windows, a player can only be traded with his consent, with the franchise paying the difference if any between the old and new contracts. If the new contract is worth more than the older one, the difference is shared between the player and the franchise selling the player. There are generally three trading windows—two before the auction and one after the auction but before the start of the tournament. Players cannot be traded outside the trading windows or during the tournament, whereas replacements can be signed before or during the tournament.

Report on Sports meet(SSIT)

Sri Siddhartha Institute of Technology is Organising Sports meet to their students on 13.7.2021. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers. Sports not only contribute to shaping your personality but also impact your academic performance significantly.

There have been many studies proving that students involved in sports during their college life perform better in academics. Reasons for this can be many, as sport teaches you the skills of time management and also act as a stress buster when you are loaded with too many assignments and deadlines. Students need to take a break from their daily routine to ensure that they have stable mental health. And what better way than involving yourself in sports, to take that much-needed break? Such productive breaks enhance your capacity to think, learn, focus, and contribute to academics. Being fit mentally and physically is essential.

By having sports as your hobby, you can boost your mental health and also learn to maintain a balance between your curricular and co-curricular activities. It enables you to be emotionally strong as sports lets you experience various emotions like success, failure, happiness, disappointment, etc. When you are involved in sports, you exercise daily to maintain your stamina and physical fitness. Daily exercise helps in reducing stress and makes you feel positive about yourself.

At SSIT, our culture is to provide holistic growth to our students, and therefore, apart from excellent infrastructure, we also have dedicated student support services that support the mental well-being of students.

The sports committee of Sri Siddhartha Dental College conducted its annual sports meet, ENTHUZIA from 10-04-2021 which filled with fervor and excitement.

The sports meet started off with the inaugural program held on 10.4.2021 at 1:00pm at the college ground in the presence of **Dr. Praveen Kuduva**, Principal, SSDC .Other dignitaries who were present for inauguration program were **Dr. Bharatesh**, Vice-principal, SSDC and **Dr. Suhas** Head of the department of Oral Medicine and Radiology along with the **Sports committee** of Sri Siddhartha Dental college.

.The list of sports events conducted (this year) are as follows:

- Men's Cricket
- Women's cricket
- Men's badminton-singles and doubles
- Women's badminton-singles and doubles
- Athletic events for men and women (100m/200m/4x100m relay)
- Lemon and spoon race for men and women

-The ceremony made way for the first men's cricket match which was followed by other sports events (enlisted above) over the week.

Report on Sports meet

Sri Siddhartha Medical College is Organising Sports meet to their students on 06-07-2021 to their Students. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers.

In addition to that, sports and games are known to develop the students holistically. They enhance the personality of individuals by imparting various traits in them. Sports are said to boost alertness, discipline, team spirit, mental ability, confidence and concentration of a student. A student's life is no less than a rollercoaster. In addition to learning new skills and exploring various opportunities, a student has a lot to deal with in terms of assignments, practicals, exams, internships, workshops, lectures, and much more, essential to ensure optimum academic development. Amidst the busy schedule, it is very important to take a break to refresh oneself. This is where extracurricular activities play a vital role. These activities, during college life, keep you positive, fresh, energetic and go a long way in making you more productive. Not only do they lighten your mood, but they also help in shaping your overall personality and interpersonal skills.

Besides effective communication, these interactions help you become a multi-tasker as you start realizing the importance of striking a balance between work and personal life. You will also learn the skill of time management as you gradually learn to manage time between your lectures, assignments, academics, and sports. While playing a sport you come across various situations that require quick decision-making which will be crucial for you and your team. Encountering such situations not only makes you proactive but also makes you a good decision-maker, a great team player, and even a good leader.

Report on TANTRA

(State level event by SSIT ISTE Chapter)

PROJECT EXHIBITION was organized by the Department of Computer science and Engineering, on 11.6.2021. Final year students are participation of this exhibition.

Major objective of organizing this exhibition was to provide the platform and unleash the potential of the students by showcasing their innovative projects developed in the Final Year either as Industry Defined Problem or User Defined Problem and provide an opportunity for the students to demonstrate their learning experience.

The outcome of the PROJECT EXHIBITION was that students were able to show their project at higher level and the process boosted their confidence.

The inaugural of the project exhibition witnessed the presence of Dr.M.K.Veeraiah R, principal, SSIT the faculty and staff members of Department of CSE,

Dr.M.Siddappa, HOD, ISE Department formally welcomed the principal of SSIT,

Dr. M.K.Veeraiah, principal, RRCE, in his motivational address emphasized on the importance of learning new technologies and tools for the students.

Report on TECHNODEA

(National level project competition and exhibition)

Sri Siddhartha Institute of Technology was organised a National level project competition and exhibition to the students named TECHNODEA on 29.6.2021. This competition will conduct every year. In this exhibition more than 175 students are participating and exhibit their talent.

In other words "ChatGPT is a massive language model trained to utilize OpenAI to apprehend and generate natural language. It uses deep getting-to-know and synthetic intelligence generation to conduct human-like customer conversations."

ChatGPT is the modern representative from a class of AI systems that responds to human language (Texts). It is called "Natural Language Processing," or NLP for quick. It is manufactured from an entire chain of innovations that began in 2017 with a new AI architecture.

In the subsequent years, the first AI fashions evolved primarily based on this structure that reached human-degree language understanding. In the ultimate years, the models learned to write and even have complete conversations with the consumer using ChatGPT.

Chat GPT stands out for generating credible and appropriate responses to user requests compared to other models. CharGPT can write programs, add comments to programs,

In addition to ChatGPT, there are many different language fashions in distinct forms: open source, proprietary, with dialog alternatives, or other abilities. It has become apparent that those abilities continued to develop with larger fashions and extra (specifically extraordinary) facts.

Unlike at the start predicted, there appears to be no higher limit. Conversely, the larger the models, the more abilities they gain!

These linguistic capabilities and the flexibility of ChatGPT are excellent, but using such large fashions is only sometimes precisely resource-friendly. Large models like ChatGPT are operated via external vendors who price every request to the model.

Report on VOLLYBALL

The Sri Siddhartha Medical College has organized its annual sports Volleyball Tournament at University level on 10.8.2021. In this sports all constituent colleges of Sri Siddhartha Academy of Higher Education are participated. More than 10 Teams are participated in this Tournament .

Though the student did not have enough time to practice before the event due to heavy rain but they were ready to play with full energy. At the SSMC Ground after warm up and a short practice the match started at 9:30a.m. In qualifying round our school won in oppose of the ECE team one more time.

After the quarter final and semi-final match we were in the finals. They were very confident but the team which was in the final was very good. Their players were much trained and they had practiced well. Their quarterfinal and semifinal matches their performance was awesome. As their team was last year state champion the perfection was seen in their matches. Tension was there in the mind of our players that what to do, but our coach Santhosh motivated the players that play with confident and do their best.

And finally the final match started, as they were experienced player the perfection was seen in their game. Our player's Guru, and one player from CSE which was selected and playing with us were continuously attacking but their defense was hard and tight. As a result in 1st round we lost with the score 25/17 in second round we tried harder but we were not cope up to defend and as a result we again lost by 25/13. As being runner up we got the advantage and our six players were selected in state level Volleyball competition.

Report on YANTRIK

(Annual Programme of Mechanical Engg and IEM)

Yantrik-2018 is a department fest organized by the Mechanical Engineering Association (MEA) in association with the department of IEM, to serve as a platform for showcasing the inherent and hidden talents of our students in both co curricular and extracurricular activities. It is celebrated every year midway during their academic calendar in the even semester.

This year, **Yantrik-2020** began with release of the association's **POSTER/SOUVENIR** on **24.6.2021** at 10AM in the presence of our principal Dr. M.S.Raviprakash, chief guest Mr. V Siddharth, HOD, staff and students of mechanical and IEM departments. The event took place near the Main Circle, SSIT Campus.

The inaugural function began soon after at 10:30AM with the chief guest of the day Mr. V Siddharth, Business Head, Madhur Industrial & Allied Solutions, Bangalore, by watering the plant. Later Mr. V Siddharth addressed our students and gave a technical talk on "**Career Opportunities in Industry for Mechanical / IEM engineers**".

As part of the inaugural function, student toppers from 1st year to final year of mechanical and 1st and final year IEM were honored with prizes. The inaugural function which concluded at 12 Noon was followed by a **Bike-Rally** of our students in the campus.

An **AUTO-EXPO** was arranged in the campus sponsored by the Indian automotive giants MARUTI-SUZUKI Ltd., and Mahindra & Mahindra Ltd. The two companies had set up stalls where their entire range of vehicles were on display and sale. In addition Maruti Suzuki had arranged a free general check up camp for all their vehicles. Working Lunch was arranged for all the staff and students of ME & IEM in the afternoon.

Report on Annual Cultural Day

The Sri Siddhartha Dental College has organized its annual cultural program on 17.6.2021 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The auditorium had been set up in a grandeur arrangement. All the gates were covered with flowers and beautiful lights. At 10:30 in the morning the program started with an inauguration by the honourable Vice chancellor Dr.Balakrishna shetty and the chief guest, Sri Ganapa Music director. Then an opening musical presentation made the audience feel the warmth.

The last performance was immensely intense as it was dedicated to the social workers who are dedicating their life every day to bring positive changes to the world. After the end of the traditional cultural programs by the students, a special surprise of an authentic Kuchipudi performance was presented. It gave a delightful ending to the evening.

Report on Ayadhapooja

Rangoli Competition

The Sri Siddhartha Dental College has organized its annual cultural program on 17.11.2021 in the college auditorium. This is the most awaited day for all the students of the college. All the students were present in the program.

The principal goddesses worshipped during the Ayudha Puja are Saraswati, the goddess of learning, Lakshmi, the goddess of prosperity, and Parvati, the goddess of power. On this occasion, the implements employed by people of various professions and walks of life are customarily venerated, such as the weapons of a soldier, tools of an artisan, and the books of a student. The religious significance of this occasion is to commemorate the victory of the goddess Durga over Mahishasura, or the conquest of Lanka by Rama. In South India, the occasion is primarily dedicated to Saraswati, with the practice of educational materials such as books, pens, pencils, musical instruments, and other equipment being venerated, to signify the victory of knowledge over ignorance.

On this occasion in our college we conduct Rangoli competition. Our University Vice-chancellor inaugurated this function. And all the students are participated in this competition. Prizes will be distributed to winners.

Report on best out of waste

The Sri Siddhartha Institute of Technology has organized its Annual Program "BEST OUT OF WASTE", on 12.6.2022 in the college Premises. All the Students are participated.

The motion "BEST OUT OF WASTE" in itself refers to encourage reuse of wastes. In our homes, there are many clothes which lie unworn. Based on the thinking to reuse these clothes and reuse the waste products our team collaborated with Swacchta Action Plan and decided to make cloth bags which would rather help to replace plastic bags, used in homes and to increase the awareness about the environment among the people. Eco-club play an important role in creating environmental awareness amongst the students and these are the means by which students can be empowered to participate and take up meaningful environmental activities and projects. Preparation of Eco- friendly product out of waste material forms an important part of Eco-club as it enables us to make the useless things more useful. So our Ecoclub team not only make various things like cloth bags, wall hangings, face mask, wall decorations, flower pots, paper bags etc. and also create awareness among students through Whassaap, Facebook etc. to use the waste products in best possible way

Report on cooking competition

Sri Siddhartha Dental college is conducting Cooking Competition without fire on 2.9.2021 at College premises. All the Students are participated.

Cooking competitions are a thrilling way to showcase culinary skills and creativity. Recently, I had the opportunity to attend a cooking competition and witness some of the most talented chefs in action. The competition was held in a state-of-the-art kitchen, with all the necessary equipment and ingredients provided to the participants. In this essay, I will provide a descriptive account of the competition, including the venue and setup, the cooking process, and the final dishes.

The competition took place in a large kitchen with multiple cooking stations. Each station was equipped with the latest cooking appliances, including gas stoves, ovens, and blenders. The participants were provided with a wide range of ingredients, including fresh vegetables, meats, and spices. The kitchen was well-lit and ventilated, creating an ideal environment for the chefs to work in. The setup was well-organized, with each station labeled and numbered for easy identification.

The cooking process was intense and captivating. The chefs were given a limited amount of time to prepare their dishes, adding to the excitement and pressure of the competition. The contestants used a variety of cooking techniques, including grilling, baking, and frying. Each chef incorporated unique flavors and ingredients into their dishes, making them stand out from the rest. Some contestants even used unconventional ingredients, such as edible flowers and exotic fruits, to create a truly unique culinary experience.

Report on DOCTORS DAY

The Sri Siddhartha Medical college has organized its International Doctors day Program on 1st July 2022 in the college auditorium Nagarajuna Hall. All the students were present in the program.

International Doctor's Day was first observed in order to pay respect to the legendary physician and Bengal's former Chief Minister, DrBidhan Chandra Roy, to recognize and appreciate his contributions in the field of medicine.

Roy played an important role in the establishment of the Medical Council of India and the Indian Medical Association. He was born on July 1, 1882 and passed away on July 1, 1962. Roy was awarded with the Bharat Ratna, which is considered India's highest civilian award.

On National Doctor's Day, we say 'thank you' to our doctors and nurses, and health workers for all that they do for us and our loved ones.

Historically, a card or red carnation was sent to all doctors and nurses and also to their families, along with a flower being placed on the graves of deceased physicians. If you want to thank the medical staff, then you can show your appreciation by doing any of the below-mentioned stuff:

- Say 'Thanks' to your doctor and medical staff
- Pledge to donate your organs
- You can offer a service to them.
- Donate, and also encourage others to do so
- Send them a thank you card and flowers
- Shoot a video for them and post it on your social media.

Report on Dr. H M Gangadhariah memorial badminton tournament

Sri Siddhartha Medical College is organised State level Badminton Tournament to the medical students at college premises on 12.2.2022. More than 20 Teams are participated.

SRI SIDDHARTHA EDUCATION SOCIETY (SSES) was founded by late Sri H M Gangadhariah also the founder secretary of the society, with the blessings of saint and seer, the father of "Bhoodan movement" Sri VinobhaBhave in 1959, has made a leap in the field of education.

Sri Gangadhariah feels that the world is on the brink of disaster and only two group of persons can save the world, Ideal mother and Ideal Teachers. Only such persons can produce future citizens who can reform the demoralized society and preserve human values. Therefore, the responsibilities of the teaching community is instrumental. They are the architects of the nation and torch bearers of civilization. Education for character building is the need of the hour and it was the fervent desire of His Holiness to start good college of education to prepare quality teachers to function at the secondary school level.

Leadership always plays a vital role in this process and was carefully nurtured. The Society is fortunate enough to have two illustrious sons of the founder who are equally zealous and committed to the founder's goals. Dr. G. Shivaprasad, an eminent Ophthalmologist, was the Founder Secretary and Dr. G. Parameshwara a reputed agriculture Scientist is the Secretary of the Society.

In the memory of Dr.H.M.Gangadhariah university conducts University level Badminton Championship tournament. All the constituent colleges are participated.

Report on ELECTROTECH

(Annual programme of ECE, TCE and MLE Association)

Sri Siddhartha Institute of Technology is conducting the Annual programme ELECTROTECH for the departments of Electronics & Communication Engineering, Tele-Communication Engineering and Medical Electronics Engineering Students on 26.7.2022. Our Principal Dr.M.S.Raviprakasha Inauguration the function.

Digital 3D imaging can benefit from advances in VLSI technology in order to accelerate its deployment in many fields like visual communication and industrial automation. High-resolution 3D images can be acquired using laser-based vision systems. With this approach, the 3D information becomes relatively insensitive to background illumination and surface texture. Complete images of visible surfaces that are rather featureless to the human eye or a video camera can be generated. Intelligent digitizers will be capable of measuring accurately and simultaneously colour and 3D.

Report on Engineers Day

Sri Siddhartha Institute of Technology is organised Engineers Day Every Year. On 15.9.2022 we celebrate Engineers day at our college Campus.

Engineering is not merely the possession of the capacity to get elegant solutions to non-existent engineering problems, engineering is practicing the art of the organized forcing of technological change. In remembrance of Sir Mokshagundam Vishweshwarayya, the most outstanding Engineer of all times, the engineering fraternity of India celebrates "Engineer's Day" every year on 15th September to identify the great works done by our hard working engineers.

The program was inaugurated by lighting the lamp by the dignitaries on the dias at the auditorium in the college premises. This Program was organized by Electronics & Communication Engineering Department.

More than 50 students showed their participation in the various events and few of them had delivered speeches. The great enthusiasm and participation shown by student were highly appreciated by all the staff members.

Report on ETHNIC WEAR COMPITITION

The Sri Siddhartha Medical college has organized to students to ETHNIC WEAR COMPITITION is conducted on 2.12.2021. Principal is inaugurated the function. And all students are participated and enjoyed.

India boasts of a rich and ancient textile and clothing heritage that has continued to evolve through time. While the nation is taking big strides towards modernization, its citizens are still traditionalists at heart, especially when it comes to expressing their culture and heritage through fashion.

Traditionally, ethnic wear in India was largely derigueur for occasions, festivals and weddings. But in the course of time, as functionality and comfort started taking a cente rstage in fashion, the entire template of ethnic wear was subjected to a thorough overhaul. Especially in the women's section, the category today covers a wide spectrum of sartorial elegance — from inherently classic to more contemporary avatars; from everyday wear, festive wear to ensembles that befit even corporate boardrooms.

“Customers love pure ethnics as occasion wear, but with the emergence of fusion wear, they have found something that they can fl aunt on a daily basis. The fusion wear category includes myriad ensembles right from kurtis, kameez and tunics, etc., which can be paired with fitted pants, tides, palazzos and even long skirts.

Report on HMG Drawing competition

(State level compitition)

Sri Siddhartha Institute of Technology is conducting H.M.Gangadharaiah Memorial State level Drawing Competition to the students. More than 3000 students from LKG to High School Students from different schools were participated. This will conduct every Year December 1st Saturday(2.12.2021).

Dr. H M Gangadharaiah, an art teacher is the architect of this premier society. He was blessed by Mahatma Gandhi and Vinobabhave. Sri HMG and was inspired by Vinobha Bhave's thoughts and he blessed Sri HMG "May you be a staunch social worker and may this Gollahalli be a Shanthinikethan". Let your honesty be a beacon for your efforts. The blessing of Sri Vinoba bhave was lingering in the mind of Sri HMG and he made up his mind to give education to the needy and thus established Sri Siddhartha Educational Society named after a great philosopher, Sri Goutama Buddha.

1. To bring out the creative expression, artistic skills of the students and also to gauge their awareness quotient,
2. The aim of this competition was not merely to see the creative aspect but also to trigger the thought process of the students and sensitize them towards these burning & serious issues such as violence against women.
3. Competitions of the sort increase the observational skills, response to thoughts, awareness and concern of the students towards global issues.

Report on INDEPENDENCE DAY

The Independence Day was celebrated with great enthusiasm by all the students of the school. The students cleaned their classrooms and decorated them with colourful balloons and ribbons. Pictures of our great leaders and freedom fighters were placed on the notice board. Later, students presented patriotic songs and poems. There were speeches by teachers, the Principal, and the chief guest. Then the chief guest inaugurated an exhibition on our freedom struggle and our freedom fighters. There was a feeling of pride and patriotism in everyone's heart. The program was concluded with a vote of thanks. At the end, sweets were distributed to the students.

Sri Siddhartha Medical college: Our Principal Dr.Srinivas murthy hoisted the National Flag. Then we all saluted the flag and sang our National Anthem together. NCC Students will show the NCC training abilities.

Sri Siddhartha Institute of Technology: Our Principal Dr.M.K.Veeraiah hoisted the National Flag. Then we all saluted the flag and sang our National anthem together. NCC students are participated.

Sri Siddhartha Dental College: Our Principal Dr.Kashinath hoisted the National flag. Then we all saluted the flag and sang our national anthem together.

Report on INTERNATIONAL WOMENS DAY

Sri Siddhartha Medical College is Conducting a INTERNATIONAL WOMENS DAY under the IQAC Cell(Internal Quality Assurance Cell). All the Constituent colleges are conducting in their college premises on 6.4.2022.

History of Women's Day. International Women's Day is celebrated in many countries around the world. It is a day when women are recognized for their achievements without regard to divisions, whether national, ethnic, linguistic, cultural, economic or political.

If women are unable to access the Internet and do not feel safe online, they are unable to develop the necessary digital skills to engage in digital spaces, which diminishes their opportunities to pursue careers in science, technology, engineering, and mathematics (STEM) related fields. By 2050, 75% of jobs will be related to STEM areas. Yet today, women hold just 22% of positions in artificial intelligence, to name just one.

Bringing women into technology results in more creative solutions and has greater potential for innovations that meet women's needs and promote gender equality. Their lack of inclusion, by contrast, comes with massive costs. The world comes together for International Women's Day (IWD) on March 8 to celebrate women's achievements and reinforce a commitment to women's equality. **12 Wonderful women's day activities in office to motivate and encourage your female employees**

1. Host a panel discussion
2. Networking event
3. Mentorship program
4. Inspirational speakers
5. Charity drive
6. Dress-up day
7. Training sessions
8. Employee recognition
9. Art competition
10. Lunch and learn
11. Women's Day newsletter
12. Social media campaign

Report on KALOTSAVA

Sri Siddhartha Institute of Technology has been conducting a state level Cultural Program Kalotsava on 24.5.2022. In this event, students of different colleges of the state have participated. Three days Cultural fest has been conducted with different activities in this program. Cultural Programming is a powerful tool that establishes creative place making for a specific locale. It has been shown to help vitalize communities by increasing economic investment and strengthening social ties among residents, while also affirming the identity and core values of a Institute.

Our College KALOTSAVA Day programs are a feast to the eye of the viewers. The College Kalostava Day is celebrated in an astonishing way for the students to exhibit their talents effectively. The students perform their creative ideas in the form of Dazzling dances, motivating skits, mind blowing mimes are few of the programs that entrance the audience. The highlight of the day is the musical performance of the college orchestra.

Participating in cultural events not only benefits the person in many ways but also the family and the community

Physical benefits: Students engage in physical activity when theyb engage in activities like moose hunting or dancing. It is commonly recognised that regular exercise is good for body and can prevent a variety of illnesses and health issues. Eating traditional or cultural meals has significant advantages as well.

Mental health benefits: It is well recognised that cultural connection has a significant role in lowering the risk of mental health conditions like depression and addictive behaviours. Each year, more studies are published that demonstrate how much less probable it is for people to experience issues with substance misuse, depression, or suicide when they have stronger ties to their families and cultures.

Spiritual benefits: The majority of cultural activities promote the wellness of the whole individual by promoting gratitude for what has been given and earned, sharing, respect for the environment, and honouring those who have taught us.

Emotional benefits: A formula for excellent emotional health includes participating in passed-down customs, doing physical exercise, improving one's mental health, and interacting with others. Having a cultural component might boost your happiness and satisfaction because talking and other social activities are already known to stimulate endorphins, which improve mood.

Report on National Chess competition

Sri Siddhartha Academy of Higher Education is conducting a National level Chess Tournament on 20.4.2022, which is a series of chess games played. Competitively to determine a winning individual or team.

The time control for each game in the classical portion of the match will be 120 minutes per side for the first 40 moves, 60 minutes for the next 20 moves, and 15 minutes for the rest of the game, with a 30-second increment per move starting with move 61.

The match is best of 14 games; a score of at least $7\frac{1}{2}$ would win the world championship. If the score is equal after 14 games, tiebreak games with faster time controls will be played:

- A match consisting of 4 rapid games with 25 minutes per side and a 10-second increment starting with move 1 will be played. If a player scores $2\frac{1}{2}$ points or more, he would win the championship.
- If the score is equal after the rapid portion, a mini-match of two blitz games will be played, with a time control of 5 minutes per side and a 3-second increment starting with move 1. If a player scores $1\frac{1}{2}$ points or more, he would win the championship. If the blitz mini-match is tied, another mini-match with the same conditions will be played to decide the winner of the championship.
- If both blitz mini-matches are tied, a single game with a time control of 3 minutes per side and a 2-second increment starting with move 1 will be played, and the winner would win the championship. A drawing of lots shall decide which player plays with the white pieces. If this game is drawn, another blitz game with reversed colours will be played with the same time control, and the winner would win the championship. This process will be repeated until either player wins a game.

Players are not allowed to agree to a draw before Black's 40th move. A draw claim before then is only permitted if a threefold repetition or stalemate has occurred.

Report on NIRMAAN

(Annual program of Civil Engg))

Sri Siddhartha Institute of Technology is organizing a state level Program called NIRMAAN on 26.9.2022. Which is basically helpful in construction of new technology buildings with modern aids.

The first straw-bale structures we know of were built about a hundred years ago by European settlers in the Sand Hills of Nebraska. Having little other means to shelter themselves, they were driven by necessity to improvise. Using the newly invented steam- and horse-powered balers, they baled the grasses that surrounded them, stacked the bales to form walls, and applied mud or cement plasters inside and out. Some of those homes still exist and are in good shape, as are a few more that were built in Nebraska and Wyoming over the subsequent decades. A revival in straw-bale construction began in the American West in the 1980s and has now spread all over the world.

Fiber Reinforced Cement as a material made from hydraulic cement and discrete, discontinuous fibers (containing no aggregate). Fiber reinforced concrete (FRC) is made with hydraulic cement, aggregates of various sizes, incorporating discrete, discontinuous fibers. Both are firmly established as a new construction material. Steel fibers and synthetic fibers find applications in civil engineering on a larger scale by virtue of their inherent advantages; it is of interest to note that the performance of concrete can be enhanced through the employment of these micro-reinforcements in a hybrid form.? The volume of data available on the performance studies of hybrid fiber reinforced concrete appears to be inadequate for a better understanding the investigation, it is proposed to combine these fibers at different proportions in the beam structural elements and engineering properties and performance are being investigated. The necessity for the addition of fibers in structural material is to increase the strength of the concrete and mortar and also to reduce the crack propagation that mainly depends on the following parameters.

Report on ONAM Celebration

Sri Siddhartha Medical College is organizing ONAM Celebration, which is at national level. ONAM is an ancient Hindu festival of Kerala that celebrates rice harvest. The significance of the festival is in Indian culture, of which two are more common Cultural events will be celebrated.

Onam commemorates King Mahabali and Vamana. According to Hindu legends, Onam is celebrated in Kerala in remembrance of the good governance under the rule of daitya king Mahabali, a mythical king who once ruled Kerala. The legend holds that jealous of Mahabali's popularity and his power, the devas and gods conspired to end his reign. They sent Vamana to earth in the form of a dwarf Brahmin who trampled Mahabali to patala. Vamana asked Mahabali for three feet of land as his wish from the generous Mahabali. Since denying gifts to Brahmin is considered a sacrilege, Mahabali agreed to fulfill Vamana's wish. In the first two feet Vamana measured the entirety of universe, leaving nowhere to place his third foot. Mahabali offered his own head to place his third feet making the wish complete. However, witnessing Mahabali's generosity, Vishnu granted the king's sole wish to visit his land and people once every year. This homecoming of Mahabali is celebrated as Onam in Kerala every year

Report on Rajyotsava

(Regional level event of Karnataka)

Sri Siddhartha Medical College is celebrating Kannada Rajyotsava, also known as Karnataka Formation Day or Karnataka Day, is a state public holiday and celebrated on 1 November of every year.

All Constituent colleges of Sri Siddhartha Academy of Higher Education were celebrated Kannada Rajyotsava in their premises every year on 1st November.

Karnataka was formed on this day, hence this day is also known as Kannada Day, Karnataka FormationDay or Karnataka Day. Rajyotsava means the birth of a state. In 1956, a state was created by merging all the Kannada speaking regions in India, which was named as Karnataka. The spoken language was Kannada This day is considered the most special day for all the Kannada people in karnataka.

On this day, people of Karnataka wear their traditional clothes and also hoist their state flag, which is red and yellow. The people there also sing the Kannada Anthem ("Jaya Bharatha Jananiya Tanujate"). The state government awards people who contribute to the development of Karnataka. The Chief Minister inaugurates the function of the State which is held at Kanteerava Stadium, Bengaluru. This Rajyotsava is celebrated by all religions Hindu, Muslims and Christians. Not only in Karnataka but also in many parts of India this day is celebrated.

Report on REPUBLIC DAY

Sri Siddhartha Academy of Higher Education is celebrating Republic day celebrated on 26th January of every year. The day is celebrated with pomp and show, zeal and spirit, throughout the length and breadth of the country. The day was celebrated in our Institute with great eclat. The Institute building was tastefully decorated with flower-pots, buntings, pictures of heroes of the freedom movement and national flags. . The programme started with paying respect to the motherland by unfurling of National Tri colour The students enthusiastically participated in a variety of programmes like Song, Dance, Skit and speech.

Twenty Sixth January holds an everlasting place in our national memory because it is the day when modern India was born. The development journey of India over the years has been marked by significant milestones and reforms that enabled it to achieve substantial progress in many areas including rise in income levels, growth in literacy, life expectancy and a wide variety of other economic indicators. The presentation of success story of our country made everyone proud and developed a sense of solidarity.

Report on SAMARTHYA

(State level programme by SSIT IEEE Chapter)

Sri Siddhartha Institute of Technology is conducting a Program SAMARTHYA for student on 26.5.2022. SSIT-IEEE Chapters are a technical subunit of a Region, one or more Sections or a Geographic Council. There may be single Society Chapters, joint Society Chapters, and Technical Council Chapters.

A Chapter shall comprise a minimum of twelve (12) IEEE voting members of a Society, or group of Societies in the case of a joint chapter, and shall be established by petition to the parent geographical and technical organizational units concerned to fulfill the mission of IEEE. In the case of a Technical Council Chapter, a minimum of any twelve (12) IEEE voting members of Council Member Societies in the parent geographical unit shall be required to petition to the geographic unit and to the Technical Council. Chapters are formed to serve IEEE members by holding meetings at the local level, and provide opportunities to network, enabling personal and professional growth.

There are three different paths one can take to develop an IEEE Chapter: form a new Chapter, form a new joint Chapter, or expand an existing Chapter. Start by researching your area, then decide which route will best suit your needs and support a healthy, active Society/Technical Council Chapter environment.

Report on SIDDHARTHA PREMIER LEAGUE(SPL)

(CRICKET TOURNAMENT)

Sri Siddhartha Institute of Technology is organizing a premier Cricket Tournament SPL on 2.5.2022. In this different Branch Students are Participated with different teams.

A team can acquire players through any of the three ways: the annual player auction, trading players with other teams during the trading windows, and signing replacements for unavailable players. Players sign up for the auction and also set their base price, and are bought by the franchise that bids the highest for them. Unsold players at the auction are eligible to be signed up as replacement signings. In the trading windows, a player can only be traded with his consent, with the franchise paying the difference if any between the old and new contracts. If the new contract is worth more than the older one, the difference is shared between the player and the franchise selling the player. There are generally three trading windows—two before the auction and one after the auction but before the start of the tournament. Players cannot be traded outside the trading windows or during the tournament, whereas replacements can be signed before or during the tournament.

Report on Sports meet(SSIT)

Sri Siddhartha Institute of Technology is Organising Sports meet to their students on 17.3.2022. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers. Sports not only contribute to shaping your personality but also impact your academic performance significantly.

There have been many studies proving that students involved in sports during their college life perform better in academics. Reasons for this can be many, as sport teaches you the skills of time management and also act as a stress buster when you are loaded with too many assignments and deadlines. Students need to take a break from their daily routine to ensure that they have stable mental health. And what better way than involving yourself in sports, to take that much-needed break? Such productive breaks enhance your capacity to think, learn, focus, and contribute to academics. Being fit mentally and physically is essential.

By having sports as your hobby, you can boost your mental health and also learn to maintain a balance between your curricular and co-curricular activities. It enables you to be emotionally strong as sports lets you experience various emotions like success, failure, happiness, disappointment, etc. When you are involved in sports, you exercise daily to maintain your stamina and physical fitness. Daily exercise helps in reducing stress and makes you feel positive about yourself.

At SSIT, our culture is to provide holistic growth to our students, and therefore, apart from excellent infrastructure, we also have dedicated student support services that support the mental well-being of students.

Report on Sports meet

Sri Siddhartha Medical College is Organising Sports meet to their students on 06-07-2022 to their Students. When students are participating in any sports matches or competitions, then they need good teamwork, cooperation, and coordination. Learning these skills during sports activities also helps them in various phases of their life, like in academics or future careers.

In addition to that, sports and games are known to develop the students holistically. They enhance the personality of individuals by imparting various traits in them. Sports are said to boost alertness, discipline, team spirit, mental ability, confidence and concentration of a student. A student's life is no less than a rollercoaster. In addition to learning new skills and exploring various opportunities, a student has a lot to deal with in terms of assignments, practicals, exams, internships, workshops, lectures, and much more, essential to ensure optimum academic development. Amidst the busy schedule, it is very important to take a break to refresh oneself. This is where extracurricular activities play a vital role. These activities, during college life, keep you positive, fresh, energetic and go a long way in making you more productive. Not only do they lighten your mood, but they also help in shaping your overall personality and interpersonal skills.

Besides effective communication, these interactions help you become a multi-tasker as you start realizing the importance of striking a balance between work and personal life. You will also learn the skill of time management as you gradually learn to manage time between your lectures, assignments, academics, and sports. While playing a sport you come across various situations that require quick decision-making which will be crucial for you and your team. Encountering such situations not only makes you proactive but also makes you a good decision-maker, a great team player, and even a good leader.

Report on TANTRA

(State level event by SSIT ISTE Chapter)

PROJECT EXHIBITION was organized by the Department of Computer science and Engineering, on 11.6.2022. Final year students are participation of this exhibition.

Major objective of organizing this exhibition was to provide the platform and unleash the potential of the students by showcasing their innovative projects developed in the Final Year either as Industry Defined Problem or User Defined Problem and provide an opportunity for the students to demonstrate their learning experience.

The outcome of the PROJECT EXHIBITION was that students were able to show their project at higher level and the process boosted their confidence.

The inaugural of the project exhibition witnessed the presence of Dr.M.K.Veeraiah R, principal, SSIT the faculty and staff members of Department of CSE,

Dr.M.Siddappa, HOD, ISE Department formally welcomed the principal of SSIT,

Dr. M.K.Veeraiah, principal, RRCE, in his motivational address emphasized on the importance of learning new technologies and tools for the students.

Report on TECHNODEA

(National level project competition and exhibition)

Sri Siddhartha Institute of Technology was organised a National level project competition and exhibition to the students named TECHNODEA on 26.5.2022. This competition will conduct every year. In this exhibition more than 175 students are participating and exhibit their talent.

In other words “ChatGPT is a massive language model trained to utilize OpenAI to apprehend and generate natural language. It uses deep getting-to-know and synthetic intelligence generation to conduct human-like customer conversations.”

ChatGPT is the modern representative from a class of AI systems that responds to human language (Texts). It is called “Natural Language Processing,” or NLP for quick. It is manufactured from an entire chain of innovations that began in 2017 with a new AI architecture.

In the subsequent years, the first AI fashions evolved primarily based on this structure that reached human-degree language understanding. In the ultimate years, the models learned to write and even have complete conversations with the consumer using ChatGPT.

Chat GPT stands out for generating credible and appropriate responses to user requests compared to other models. CharGPT can write programs, add comments to programs,

In addition to ChatGPT, there are many different language fashions in distinct forms: open source, proprietary, with dialog alternatives, or other abilities. It has become apparent that those abilities continued to develop with larger fashions and extra (specifically extraordinary) facts.

Unlike at the start predicted, there appears to be no higher limit. Conversely, the larger the models, the more abilities they gain!

These linguistic capabilities and the flexibility of ChatGPT are excellent, but using such large fashions is only sometimes precisely resource-friendly. Large models like ChatGPT are operated via external vendors who price every request to the model.

Report on VOLLYBALL

The Sri Siddhartha Medical College has organized its annual sports Volleyball Tournament at University level on 10.8.2022. In this sports all constituent colleges of Sri Siddhartha Academy of Higher Education are participated. More than 10 Teams are participated in this Tournament .

Though the student did not have enough time to practice before the event due to heavy rain but they were ready to play with full energy. At the SSMC Ground after warm up and a short practice the match started at 9:30a.m. In qualifying round our school won in oppose of the ECE team one more time.

After the quarter final and semi-final match we were in the finals. They were very confident but the team which was in the final was very good. Their players were much trained and they had practiced well. Their quarterfinal and semifinal matches their performance was awesome. As their team was last year state champion the perfection was seen in their matches. Tension was there in the mind of our players that what to do, but our coach Santhosh motivated the players that play with confident and do their best.

And finally the final match started, as they were experienced player the perfection was seen in their game. Our player's Guru, and one player from CSE which was selected and playing with us were continuously attacking but their defense was hard and tight. As a result in 1st round we lost with the score 25/17 in second round we tried harder but we were not cope up to defend and as a result we again lost by 25/13. As being runner up we got the advantage and our six players were selected in state level Volleyball competition.

Report on YANTRIK

(Annual Programme of Mechanical Engg and IEM)

Yanthrik-2018 is a department fest organized by the Mechanical Engineering Association (MEA) in association with the department of IEM, to serve as a platform for showcasing the inherent and hidden talents of our students in both co curricular and extracurricular activities. It is celebrated every year midway during their academic calendar in the even semester.

This year, **Yanthrik-2021** began with release of the association's **POSTER/SOUVENIR** on **24.6.2022** at 10AM in the presence of our principal Dr. M.S.Raviprakash, chief guest Mr. V Siddharth, HOD, staff and students of mechanical and IEM departments. The event took place near the Main Circle, SSIT Campus.

The inaugural function began soon after at 10:30AM with the chief guest of the day Mr. V Siddharth, Business Head, Madhur Industrial & Allied Solutions, Bangalore, by watering the plant. Later Mr. V Siddharth addressed our students and gave a technical talk on "**Career Opportunities in Industry for Mechanical / IEM engineers**".

As part of the inaugural function, student toppers from 1st year to final year of mechanical and 1st and final year IEM were honored with prizes. The inaugural function which concluded at 12 Noon was followed by a **Bike-Rally** of our students in the campus.

An **AUTO-EXPO** was arranged in the campus sponsored by the Indian automotive giants MARUTI-SUZUKI Ltd., and Mahindra & Mahindra Ltd. The two companies had set up stalls where their entire range of vehicles were on display and sale. In addition Maruti Suzuki had arranged a free general check up camp for all their vehicles. Working Lunch was arranged for all the staff and students of ME & IEM in the afternoon.
