## Department of Computer Science and Engineering

### Analysis of Parent Feedback on Curriculum : 2019-20

Level : UG

Sl.No.	Particulars	Feedback points in %			
		I year	II year	III year	IV year
1	Holistic development of students is ensured by participation of students in various sports, cultural and co-curricular activities organized throughout the year.	74.07	77.77	71.87	88.88
2	The academic flexibility is embedded in the curriculum providing opportunities to students to pursue their interest by a subject of his/her interest through electives.	64.8	81.48	77.77	75.5
3	Courses in the curriculum promote Entrepreneurship and students are encouraged to participate in various awareness campaigns and blood donation drives, exhibitions on socially relevant issues, etc.	87.03	87.03	90.7	82.2
4	The curriculum has been designed to make students industry ready by imparting analytical and reasoning, language and soft skills in addition to technical competences, as desired by the industry.	79.62	94.44	87.03	93.3
5	The curriculum is outcome based and the expected outcomes, through various courses, are attained	83.33	96.29	98.14	97.7

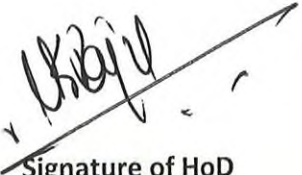

#### General observations:

- All the points in the feedback have received positive response; however point no.2 has received relatively less compared to other points.

#### Suggestions:

- This point will be discussed in the next BOS (Board of Studies) and appropriate changes in the curriculum can be done to overcome this.

### Analysis of Teacher Feedback on Curriculum : 2019-20

Level : UG/PG

Semester: 2/4/6/8/M.Tech-2

Maximum points: 24

Minimum Points : 50% (12marks)

List of Subjects that have received feedback points less than 50%

Subject Code	Subject Title	Feedback points in %
18CS404	Operating System	44
CS6T02	System Software and Compiler Design	40

General observations:

1. Faculty handling 18CS404 and CS6T02 have expressed that the size of the syllabus is immense in terms of the contents.
2. Faculty feel there is no good balance between theory and Applications for the above mentioned courses.

Suggestions:

1. From the feedback received from the Faculty it is found that the contents of 18CS404 and CS6T02 are hefty and hence it is recommended to reduce the syllabus of 18CS404 and CS6T02 during the next syllabus revision by the BoS.

## Department of ECE

### Analysis of Student Feedback on Curriculum : 2019-20

Level: UG

Semester: 4

Total number of students: 101

No. of feedback forms received: 44

Maximum points: 24

Minimum Points: 50% (12marks)

List of Subject that have received feedback points less than 50%

Subject Code	Subject Title	Feedback points in %
18EC403	Fields and Waves	48%

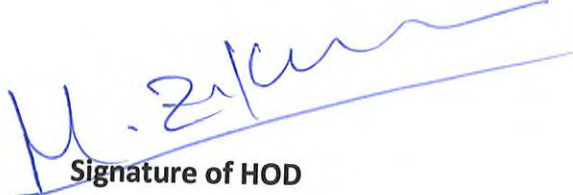

#### General observations:

The size of the syllabus in terms of the academic load is heavy and not sufficient preceding courses are covered.

#### Suggestions:

The present content of the syllabus takes more academic load/hours and going to review in the upcoming syllabus revision meeting in the department.

  
Dean (Academics)  
Sri Siddhartha Institute of Technology  
Maralur, Tumkur - 572 105.

## Department of ECE

### Analysis of Parent Feedback on Curriculum : 2019-20

Level : UG/PG

Semester: 4/6

Sl.No.	Particulars	Feedback points in %
1	Holistic development of students is ensured by participation of students in various sports, cultural and co-curricular activities organized throughout the year.	86%
2	The academic flexibility is embedded in the curriculum providing opportunities to students to pursue their interest by a subject of his/her interest through electives.	84%
3	Courses in the curriculum promote Entrepreneurship and students are encouraged to participate in various awareness campaigns and blood donation drives, exhibitions on socially relevant issues, etc.	73%
4	The curriculum has been designed to make students industry ready by imparting analytical and reasoning, language and soft skills in addition to technical competences, as desired by the industry.	88%
5	The curriculum is outcome based and the expected outcomes, through various courses, are attained	80%

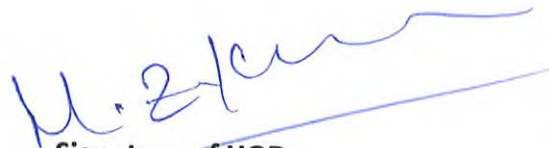

#### General observations:

Most of the parents suggested, put more number of courses in the curriculum to promote students in participating in various awareness campaigns (Placement Drives) and Entrepreneurship.

#### Suggestions:

Department of ECE happily accepted the parent's opinion and to fulfil above observations, the department increase the value added courses/training programs/workshops etc.

### **Program Outcomes (POs):**

**PO1: Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization for the solution of complex engineering problems

**PO2: Problem analysis:** Identify, formulate, research literature, and analyse complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.

**PO3: Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for public health and safety, and cultural, societal, and environmental considerations.

**PO4: Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

**PO5: Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools, including prediction and modeling to complex engineering activities, with an understanding of the limitations.

**PO6: The engineer and society:** Apply reasoning informed by the contextual knowledge to assess Societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

**PO7: Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

**PO8: Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.

**PO9: Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

**PO10: Communication:** Communicate effectively on complex engineering activities with the engineering community and with the society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

**PO11: Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

**PO12: Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

**Program Specific Outcomes (PSOs):**

**PSO 1:** Able to demonstrate the uses of knowledge by writing programs and integrate them with hardware/software products in multidisciplinary environment.

**PSO 2:** Able to participate in planning and implementation of solutions to cater the industry specific requirements.

## Employer Feedback on Curriculum

Name: SATHIQ  
Designation: DIRECTOR  
Organization: RPMC.

1 Whether the student shall be able to apply relevant techniques in their profession?

- i. Yes
- ii. No
- iii. Maybe

2 Do the syllabus / course cover the recent advances in the relevant domain?

- i. Yes
- ii. No
- iii. Maybe

(Please Add Revops)

3 Is the syllabus / course adequate enough to help students to solve real life problems?

- i. Yes
- ii. No
- iii. Maybe

4 Is the syllabus / course adequate enough to help students to handle projects independently?

- i. Yes
- ii. No
- iii. Maybe

5 Whether the student shall be able to apply relevant techniques in their profession?

- i. Yes
- ii. No
- iii. Maybe

Suggestions if any :

1) Students can practice presentations skills. Signature: Sathiq

2) overall good

Suggestion if any :

Internships should be taken care of by Institute as well. Signature: Prasad T.M.

## PARENT'S FEEDBACK ON CURRICULUM DESIGN AND IMPLEMENTATION

In order to get opinions of parents regarding the curriculum design and implementation we have taken feedback from parents of currently studying students. The following details are included in the feedback form. We take feedback from parents during their presence in the parents – teachers meeting.

1. Parent's Educational Profile : *Head Cook (mid-day meals).*

2. In tune with global trends :

The curriculum is in tune with the emerging national and global trends: (tick appropriately)

Agree	<input checked="" type="checkbox"/>
Disagree	<input type="checkbox"/>
Neutral	<input type="checkbox"/>

3. Industry competent courses :

The courses offered are in demand and industry competent,

Agree	<input checked="" type="checkbox"/>
Disagree	<input type="checkbox"/>
Neutral	<input type="checkbox"/>

4. Challenging projects / Internship :

Students are encouraged to take up challenging projects / Internship,

Agree	<input checked="" type="checkbox"/>
Disagree	<input type="checkbox"/>
Neutral	<input type="checkbox"/>

5. Capability to enhance competency

Curriculum is capable of enhancing the competency of the students,

Agree	<input checked="" type="checkbox"/>
Disagree	<input type="checkbox"/>
Neutral	<input type="checkbox"/>

Suggestion / Recommendation (if any):

*Best Place to learn.*

*Naganur*  
Signature

## PARENT'S FEEDBACK ON CURRICULUM DESIGN AND IMPLEMENTATION

In order to get opinions of parents regarding the curriculum design and implementation we have taken feedback from parents of currently studying students. The following details are included in the feedback form. We take feedback from parents during their presence in the parents – teachers meeting.

1. Parent's Educational Profile : *Business.*

2. In tune with global trends :

The curriculum is in tune with the emerging national and global trends: (tick appropriately)

Agree	<input checked="" type="checkbox"/>
Disagree	<input type="checkbox"/>
Neutral	<input type="checkbox"/>

3. Industry competent courses :

The courses offered are in demand and industry competent,

Agree	<input checked="" type="checkbox"/>
Disagree	<input type="checkbox"/>
Neutral	<input type="checkbox"/>

4. Challenging projects / Internship :

Students are encouraged to take up challenging projects / Internship,

Agree	<input checked="" type="checkbox"/>

**Alumni Feedback for Curriculum design and development**

Feedback of the Alumni is an essential component for analysis and improvement of the curriculum thought in the higher education academic culture. Once out of the formal structure, the Alumni can objectively talk about the challenges faced by them about the curriculum with special reference to its utility in the job market. The Alumni Committee of the department collects feedback form from the Alumni pertaining to the varied aspects of the curriculum studied. The feedback forms have been designed and shared with the alumni in the alumni meeting. They will provide responses, in which choices range from Disagree (1) to Strongly Agree (4). The feedback thus received is then analyzed by the Committee and used valuably for the development/refinement of the curriculum.

Sl No	Feedback Aspect	Excellent	Very Good	Satisfactory	Suggestions for Improvement
1	How well our curriculum is meeting the professional/ industrial needs ?			✓	
2	Opportunities got to pursue higher education in reputed institution			✓	
3	How do rate you the ability to do innovative design by the knowledge acquired by the course curriculum ?			✓	
4	Rate the extent to which exposure given to current trends , technology and tools			✓	
5	How well the managerial , communication skills and ethical values are helping in your professional growth?		✓		

Any General Suggestions: Syllabus should be updated based on the current industrial standards and requirements. Should focus more on campus recruitment and innovation, as currently all companies expect individual to renovate & reduce the manual work or the time spent in completing the tasks.

**VISION OF THE INSTITUTE:**

- "To carve technically competent, confident and socially responsible Engineers".

**MISSION OF THE INSTITUTE:**

- Mi1:** To impart fundamental knowledge in Science and Technology.
- Mi2:** To create a conducive ambience for better learning and to bring out creativity in the students.
- Mi3:** To instil managerial, entrepreneurial and soft skills.
- Mi4:** To evolve as trusted destination for quality technical education.
- Mi5:** Positive contribution to meet societal needs.
- Mi6:** To inculcate a spirit of enquiry, make learning perceptive and rational.

**Draft copy of Vision:**

- Statement – 01:** To train the students in information science and engineering who are capable of addressing the problem of industries and society.
- Statement – 02:** To develop skills among young IT engineers who are capable and work towards solving problems of IT industries and society at large.
- Statement – 03:** To imparts required knowledge to young engineers in the field of Information Technology who are confident and able to solve problems of industries.

**Draft copy of Mission:**

- M1:** Develop knowledge in information Science and Engineering field.
- M2:** Use ICT tools for better teaching learning.
- M3:** Develop soft skills and technical skills among the students.
- M4:** Promote managerial and entrepreneurship capabilities among students.
- M5:** Encourage students to go for higher education and research.
- M6:** Build capacity among students to learn on their own and inculcate rational thinking.
- M7:** Expose students to current IT trends and technologies.
- M8:** Use of IT knowledge to solve societal problems.
- M9:** Espouse better teaching – learning practices.
- M10:** To nurture young talents by providing adequate facilities.

**Draft copy of Program Educational Objectives (PEOs)**

- PEO1:** Provide basics in the field of Information Technology.
- PEO2:** Analyze and Design the solutions as per problem requirement and implement them using software engineering practices.
- PEO3:** Develop skills in web-based technologies and decision based system.
- PEO4:** To prepare graduate to take up higher education.

**PE05:** Instill Professional Ethics, Teamwork, Managerial skills, continuous learning capabilities to generate new knowledge.

**PE06:** To build solutions that caters the needs of industries and societal problems using knowledge based solutions or to become entrepreneur.

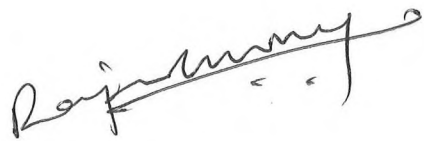

**Draft copy of Program Specific Outcome (PSOs)**

**PSO1:** Able to apply appropriate techniques for storage of huge amount of data and ensuring its integrity.

**PSO2:** Choose appropriate method for data acquisition from real world and propose suitable solutions to solve problems.

**PSO3:** Apply the knowledge and use in any modern tools to provide the solutions in the field of Security based applications.

**PSO4:** Build software systems for computers to solve real world problems.

to me

Dear Mala mam,  
Apologies for the late reply, had a busy week.

Thank you for giving me an opportunity to review and provide my thoughts on the curriculum.

I'm very happy to see that some of the latest technologies are being adopted in the syllabus. Subject perspective. Overall the curriculum and syllabus touches the different areas with enough details.

Along with the current syllabus, some of the following topics might help students understand the wid
