DEPARTMENT OF ORTHODONTICS

Group Discussion /Microteaching /SDL 2021-2022

Management of class III malocclusion.

Management of class III malocclusion group discussion was undertaken dated 26/04/2022 among 6 PG final year students posted in the department. Moderator for group discussion was Dr. Madhusudhan V.

Most of the times Class III malocclusion will be associated with genetic predisposition, so treatment options is different for growing and non-growing patients.

Students had discussion and benefited with

- Etiology of class III malocclusion
- Treatment options in growing patients with functional and orthopedic appliances
- Treatment options in adults cases with different surgical procedure

Department of Oral Medicine and Radiology

SELF DIRECTED LEARNING

A self directed learning activity has been scheduled to the final year students during Oral Medicine and Radiology theory class twice a year. Topic and reference material will be provided.

Guidelines for students

1. This will be an independent learning activity.
2. Topic will be provided.
3. Student is expected to search historic and current information about the topic, prepare a report and submit it within two weeks.
4. Students will be provided a priming scientific literature reference.
5. Reference materials for current literature should preferably be articles published in Scopus and Pub med indexed journals.
6. Reference material for historic information can be from textbooks and Wikipedia.
7. Student reports will be discussed individually.

DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY GROUP DISCUSSION/MICROTEACHING/SDL

Title: Local anaesthesia techniques

Date: 25/11/21

Objective:

3. To provide the participants a basic knowledge about Local anaesthesia
4. To train and educate the participants on the knowledge of Local anaesthesia, its applications and advances.

Significance:

Local anaesthesia is a mainstay of pain control for outpatient surgical procedures. Various techniques of local Anaesthesia administration has been put forth based on the site of surgical need, the procedure to be performed and the clinical situation of the patient.

Course Content:

4. Introduction to Local Anaesthesia
5. Techniques of local anaesthesia
6. Demonstration of LA techniques on model

Method of Content Delivery:

One – hour lecture class using power point was conducted to discuss about Local anaesthesia techniques followed by live demonstration on Model.

Teaching Aid:

Power point presentation for lecture class
Model and LA kit

Audience:

Under graduates who were willing to participate were included.

Resource person:

Dr. Marimallappa T R, Reader, Department of Oral and MaxilloFacial Surgery gave lecture.

Description:

One hour lecture class was given by the resource person.

Students were encouraged to participate the class and clear doubts.

Live demonstration of LA administration on model followed by hands-on session for the participants

Conclusions: It was aimed at a small group of students to make them well adapted to Local anaesthesia techniques.
