Dear Sir,

Sub.: Request to be the judge for the National level students' Technical Symposium- reg.

We are organizing National level students Technical Symposium MOMENTUM-16 for Mechanical Engineering students on 16<sup>th</sup> April 2016. In the symposium students from engineering institutions all over India are participating and presenting papers in various Mechanical Engineering areas such as Materials, Manufacturing, Design, CAD/CAM, Thermal sciences and Management.

The symposium is aimed at providing a platform for students to showcase their technical knowledge and to interact with their peers. The inaugural function of the symposium is scheduled to be held on 16<sup>th</sup> April 2016 at 9.00 a.m. in the Birla Auditorium, SIT campus, Tumkur, followed by the technical paper presentations by students in the Seminar Hall, Administrative Block, S.I.T. I request you to be the Judge for technical paper presentations.

Thank you,

With warm regards,

Yours Sincerely,

Dear Dr. Vinutha:

Thank you for agreeing to review Manuscript ID TCOM-TPS-20-0567 entitled "Wireless Energy Sharing for Maximizing Lifetime of Multihop Communications" for the IEEE Transactions on Communications. Please try your best to complete your review within the next 45 days. In your review, please answer all questions. On the review page, there is a space for "Comments to Editor" and a space for "Comments to the Author." Please be sure to put your comments to the author in the appropriate space.

To access the manuscript, login to the IEEE Transactions on Communications - Manuscript Central site at <https://mc.manuscriptcentral.com/tcom>. Your case-sensitive USER ID is cbvinutha@gmail.com.

For security purposes your password is not included in this email. If you are unsure of your password, please click the link below that will take you directly to the option for setting up a new password:

Once you are logged in, the Main Menu will be displayed. Please click on the Reviewer Center, where you will find the manuscript listed under "Awaiting Reviewer Scores." You can click on the manuscript title from this point or you can click on the "View Details" button to begin reviewing the manuscript. If you wish to view the manuscript and the review form simultaneously, click on the HTML or PDF icons – the manuscript will open in a new window. Leave the new window open, switch back to the main window, and open the score sheet by clicking on the Score Sheet tab. Follow the instructions for reviewers provided in the Manuscript Central site. I strongly encourage you to elaborate on your review in the space provided. Your specific comments will offer valuable feedback to improve future work. It is essential that you click the "Save" button if you wish to exit the review before you submit it to the Editor. Otherwise, none of the information that you have entered will be saved in the system. When you have completed your review and are ready to submit it to the Editor, click on "Submit." All communications regarding this manuscript are privileged.

Any conflict of interest, suspicion of duplicate publication, fabrication of data or plagiarism must immediately be reported to me.

In your review I would appreciate your considering the following questions.

1. Does the paper represent a technical contribution and, if so, what?
2. Is the paper well written? If not, how can it be improved?
3. Is the paper appropriately organized? If not, how should it be reorganized?
4. Can the paper be shortened without diminishing the quality of the paper or its results? If so, how?
5. Is it necessary that the paper be expanded? If so, where and how?
6. If the paper is not suitable in its current form, can it be modified to make it so? How?

<https://mail.google.com/mail/u/0?ik=a3f4e252f0&view=pt&search=all&permthid=thred-f%3A1667212357746031944&siml=msg-f%3A166721235774...> 1/3

7. Does the abstract give a clear summary of the results of the paper?

To facilitate the paper review process, we provide you the following information regarding the manuscript:

1) Please write 2-3 sentences concisely explaining the novel contribution of the paper.

Response: This is the first study that applies WES to bidirectional multihop communication and formulate an optimization problem to determine the amount of energy shared in each node that maximizes the lifetime of the multihop path. Based on the solidarity property, we propose centralized and distributed WESs, and provide analysis on the convergence and complexity of the algorithms.

2) What are your most closely related papers? List up to 3, including authors, title, conference/journal name, and status (publication date, accepted, under review, or in preparation). This list should include papers in conferences or journals, and those currently under review or in preparation that will be submitted within the next 2 months. Such papers should usually also be cited in the actual paper itself, especially conference versions.

3) What are the 3 most closely related papers by other authors, not including any of the present authors? Include the same information about the papers as in the prior question.

Response: 1. M. Mao, N. Cao, Y. Chen, and Y. Zhou, "Multi-hop relaying using energy harvesting," IEEE Wireless Commun. Lett., vol. 4, no. 5, pp. 565–568, Oct. 2015.
