## DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY Faculty development programme

**Title: Local Flap**

**Date: 12/01/20**

**Objective:**

1. To provide the participants basic knowledge on the use of Local flap
2. To train and educate the participants on the knowledge of Local flap

**Significance:**

A local flap consists of skin and subcutaneous tissue that is harvested from a site nearby a given defect while maintaining its intrinsic blood supply. Local fasciocutaneous flaps provide reasonable option for reconstruction of facial defects with good colour and texture match and good success rate.

**Course Content:**

1. Introduction to Local flaps.
2. Armamentarium
3. Procedure, uses and its application in Oral surgery

**Method of Content Delivery:**

One – hour lecture class using power point was conducted about Local flap

**Teaching Aid:**

Power point presentation for lecture class

**Audience:**

Department teaching staffs who were willing to participate were included.

**Resource person:**

Dr. Ashok Kumar K R, Professor & HOD, Department of Oral and MaxilloFacial Surgery gave lecture and demonstration on model.

**Description:**

One hour lecture class was given by the resource person.

Staff were encouraged to participate the class and clear doubts.

**Conclusions:** It was aimed at a group of certified clinical practitioners to make them well aware of the use of Local flap for the reconstruction of orofacial defects.

## DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY Faculty development programme

**Title: Distant Flap**

**Date: 03/04/20**

**Objective:**

1. To provide the participants basic knowledge on the use of Distant flap
2. To train and educate the participants on the knowledge of Distant flap

**Significance:**

Distant flaps are tissue transferred from a non-contiguous anatomic site. These flaps do not have an intact blood supply and requires growth of new blood vessels. They are indicated in situations where free flaps or local flaps are not possible or have failed.

**Course Content:**

1. Introduction to Distant Flap.
2. Armamentarium
3. Procedure, uses and its application in Oral surgery

**Method of Content Delivery:**

One – hour lecture class using power point was conducted about Distant flap

**Teaching Aid:**

Power point presentation for lecture class

**Audience:**

Department teaching staffs who were willing to participate were included.

**Resource person:**

Dr. Ravikumar R, Reader, of Department of Oral and MaxilloFacial Surgery gave lecture and demonstration on model.

**Description:**

## DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY

### Faculty development programme

Title: Cortical Implantology

Date: 25/06/20

#### Objective:

3. To provide the participants a basic knowledge about the Cortical Implantology
4. To train and educate the participants on the knowledge of Cortical Implantology and its Applications.

#### Significance:

Cortico-basal Implantology is a method/technology using a set of specific implants in order to establish a bone-implant-prosthetic system (BIPS). These implants are osseo-fixed in cortical bone areas with the intention to use them in immediate loading protocol. They are considered highly superior and more effective than the technique of conventional dental implants.

#### Course Content:

3. Cortical Implantology – Introduction, indications, uses, advantages and disadvantages
4. Live Demonstration of placement of Cortical Implants

#### Method of Content Delivery:

3. One – hour lecture class using power point was conducted.
4. Followed by live demonstration on placement of Cortical Implantology.

#### Teaching Aid:

4. Power point presentation for lecture class
5. Implant Kit
6. Model of maxillary and mandibular arch

#### Audience:

Department teaching staff willing to participate was included.

#### Resource person:

Dr. Ashok Kumar KR, Professor & HOD, Department of Oral and Maxillofacial Surgery gave lecture and demonstration on model.

#### Description:

One hour lecture class was given by the resource person.

The department teaching staffs were encouraged to participate in the class and clear doubts. A live demonstration was given by the resource person on Cortical Implantology and later hands-on was given to all the participants.

**Conclusions:** It was aimed at a group of certified clinical practitioners to make them well aware of the cortical implantology.
