Welcome to Tumkur, the place where even God rested here. It is land where Sri Rama and his wife Sita are said to have rested here on their way back from Lanka. Magnificent temples, Majestic forts, wildlife paradise and scenic splendor... Tumkur has them all. Every village has fascinating stories attached to them.

This town is a gate way to capital of Karnataka Bangalore. It is a major hub for education and learning. The Siddaganga Mutt located very close to city is giving shelter and food to thousands of students from all over India free of cost from several years. It is said the firewood that was lit for preparing food to devotees from more than hundred years is never been put off. Pavagada Fort, Aralaguppe, Lakshmi Narasimha Swamy Temple, Sree Siddaganga Mutt, Kalleshwara Temple and Goravanahalli Mahalakshmi Temple are the famous religious places of Tumkur. The Shivaganga hill is a renowned tourist place near Tumkur which is a conical structure with four faces and is very famous between pilgrims across the country. It is one of the popular tourist places in the state of Karnataka.

Most endangered species like slender Lories found at Nagavalli, Black Buck found at Mydenahally near Madhugiri, Spot billed pelican found at Kaggaladu near Sira are the live wires of wildlife in Tumkur District.

Delicious Tatte Idli of Kyatasanda is all time favorite breakfast for tourist who passes by this town. The tamarind of Tumkur is known for its quality and taste. It is also known as "Kalpataru naadu" because of large coconut farming all around the district especially Tiptur. If you miss to visit this place you miss a life time opportunity of seeing a living city with humble and friendly people.
