SIDDHARTHA CENTRE OF EXCELLENCE & EMINENCE

SKILL DEVELOPMENT PROGRAMME ON BASIC TO ADVANCED DIGITAL IMPLANTOLOGY

ACTIVITY REPORT

Sri Siddhartha Dental College & Hospital, Tumkur, conducted a Skill Development Program on "Basic to Advanced Digital Implantology" on 10th August 2026 at the Siddhartha Centre of Excellence and Eminence (SCEE), in association with S.I.N. Implant System Ltd., Brazil. The program was organized with the objective of enhancing the knowledge, clinical understanding, and practical skills of participants in contemporary implant dentistry and digital implant workflows. The program witnessed enthusiastic participation from IV BDS, interns, postgraduate students and faculty members. A total of 65 participants attended the lecture and 32 participants attended lecture and Hands-on. The scientific sessions were conducted by eminent guest faculty Dr. Sanjay Jain, MDS (Periodontology), a specialist in Perio-Implants and Laser Dentistry and a national and international faculty and speaker.

The scientific sessions covered comprehensive aspects of basic to advanced implantology, with emphasis on contemporary digital approaches to implant treatment. The lectures focused on implant treatment planning, principles of implant placement, digital workflows, and the integration of digital technology into modern implant practice. The scientific sessions were followed by an intensive hands-on training session on dummy mandible models under the expert guidance of the resource person. Participants received practical exposure to implant-related procedures and digital implant workflows, enabling them to translate the theoretical concepts discussed during the lectures into clinical application.

The combination of scientific lectures and supervised hands-on training provided a valuable platform for participants to enhance their clinical expertise and stay updated with advancements in implant dentistry. The program further reinforced the commitment of SCEE towards excellence in dental education, skill development, advanced clinical training, and continuing professional development.
