ACTIVITY REPORT

SKILL DEVELOPMENT PROGRAM ON ENDODONTICS FOR GENERAL PRACTICE **SIDDHARTHA CENTRE OF EXCELLENCE AND EMINENCE**

Sri Siddhartha Dental College conducted a 8 day skill development program on Endodontics for General Practice in association with Xpedent and Maarc dental from 13th July to 23rd July 2026 at Siddhartha Centre of Excellence and Eminence with the objective of enhancing knowledge and clinical skills of participants in contemporary endodontic practice. The program witnessed enthusiastic participation from interns, faculty members and general dental practitioners. A total of 17 participants attended the program.

The program was conducted by eminent guest faculty Dr. Vivek Mahale and Dr. Ananda Gowda, who delivered comprehensive scientific sessions covering the fundamentals and advanced concepts of endodontics. The lecture focused on diagnosis, case selection, access cavity preparation, working length determination, biomechanical preparation, irrigation protocols, and the obturation techniques. Emphasis was placed on evidence-based clinical practice and practical application of modern endodontic techniques.

The scientific sessions were followed by an intensive hands-on training program conducted under expert guidance of the resource persons. Participants initially performed endodontic procedures on extracted teeth, subsequently, on patients under close supervision, thereby gaining valuable clinical experience and confidence.

The program proved to be highly beneficial in strengthening the theoretical understanding and clinical competence of the participants in endodontic procedures. The program provided a valuable platform for interns, faculty members and general dental practitioners to refine their clinical expertise through evidence-based lectures and supervised hands-on training, reinforcing SCEE commitment to excellence in dental education and continuing professional development.
