FACULTY DEVELOPMENT WORKSHOP

A Faculty development workshop is scheduled on 25-05-2026 at 09.00 am to 04.00pm in Savyasachi Auditorium, SSDC, Tumakur. The topic for faculty development program is "Clinical application of soft tissue augmentation in implants and natural dentition". Resource person for the program is Dr. Mahanteesh MDS, Professor, Department of Periodontics, M.S. Ramaiah Dental College, Bangalore, Karnataka.

All Faculty are requested to attend the program.

Time	Session	Content	Teaching method
09:00 AM – 09:15 AM	Inauguration & Pre-test	Registration, introduction, objectives, pre-test assessment	Orientation & questionnaire
09:15 AM – 10:00 AM	Session 1	Principles of Soft Tissue Augmentation Around Implants and Natural Dentition	Interactive lecture
10:00 AM – 10:45 AM	Session 2	Diagnosis, Case Selection and Treatment Planning for Soft Tissue Augmentation	Lecture with clinical case discussion
10:45 AM – 11:00 AM	Tea break		
11:00 AM – 11:45 AM	Session 3	Clinical Applications of Soft Tissue Augmentation Around Implants	Lecture with clinical photographs and videos
11:45 AM – 12:30 PM	Session 4	Clinical Applications Around Natural Dentition and Long-term maintenance of Soft Tissue Health	Interactive lecture
12:30 PM – 01:15 PM	Lunch break		
01:15 PM – 02:15 PM	Session 5	Hands-on Demonstration: Periosteal Mucograft Technique to Increase Width of Attached Gingiva	Live demonstration on pig jaw
02:15 PM –	Session 6	Hands-on Demonstration: Pouch and Tunnel Technique	Live demonstration on pig jaw

FACULTY DEVELOPMENT WORKSHOP

Report

A Faculty Development Lecture and Hands-on Workshop on “**Clinical Application of Soft Tissue Augmentation in Implants and Natural Dentition**” was conducted to enhance the knowledge and clinical skills of dental faculty members in contemporary periodontal and implant surgical procedures. The program focused on the importance of soft tissue augmentation procedures for improving periodontal health, implant success, esthetics, and long-term treatment stability.

The scientific sessions were delivered by **Dr. Mahantesha, MDS, Periodontist, Implantologist and Laser Specialist**, who shared his expertise on diagnosis, case selection, treatment planning, and clinical applications of soft tissue augmentation procedures around implants and natural dentition. The sessions highlighted evidence-based approaches for managing soft tissue deficiencies and achieving predictable clinical outcomes.

A major highlight of the program was the hands-on demonstration conducted on a pig jaw model. Participants observed and practiced the **Periosteal Mucograft Technique** for increasing the width of attached gingiva and the **Pouch and Tunnel Technique** for soft tissue augmentation. The demonstrations provided practical exposure to surgical handling, flap management, graft stabilization, and tissue manipulation techniques.

Faculty members actively participated in discussions, interacted with the resource person, and clarified clinical challenges encountered in routine practice. The workshop enhanced participants' understanding of contemporary mucogingival surgical procedures and improved their confidence in clinical decision-making and treatment planning.

Feedback received from participants was highly positive. Faculty members appreciated the practical orientation of the workshop, the relevance of the clinical demonstrations, and the opportunity to learn advanced soft tissue management techniques. Participants expressed that the program was highly beneficial for improving their clinical and teaching competencies.

The workshop successfully achieved its objectives by strengthening faculty knowledge and skills in soft tissue augmentation procedures and promoting evidence-based periodontal and implant therapy. The program contributed significantly to continuing professional development and encouraged the adoption of advanced surgical techniques in clinical practice and dental education.
