ACTIVITY REPORT

SOFT TISSUE AUGMENTATION: PRINCIPLES TO PRACTICE SIDDHARTHA CENTRE OF EXCELLENCE AND EMINENCE

Sri Siddhartha Dental College conducted a workshop on **Soft Tissue Augmentation** in association with Geistlich India on 25th May 2026 at **Siddhartha Centre of Excellence and Eminence (SCEE)** with the objective of enhancing the knowledge and clinical skills of participants in the field of periodontal soft tissue augmentation procedures. The program witnessed enthusiastic participation from postgraduate students, interns, and faculty members. A total of 21 participants registered for the lecture session alone, while 26 participants registered for both the lecture and hands-on workshop.

The guest speaker, Dr. Mahantesha, delivered an informative and insightful lecture on various aspects of soft tissue augmentation, including indications, treatment planning, grafting techniques, and biomaterials used. Emphasis was laid on clinical applications and evidence-based approaches in achieving optimal esthetic and functional outcomes.

The scientific session was followed by a hands-on workshop on pig jaws, where participants were trained in soft tissue handling techniques, periosteal mucograft technique to increase width of attached gingiva (pouch and tunnel technique) under expert guidance. The interactive nature of the session enabled participants to clarify doubts and gain practical exposure to the procedures.

The workshop proved to be highly beneficial in improving the understanding and clinical competence of attendees in soft tissue augmentation procedures. The participants appreciated the well-organized scientific and practical sessions.
