Department of Oral and MaxilloFacial Surgery Enrichment programme

Title: Basic Life Support

Date: 06/12/2023

Objective:

1. To provide the participants basic knowledge on BLS
2. To train and educate the participants on the knowledge and Application of BLS.

Significance:

BLS medical care is generally of use for patients with life-threatening illness or injuries until they can be given full medical care by advanced life support providers or until they regain a state of normalcy. It is generally practised by medical professional and emergency unit in hospitals.

Course Content:

1. Introduction to BLS.
2. Video demonstration of BLS on model.

Method of Content Delivery:

1. One – hour lecture class using video was conducted about BLS
2. Followed by video demonstration.

Teaching Aid:

1. Video.

Audience:

Interns, Post graduate students and staff who were willing to participate were included.

Resource person:

Dr. Jambukeshwar kumar, reader, Department of Oral and MaxilloFacial Surgery gave lecture and demonstration on model.

Description:

One hour lecture class was given by the resource person.

The department teaching faculty were encouraged to participate the class and clear doubts.

A live demonstration was given by the resource person on BLS.

Conclusions: It was aimed at a group of certified clinical practitioners to make them well aware of the possible medical emergencies that can happen in a dental set-up and adapted to such situations by implementing BLS.
