DEPARTMENT OF ORAL MEDICINE & RADIOLOGY

“Indian academy of Oral Medicine and Radiology Day – 2025”

Theme :“Prevention of Oral Precancer and Cancer”

Report

To commemorate Indian academy Oral Medicine and Radiology Day 2025, department of Oral Medicine and Radiology had compiled a series of clinical images of potentially malignant lesion affecting the tongue to promote awareness and support early recognition. A lecture was organized for faculty, post-graduates and interns of the Sri Siddhartha Dental College, where key points to identification and differentiation from other tongue lesions were discussed. Prime importance was given to early detection and timely advices for investigation which may significantly improve the outcome.

The audience was equipped with the knowledge of subtle changes and warning signs of tongue lesions.

Let us stay informed, stay observant, and always be prepared to act—because early detection saves lives.
