ORAL HEALTH AWARENESS PROGRAMME THROUGH RADIO SIDDHARTHA (90.8FM)

DEPARTMENT: Prosthodontics And Crown & Bridge

TOPIC: Specialties in dentistry and post-insertion care of complete dentures

TIMINGS: 14/11/2025 (11:30 AM TO 12:30 PM)

PRESENTER: Dr. Sharon Abraham

BRIEF DESCRIPTION: Treatments rendered in dental specialties that focus on specific areas, such as Orthodontics (straightening teeth), endodontics (root canals), oral and maxillofacial surgery (jaw, mouth, and face surgery), and periodontics (gum disease). These specialists receive additional training beyond dental school to treat a wide range of conditions affecting the teeth, gums, mouth, and jaw. Also gave a talk on Post-insertion care of complete Dentures which involves wearing them constantly at first, starting with soft foods, and gradually returning to a normal diet. Clean the dentures daily with a soft brush and cleanser, but not toothpaste, and take them out at night to rest and clean your mouth. Be prepared for an adjustment period, such as increased saliva or sore spots, which should be reported to your dentist.
