7	Budget	00

Report:

“HPV VACCINATION DRIVE”

An HPV Vaccination Camp is being organized at the OBG OPD, SSMC Tumkur. It is open to girls and women aged 9-45 years.

The camp will be held on Saturday, 24 January 2026, from 11:00 AM to 1:00 PM.

The initiative aims to protect against HPV-related diseases and promote women's health.

Participants are encouraged to get vaccinated to secure a healthier future.

HPV vaccination protects against high-risk HPV types that cause cervical cancer, as well as other cancers like vaginal, vulvar, anal, penile, and oropharyngeal cancers.

It also prevents genital warts caused by low-risk HPV types.

The vaccine is most effective when given before sexual exposure, but still offers benefit up to 45 years of age.

HPV Vaccine significantly reduces cervical cancer incidence and precancerous lesions, proven by long-term studies.

The vaccine is safe, well-tolerated, and does not affect fertility or pregnancy outcomes.

HPV vaccination, along with regular screening, is a key strategy for cervical cancer prevention.

A total of **108 participants** took the vaccine, a significant step forward in the fight against HPV-related cancers.

With the successful completion of the **HPV Vaccination Drive**, the event concluded on a highly positive and impactful note. The drive was a testament to the power of awareness, education, and community collaboration in advancing women's health.
