3	Date/s of activity conducted	03/09/2026
4	Type of the activity	Meeting
5	Title of the activity	Pharmacovigilance Committee Meeting
6	Number of participants	46

Report:

The Department of Pharmacology organized the **Third Quarterly Pharmacovigilance Committee Meeting** on 03 September 2026 at 02:30 PM at the MEU Hall, Department of Pharmacology, SSMC. The meeting was conducted as part of the institution's ongoing efforts to strengthen pharmacovigilance activities, promote reporting of adverse drug reactions, review pharmacovigilance-related activities, and improve patient safety through rational and safe medication practices.

The meeting commenced with a review of the action points arising from the **Second Quarterly Pharmacovigilance Committee Meeting**. The progress made on the previously identified activities was reviewed and areas requiring further follow-up were discussed.

The pharmacovigilance activities undertaken by the **AMC and MDMC during May–August 2026** were subsequently reviewed. The committee discussed the progress of adverse drug reaction reporting, medical device adverse event reporting, awareness and sensitization activities, and other pharmacovigilance-related initiatives undertaken during the period.

The committee emphasized the importance of continued collaboration between the Department of Pharmacology and clinical departments for strengthening ADR and medical device adverse event reporting. The need for continued awareness among healthcare professionals regarding identification, documentation and reporting of suspected adverse events was also highlighted.
