Report:

WORKSHOP ON VPD Surveillance

Department of PAEDIATRICS, SSMC Tumkur

Date: 2nd December 2025, Tuesday

Venue: Dermatology Seminar hall

Introduction

The Department of Pediatrics, SSMC Tumkur, in collaboration with the World Health Organization (WHO), continues its commitment to strengthening disease surveillance and ensuring early detection of conditions of public health importance. As part of the Acute Flaccid Paralysis (AFP) and Measles Surveillance Programme, all healthcare professionals are urged to remain vigilant and promptly report suspected cases.

This initiative aims to identify any child below 15 years presenting with sudden onset weakness or floppiness, as well as individuals of any age in whom poliomyelitis is suspected. Similarly, all cases of fever accompanied by a maculopapular rash, or cases clinically suggestive of measles, must be immediately notified. Timely reporting enables early investigation, rapid response, and prevention of disease spread, thereby protecting the community and supporting national elimination goals.

Through active participation and prompt communication, we reinforce our shared responsibility to safeguard child health and maintain a polio-free and measles-free environment.

Schedule if any: NIL
